## Boy Drowned in Statist.

Robert Frank Pfister, only son of Louis J. Pfister, 2136 Dunning st., Madison, was found dead in the bathtub at his home at 9:30 Sunday morning. According to Dr. Richard Aylward, who was called in, the cause of death was due either to drowning or heart failure. One theory is that on getting out of the tub, young Pfister slipped on a piece of soap, struck his head against a faucet, was knocked unconscious, and drowned the other that he died of heart failure.

## Village Tax Notice.

The village tax roll for 1919 is now in my hands for collection. Taxes may be paid at my store during the month of January without penalty.

S. T. Baillies, Village Treasurer

## The Successful Farmer Raises Bigger Crops

and cuts down costs by investment in labor-saving machinery.

Good prices for the farmers' crops encourage new investment, more production and greater prosperity.

But the success of agriculture depends on the growth of railroads—the modern beasts of burden that haul the crops to the world's markets.

The railroads—like the farms—increase their output and cut down unit costs by the constant investment of new capital.

With fair prices for the work they do, the railroads are able to attract new capital for expanding their facilities.

Rates high enough to yield a fair return will insure railroad growth, and prevent costly traffic congestion, which invariably results in poorer service at higher cost.

National wealth can increase only as our railroads grow.

Poor railroad service is dear at any price. No growing country can long pay the price of inadequate transportation facilities.

REBURY OUSTED SECOND TIME.

Washington, D. C., Jan. 10.—Victor Berger, Milwaukee socialist, elected from the fifth Wisconsin congressional district after he had been refused membership in the house, "because he gave aid and comfort to the enemy," was deposed his seat again today by a vote of 228 to 6.

Problems Facing Stricken World.

A remarkable series of articles under the above title has been selected for The Sickle and will be commenced in the issue of January 21. These articles go to the very heart of the great subjects of discontent and unrest as they are manifested in Europe and reflected in this country. The author is Frank Comerford, a lawyer, legislator and writer of national repute, who has just completed a tour of all the leading countries of Europe as a representative of the Western Newspaper Union for the special purpose of gathering material for articles. Mr. Comerford writes for the betterment of the great American people, not for any particular class. His articles comprise the keenest array of facts and conclusions that have yet been presented, and we believe that they will have a marked effect upon the settlement of the most acute problems of the day. We sincerely hope that every reader of The Sickle will study and consider them carefully.

**Rooming House Ruled By Fire.**  
According to Madison papers, the large three story rooming house at 705 West Johnson street, owned by Mrs. James H. Owens, of this place, was partially destroyed by fire Wednesday morning. After an hour's fight, three fire departments extinguished the blaze, which destroyed the roof and injured the building. The damage has not been estimated, but will amount to hundreds of dollars, as heavy streams of water had to be used, flooding the entire structure. The house was occupied by a score or more men students. A roof fire was extinguished there about two months ago.

# SALE! MONEY RAISING SALE!

**\$12,000 Worth Of Goods To Be Sold For \$9,000 In Twelve Days.**

## \$12,000 CLEARING SALE FOR \$9,000!

That means we are taking \$12,000 worth of goods, and selling it for \$9,000. Furthermore it means that we are taking \$1.00 worth of goods and selling it to you for 75 cents.

You no doubt are wondering how we can do it. We are

more than willing to tell you the secret:

You all know the conditions of the past year—shortage of labor and production. Goods were very hard to get. We had over \$20,000 worth of goods bought in 1918 and in 1919, which were not delivered until November, 1919. Since November 5th and January 5th we have received two-thirds of our orders,

which we were more than pleased to receive, as they were 30% below the cost today.

Now, dear buyers, we are sure that you realize the conditions today. High cost of production, and 75% decrease in every line of goods necessary for everyday use.

For example: all the merchants in the country are buying their rubber wear for next winter. We have already

paid from 15% to 45% higher than we paid last year. The majority of manufacturers in the U. S. sell their productions the year before delivering. So you can rest assured that clothing and shoes will be no lower, next year, but higher.

The merchandise we offer you on this titanic sale, in proportion to what you will have

to pay next spring or fall, is a 50% saving for you.

You are no doubt wondering why we are putting on this big sacrifice sale.

We are very much pleased to tell you the reason why: As we stated above, we have received all these large back orders, which we are not financially fixed to carry. You are absolutely going to be the benefactor in this case. We

are doing this to raise \$9,000 within twelve days, which we are sure we will have no trouble in doing in five days. We ask everyone of you to come early and get these big bargains, and have your pick while the stock is complete.

**THE SALE WILL BEGIN MONDAY, THE 19th, AND WILL CONTINUE UNTIL FEBRUARY 1st.**

### CLOTHING SPECIAL

Young men's and boys' clothing. We have a very nice line of wool, serge, and corduroy suits—125 of them—which will be sold at the following prices:
