TELEPHONE NUMBER 127.

MAZOMANIE, WIS., JAN. 30, 1920

OBITUARY

Mrs. E. G. Madison.
 Sarah Gouldsbrough Ellis was born in Maskeo, England, October 18, 1838. When eleven years of age she came with her family to America. She attended the Mazomanie Seminary which then occupied the building known later as the Miss Sophie Booth home. She was married to William Madison in August, 1858. To this union were born four children, all of whom survive their mother. Mr. and Mrs. Madison, when first married, lived at West Point, Wis. Later they lived in Worthington, Minn., for a few years, since which time the home has been in Mazomanie.

In September, 1918, on receipt of a telegram stating that her daughter's husband, Dr. E. E. King, had been killed in France, Mrs. Madison went to King's home in Fulda, Minn. While there, she was taken ill, and for eight and a half months previous to her death, she had been confined to her bed. The end came peacefully early Saturday morning, January 17, 1920. Sunday morning the body reached Mazomanie, accompanied by the daughter, a son, William Madison, and a sister, Mrs. Bywater. Funeral services were held at the late home in this village, Tuesday afternoon, January 19, and were conducted by Archdeacon Wolfe, of Lancaster, and Christ Chapter Number 3, Order of the Eastern Star. Archdeacon Wolfe based his comforting sermon on parts of the twenty-third psalm.

Mrs. Madison leaves to mourn her loss Elizabeth King, of Fulda, Minnesota; William Ellis Madison, of Worthington, Minnesota; Dr. James Daniel Madison, of Milwaukee, Wisconsin; and Joseph Frederick Madison, of Oconto, Wisconsin; one sister, Mrs. Eliza Bywater, and a brother, Nathan Ellis, both of Mazomanie; a brother, Thomas Ellis, of Chula Vista, California; eight grandchildren, and a large circle of more distant relatives, besides a great many warm friends. Her husband's death occurred twenty-eight years ago.

Mrs. Madison was a strong, positive character. To her home and friends, and to her church, her loyalty and devotion were limitless. She was most cordial and hospitable to as many a friend as could visit. During her last illness she bore her suffering with wonderful patience, uttering no word of complaint. She spoke by name of many of her relatives, neighbors, and other friends, asking that some special

prayer be said for her, and ending, in prayer, "Tell them to send me to heaven."

When she is absent grief we lagged, Came tender vision, unheeded before; Weep not, the one whose loss you sorrow, Has once upstairs and shut the door. Passed on beyond our mortal vision, But now the thought is robbed of gloom. Within the Father's many mansions Still dwelling, in another room. The one whose going left us lonely, Is smiling brightly undimmed of years And, guided on by Love's unfolding, Has once upstairs and shut the door.

In Memoriam.
 Smith.—In memory of Fannie I. Smith who died four years ago January 30, 1920.

Gone dear wife and mother How we miss your smiling face, But you left us to remember, None on earth can take your place. Happy home we once enjoyed How sweet the memory still, But death has left a loneliness This world we never fill. Your loving husband, C. W. S., Jr.

County Treasurer Completes Mothers' Pension Report.
 County Treasurer H. G. Rinder has completed a report to the state board of control covering mothers' pensions for the year ending December 31, 1919. Exactly \$25,740 was paid out to 120 mothers, of whom only 20 live outside of Madison.

Seventeen Cattle Burned.
 Seventeen cattle were burned at a disastrous blaze on Friday afternoon last, the ghostly garage and thirteen cars being destroyed. The fire started from the back-fire of a car which was in the repair department, and though strenuous efforts were made by the attendant to control the flames it was a short-lived fight.

Four Students Die Of Flu In One Day.
 Influenza in Madison claimed its sixth victim at midnight Wednesday night when the fourth death of a university student in one day was reported. Two men died during the afternoon at the university infirmary and

two more and one at the university. Twenty-eight new cases were reported to the board of health Wednesday. There are 161 cases quarantined in 131 homes in the city, in addition to cases confined in hospitals and rooming houses. Two more deaths in university circles were reported Thursday, making the total of Madison flu victims, 11.

To the Dyspeptic.
 Would you of like to feel that your stomach troubles are over, that you can eat any kind of food that you crave? Consider then the fact that "Laxative's" Tablets have cured others—why not you. There are many who have been restored to health by taking these tablets and can now eat any kind of food that they crave.

La Follette Goes To Mayo Hospital.
 As a result of an infection due to his teeth, Senator R. M. La Follette has gone to Rochester, Minn., to enter the Mayo hospital. For several months past the senator has been contemplating going to the Mayo hospital for examination and while visiting in Madison he thought that this would be a opportune time to go to Rochester.

SICKLE ADS. BRING SURE RESULTS.

From The State Board of Health.

January 22, 1920.

To Local Health Officers:

From the reports received at this office during the past three days we feel very certain that we have an epidemic of influenza which may assume very serious proportions. Judging from the reports received from a large number of physicians in various sections of the state it does not appear that the present out-break is associated with any marked degree with the present type of influenza which we experienced during the fall and winter of 1918 and 1919. A few cases of pneumonia associated with the influenza are being reported, and there is great danger that this present out-break may assume serious proportions at any time.

The rules and regulations which have been adopted by the State Board of Health and properly published in the official state paper, therefore giving them the full force of law, must be strictly observed. These rules require the reporting of all cases to the local health officer within twenty-four hours, and the placarding of the home with a sign or placard containing the word "influenza" in large bold-faced type. The rules also provide for the isolation of those who have the disease. The placarding provided for under these rules does not inflict a serious hardship upon anyone for the reason that the head-winners can go about their work as usual. The general public is entitled to know, and should know when there is a case of influenza in the home, so that no one will be innocently exposed to this disease.

The local health officers in eighteen of the principal cities throughout the state have been wired today as follows:

"The epidemic now prevalent in the state is undoubtedly influenza, apparently not the pneumonia type but serious and may become virulent. Rules regarding reporting, placarding, isolation of all cases of influenza or a gripe must be enforced. During occurrence of influenza in your city wire this office daily giving number cases influenza, cases pneumonia, deaths from pneumonia. Very important. Mark all telegrams official business, government rates, charge to public health service."

Until further notice we ask that you send us daily a report of the number of cases of influenza, cases of pneumonia, and deaths from influenza and deaths from pneumonia for your district.

Do not fail to send in these daily reports and insist that all cases of influenza and pneumonia following influenza be reported to you as the rules provide.

Individuals ill with what is often considered only a severe cold, should be urged to go to bed immediately, and if there are any alarming symptoms consult a physician.

The owner or manager of all places of amusement should be urged to exclude from the building any one who has a severe cold or shows other symptoms of having influenza. If these suggestions and the rules are strictly enforced the State Board of Health is of the opinion that more stringent orders requiring the closing of places of amusement, schools, churches and other public gatherings will be unnecessary.

It is generally recognized that influenza, regardless of the type of the disease, is communicated from person to person, and the most common manner in which the infection is spread is by the droplets thrown off during sneezing, coughing, or speaking. Other common agencies for the transmission of influenza are soiled hands, common drinking cups, roller towels, and improperly cleaned eating and drinking utensils in establishments providing food and drink.

Information concerning the character and means of preventing influenza should be freely circulated and we ask that you have this communication, together with any additional suggestions you may have to offer, printed in one of your local papers of general circulation.

There should be no occasion for undue alarm in any community on account of this epidemic provided the state rules are strictly enforced and the general public co-operates to the fullest extent in reducing to a minimum the danger of exposure to infected persons and if the suggestions made relative to the care and treatment of those who have influenza are carried out. Do not fail to send us a daily report of conditions in your locality.

Very truly yours,

C. A. HARPER, State Health Officer.

The Best Cough Medicine.

When a druggist finds that his customers all speak well of a certain preparation, he forms a good opinion of it and when in need of such medicine is almost certain to use it himself and in his family. This is why so many druggists use and recommend Chamberlain's Cough Remedy. J. B. Jones, a well known druggist of Culm, Ky., says: "I have used Chamberlain's Cough Remedy in my family for the past seven years, and have found it to be the best cough medicine I have ever used."

This picture, painted especially for the Near East Relief by M. Leone Bracker, vividly portrays what words fail to express—the horrible suffering of the women and children of Armenia and adjacent countries. Peace has been more frightful than any war time experiences of the marauded populations of Belgium and France still exist. Thousands of women and children wrapped in misery by the Turkish soldiers only to face the terrible agonies of death by starvation. At the present time it is estimated that 1,250,000 adults and fully 250,000 orphaned children are completely destitute and in imminent danger of death by starvation and exposure.

The Near East Relief, 1 Madison Avenue, New York, is at present the only organization giving aid to these suffering people and lack of funds still prevents the reaching of more than a small part of the stricken people.

"Problems Facing Stricken World"

By FRANK COMERFORD

Newspaperman, lawyer, fighting politician and public speaker with an insatiable appetite for facts, the author is blessed with an unsurpassed virility of expression and ability as a word painter. Returning from the devastated regions of Europe, he has a most startling message for America. He visited England, Ireland, Belgium, France, Italy, Germany, Austria, Czechoslovakia, Poland, parts of Russia and the Balkans, talking with and cross-examining everyone from the lowest to the highest; pursuing every possible avenue of information. The series is a literal interview with the ghost of unrest, forewarning and foretelling us.

Arrested For Smoking.

Zion City, Ill.—S. H. Page, superintendent of the Marshall Field lace factory here, and Arnold A. Fanta, both of Waukegan, have been each of \$50 each for their appearance in court on January 31 on charges of smoking while the city limits of Zion City. Officer Thomas Gallagher saw them smoking while standing on the platform of the Northwestern station, Page pulling on a "tag" and Fanta holding in a "dud." They escaped but on their next appearance in the city were arrested.

No Great Art of Heroism Required.

If some great act of heroism was necessary to protect a child from group, no mother would hesitate to protect her offspring, but when it is only necessary to keep at hand a bottle of Chamberlain's Cough Remedy and give it as soon as the first indication of cough appears, there are many who neglect it. Chamberlain's Cough Remedy is with the reach of all and is prompt and effective.—Adv.
