Mrs. Fetherick-Corcoran Case in Court.

Preliminary hearing in the suit which Mrs. Mary A. Fetherick is bringing against William J. Corcoran, of Madison, for playing a confidence game, was made in superior court, Madison, Saturday morning, before Judge Hoppmann. Mrs. Fetherick, who was the wife of the late Richard Fetherick, well known newspaperman, claims that in 1915 Corcoran sold some bonds for her, to the amount of \$1,000, and that he told her that he would invest the money in shares in the Madison Square Co. He met her on the street, took the bonds, it is claimed, and went into his bank when he returned he handed Mrs. Fetherick an envelope in which were, she supposed, shares of the Madison Square Co. Without looking into the envelope, she deposited it in her bank, to discover later that the shares were not there. Attorney for Mrs. Fetherick are Roman Hoffman and Assistant Attorney General John Baker. Rufus B. Smith is attorney for Mr. Corcoran. The latter was released on \$1,500 bail.

Will Listen For Mars' Message.

Omaha, Neb., April 22.—A gigantic electric car, attuned to catch sounds from other worlds, will begin listening today at Fort Omaha for a message from Mars. This is the beginning of a series of experiments that will be concluded with a voyage in a free balloon by Professor David Todd, amateur college astronomer, and Leo Stevens, foremost American aeronaut. The experiments have been taken over by the government, and the balloon flight has been delayed by the inevitable "red tape" at Washington. The balloon is under construction here, and with it Stevens and Todd hope to reach a height of 40,000 feet or more, where they believe the instruments will register any sound from inter-planetary spaces.

"Outlaw Union" Men Still Out.

The "outlaw" unionists who rebelled against the brotherhood and defied the U. S. government by walking out a few weeks ago again earned their name of "outlaw" Wednesday when they repul-

ated the leaders of their new Switchmen's Association, asserted they had been "sold out," and broke up in disorder the meeting at Chicago in which the strike was to have been called off. John Gorman, president of the association, did not attend the meeting because the \$10,000 bail demanded by the government was not forthcoming. Later in the day Gorman gave bail, and rushed back to Chicago ostensibly to try to get the men back to work.

Four Percent Beer Wins in R. I. Providence, R. I., April 21.—Four per cent. beer was legalized in Rhode Island

today when the General Assembly passed a law defining that quality of beer as non-alcoholizing. The framers of the law hold the state has the right to define what is not intoxicating under the second section of the eighteenth amendment.

150 Dead, 1,000 Hurt in Tornado.

A death list of more than 150 and a property loss of many millions of dollars was the toll exacted by a tornado Tuesday which swept a score of towns and villages and isolated farms in eastern Mississippi, northwestern Alabama, and in the southern counties of Tennessee. In at least one case, that of Rose

family were reported to have been killed. Mississippi reports a death toll of 118. Alabama, 45, and Tennessee, 3. Many hundreds of persons were more or less injured.

A New Railroad.

A new railroad company for Wisconsin—The So-Central Link Railroad Co.—came into being last Friday with the filing of articles of incorporation with the secretary of state. The concern is to construct a forty-mile strip of road connecting the Illinois Central line at Madison with the Sauette Ste. Marie at Portage.

How is Your Complexion?

A woman should grow more beautiful as she grows older and she should due regard to bath, diet and exercise, and by keeping her liver and bowels in good working order. If you are languid and yellow, your eyes losing their lustre and whites becoming yellowish, your flesh flabby, it may be due to indigestion or to a sluggish liver. Chamberlain's Tablets correct these disorders.—Advertisement.

Want One Dollar an Hour.

Madison carpenters are holding out for a minimum wage of \$1 an hour. The strike committee of the carpenters refused an offer of ninety cents an hour submitted at a conference last Tuesday evening. The committee had previously refused an offer of \$7½ cents an hour as inadequate. Building operations in Madison have been tied up since the strike call was issued by the carpenters April 21.

Five Frozen to Death in Storm.

Denver, Colo., April 21.—With another blizzard predicted for Colorado tonight, belated reports of the record-breaking storm that tied up all rail transportation here from Saturday to Monday showed five persons were frozen to death and thousands of head of livestock had perished. Hundreds of volunteer citizens today were helping to dig out the Moffatt railroad to connect "top of the world" to release some bound feed for starving cattle.

Are You Happy?

To be happy you must be well. If you are frequently troubled with constipation and indigestion you cannot be altogether happy. Take Chamberlain's Tablets to correct these disorders. Are prompt and effective, easy and pleasant to take.—Advertisement.

Dueling was abolished by the British army in 1944.

HEALTH NOTES.

Extension Division, University of Wisconsin, Health Instruction Bureau.

ARE YOU CURIOUS?

We are frequently asked—

1. Are drafts harmful to health?

Answer: Drafts, by chilling the body and thus lowering the vitality, may cause a person to be in condition to "catch cold" or take some other disease which he might otherwise have had the resistance to fight off. From the draft itself, providing the germs of disease are absent, it is extremely unlikely that one will "catch" anything more than a stiff neck. However, as germs are present, at almost any moment it is advisable to avoid any drafts which cause discomfort.

2. Perhaps our most common question is—"Is tuberculosis inherited?"

Answer: No. Authorities now agree that tuberculosis is not inherited. The fact that children of tuberculous parents frequently also have tuberculosis is due to the susceptibility of children to this disease. It is "caught" from the parent; not "inherited." Frequently, the symptoms of active tuberculosis do not become evident until years after the infection has apparently occurred. Hence, a person who has been infected by a tuberculous parent in childhood may not show signs of the disease until years later in adult life, even after long separation from the parent from whom the disease was contracted.

3. What is the "Wasserman Test"?

Answer: The Wasserman Test is a test of the blood to determine whether or not syphilitic infection is active in the system at the time of the test.

Big Dance.

A big dance will be given in Schmitt's hall, Friday evening, April 30.

In 1813, the 20th of April, the

U. S. purchased Louisiana from France for \$15,000.

And this day we will have a big dance for old and young. Five-piece French orchestra. Admission \$1.00, war tax included. Everybody come.

Evan Lloyd and George W. Baker are planning on building large barns on their farms this season.

R. L. Southard, S. T. Hamilton, and F. M. Allen transacted business in Milwaukee on Tuesday of last week.

Atwood F. Webster and wife of Clyde moved into their new home here the last week, recently purchased from Alex. Hamilton.

Walter Holstein attended a sale of pure-bred Holstein cattle at Monroe, on the 15th, and made a purchase of four head, which now gives him a pure bred herd of forty.

Mrs. Edward Boylan, of Eastman, and Edward Riley, of Ridgeway, were called here this week to see their mother, Mrs. Margaret Riley, who was for several days dangerously ill, but the last few days there has been a marked improvement in her condition, and she probably will not long have to her recovery from no other complications develop.

On the evening of April 15th, Mr. and Mrs. T. R. Jones gave a reception to their mother, Mrs. Margaret Riley, who was preparing to leave for England, where, where he expects to make his permanent home. Mrs. Jones' brother, George Hoffman, was also one of the guests of honor; he also is preparing to make a trip to California for a year's stay on the coast. About fifty neighbors were present, and an enjoyable evening spent.—Dodgeville Chronicle.

18 Head of High Grade Holsteins

—and—
2 Registered Bull Calves

The herd consists of nine cows in milk and two to freshen in June; two 2-year-old heifers, and five fall calves.

The cows have records of 250 lbs. to 411 lbs. of butter in a year, and their tests average from 3.3 per cent. to 3.9 per cent. They are all bred to King Marydale Carlotta, a son of a nearly 18-lb. two-year-old. The two-year-olds will freshen in the fall and are well grown heifers. The fall calves are large and well developed, and are sure to make good cows.

The registered bull calf, KING MARYDALE JOHANNA, was born December 14, 1919, is nearly white, and is out of a two-year-old heifer that made 11.63 lbs. of butter, three months after calving. His sire is King Marydale Carlotta.

HICKORY GROVE ORMSBY was born February 10, 1920, is about two-thirds black, and is out of a cow that milked over 50 lbs. a day on two tests. His sire is George Colonel Johanna, a full brother to Queen Ella Johanna, who made 11.63 lbs. of butter in 7 days as a junior two-year-old.

Herd tuberculin tested and guaranteed free from abortion.

WILL ALSO SELL THREE PURE BRED DUROC-JERSEY FALL BOARS, OF GOOD BREEDING.

Don't fail to attend this sale if you are looking for some good cows and hogs. We are closing out all our high-grade cows, and will hereafter raise pure bred cattle exclusively.

COULD HARDLY GET HIS BREATH

Johnson's Troubles Disappear After He Takes Tablets.

"The way Tanlac has built me up proves to me that it is a great medicine," was the statement made a few days ago by Gust A. Johnson, who he called at the Abbott Drug Co. in Duluth, Minn. Mr. Johnson lives in Virginia, Minn., and has been employed by the Duluth and Iron Range Railroad for thirty-five years.

"I suffered from stomach troubles in its worst stages," continued Mr. Johnson. "After eating my food wouldn't digest, but would cause gas to form on my stomach, and I would be so short-winded that I could hardly get my breath. I had awful rheumatic pains in my knees, and at times they would get so stiff I could hardly walk. I was nervous and restless, and many a night I could scarcely sleep at all. And when I got up in the morning you can't imagine how I felt—all tired out and weak as if I hadn't been in bed the whole night. I never enjoyed eating for thinking about what was coming afterwards."

"I noticed in the paper about Tanlac, and decided to give it a trial. It's a fact, nothing can beat it for I've taken three bottles and I feel like a new man. My appetite came right back and I can eat anything I want now, and without suffering any bad effects. I never have any gas to form on my stomach, and that had made my breathing free just like it ought to be. The rheumatism has left my knees, and I'm not troubled with that stiffness any more. My nervousness and restlessness have gone, and I sleep like a log, get up every morning feeling like doing my work. My wife was troubled with stomach troubles and constipation, but she feels well just like I do now—no trouble at all. We used the Laxative Tablets, and I tell you they are mighty fine, and with Tanlac I never saw them beat. Tanlac is the greatest thing I've ever seen for I've tried it and know what I'm talking about."

TANLAC is sold in Mazomanie by Geo. A. Schulte; in St. Mary by C. C. Roberson; and in San Prairie by W. L. Schulte.—Advertisement.

How Diphtheria is Contracted.

One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ. If your child has a cold when diphtheria is prevalent you should take him out of school and keep him at the street until fully recovered, as there is a hundred times more danger of his taking diphtheria when he has a cold. When Chamberlain's Cough Remedy is given it quickly cures the cold and breaks the danger of diphtheria or any other grim disease being contracted.—Adv.

All gifts including the Inter-church and Post Centenary, will be made simultaneously. Sunday, May 25th, at 2.

LINDHE SAYS-

THE HUMAN FAMILY IS THE OLDEST INSTITUTION ON EARTH. IT MATTERS NOT WHERE MAN CAME FROM, HE IS HERE. NOT WHO MADE HIM, BUT HOW HE IS MADE. NOT WHERE WE ARE GOING, BUT HOW LONG BEFORE WE START. NOT HOW TO DIE, BUT HOW TO LIVE. NOT WHAT THE GAME IS, BUT HOW TO WIN IT. IF YOU HAVEN'T HEALTH YOU HAVEN'T THE RIGHT GRIP ON LIFE.

You Have the Best Health Resources When Your Spine is in True Line. You Run the Least Risk of Getting Sick When Your Nerves are Right. My System of Work is a Specialized Science of Correcting the Spinal Displacements Which Press Nerves and Cause the Most of the Conditions Called Disease.

Restoration from all forms of bodily complaint follow chiropractic adjustments. The benefits come early and last longer. There isn't any question but what such troubles as Headaches, stomach disorders, aching limbs, poor digestion and excretions, from General Nervousness, ailments of the Throat, Lungs, Liver, Kidneys, Spleen, Heart, Bowels, etc., many cases can be readily responded favorably to my spinal adjustments. I know because I have helped lots of folks to get well. Ask me for reference.

If your teeth need attention, see a dentist. A Chiropractor removes corns and bunions. In irremediable cases call a surgeon. Every fellow for his own business. Mine is to give the spine such attention as will enable a person who reside in the body to recover sick people from the organic or functional disturbances that constitute what is called disease. I use no medicines, write no prescriptions or give anything to rub on the body or inwardly take as a means of relief. Nature takes first place in all I do. She needs no substitute in the way of Chemicals.

Get Well to Stay via the Lindhe Way. Give Nature a free path of Nerve travel at the spine and health will result. Maybe not in every case, but in a larger percent than fairly can be claimed by any other mode of health practice.

BUY FORE-QUARTER BEEF AND SAVE MONEY.

The fair price commission declares that if consumers will buy more fore-quarter beef—where some less expensive cuts—they will save money. Here is something which the United States department of agriculture recently said on the subject:

"Because of its reputation as the choicest cut, the people ask for purchase of fore-quarter beef. If they would try a chuck steak, the chances are it would prove to be satisfactory and it would cost much less. The reputation of fore-quarter steak with the consumer is due to the fact that it is coupled with the fact that this cut costs only a very small per cent of the cost of the fore-quarter. It is sold at a higher price than any other cut."

"If people in general could realize the value of meat from the fore-quarter as compared with that from the hind-quarter and would use more of it, prices of meat as a whole would be greatly reduced and would be more stable."

An abundant demand for any commodity for use in the home and this condition applies to fore-quarter steak or other choice cuts. People should buy more fore-quarter meat and reduce prices of living. Any of the fore-quarter meat is good for making meat loaf or liberty steak, while in some markets, these are cut from the rib and sell at short cut steaks."

The department of agriculture shows plainly how expensive it is to discriminate against the fore-quarter beef.

The average consumer without realizing the difference in the selling price

The liver was at one time believed to be the seat of love.

Of beef taken from the hind-quarters and that cut from the fore-quarters, and if he is aware of it he very likely does not understand the reason therefor. The wholesale prices on hind and fore-quarters are based on a differential of so much over carcass price for hind-quarters and so much under carcass price for fore-quarters. It is seldom that fore-quarters ever sell as high or that hind-quarters sell as low as carcass prices. The average fore-quarter is usually 2 cents over hind and 2 cents under on fore-quarter. The differentials are greater, both over and under.

"The differential is changed according to the market. This is just the time of year for persons who purchase meat to be well acquainted with beef from the fore-quarter. Such meat is used largely for roasts, and steaks. On this account it requires more heat for cooking in cold weather, when it is necessary to heat the house for personal comfort, there is a double reason for using fore-quarter beef."

Neck Meat of Beef Loaf.

2 lb neck meat of beef ground in 1 lb lean pork ground.

1 egg.

1 green pepper, chopped fine.

2 cups bread crumbs.

Liquid to moisten.

3 slices of bacon.

Put the beef, pork, egg, pepper, bread crumbs and seasoning with sufficient milk or water to form into loaf. Arrange strips of bacon on top. Bake in loaf or casserole in a cooking oven for two hours. Cover if necessary to prevent the top from becoming too hard and dry.
