Dane County Statistics.

Some highly interesting statistics concerning Dane county have just been compiled for the state department of agriculture by J. A. Becker, joint crop statistician for the state and federal departments. These statistics cover farm labor supply, daily milk production per cow, price received for milk, and total value of milk product. From these it appears that the present supply of farm labor in the county is seventy-one per cent. of normal; that the present demand for farm labor is 113 per cent. of normal. The cows of the county were milked in 1919 an average of 230 days each and their average daily yield was 17.1 pounds, for which an average price of \$2.84 per cwt. was received. The total value of the milk product for the year was \$10,321,810.

Memorial Sunday, May 20. Decoration Day, Monday, May 31.

Comrades of McDonald Post, G. A. R.: Please report at the Post hall on May 20th, at 9:30 a. m., to march to the community church for memorial services. I am sure that there is a growing regard for Memorial Day and all it signifies. It is a day regarded by every true patriot as sacred to the memory of the brave boys from 1861 to 1865, who gave their dear lives that our nation might live. Rev. Thomas will deliver the memorial sermon.

Special invitation to our boys of the world war who are with us again. It should be our pleasure to interest in memorial service—for life and life, after we are gone. It will be they, with our sons and their sons, who will stress flowers in our memory. Let us make comrades of them while we still remain with them.

We need one hundred bouquets made up, and brought to the Post hall, Decoration day, May 31, to decorate the soldiers' graves. There are three world war soldier graves to be decorated with flowers and flags. The Boy Scouts will place the flowers on the soldiers' graves.

Ellis-Hidelson. The home of Mr. and Mrs. J. E. Hidelson on West Main street was the scene of a very pretty wedding Wednesday evening, May 5, when their daughter, Hazel, became the bride of Walter Ellis. The whole house was handsomely decorated in pink and white, with sweet peas, streamers of crepe paper, bells and snuff. At exactly

which was begun by Miss Olga Christensen, of 444 Madison. The bride couple was attended by Mr. and Mrs. Earl Hidelson, the ceremony being performed under a beautiful canopy by the Rev. Wilbur F. Tomlinson. A delicious four-course luncheon was served immediately after congratulations had been offered by the large company of guests. Mr. and Mrs. Ellis had the best wishes of a very wide circle of friends—Duncort, Sparta, Wis.

Farmer Killed By Lightning.

John Randall, a farmer living about three miles east of Token Creek, was killed by lightning Monday morning during a brief rain storm. He and Mrs. Randall were standing in a shed when the storm came up. Lightning struck a pole near them, burning Randall's head badly. Mrs. Randall was not injured, due, it is claimed, to the fact that she wore rubbers. Dr. Carlson, of Jefferson, was called, but Randall was dead before he could reach the farm.

TO OUR PATRONS:

Telephone expansion must continue to be ahead of local and national progress.

As progress in our commercial, industrial and social life goes on, telephone service must be far enough advanced to receive and care for the increased demands.

During the war this was impossible. Manufacture of equipment was reduced and the reserve facilities and equipment was diverted almost entirely to war purposes.

Now that the war is ended, the Wisconsin Telephone Company plans to spend \$6,000,000 in new construction in the next two years and to restore its pre-war reserve of facilities and equipment.

Rates must be charged that will meet present costs, both in equipment and wages. The public must pay, but for its own benefit. Telephone service belongs to the public and it must be maintained, always, at the maximum of efficiency regardless of prevailing costs.

World War Veterans.

Comrades: The annual Memorial Day approaches. It is fitting that the soldiers of all wars should take the lead in teaching lessons of patriotism and manifest esteem for those who, having served under the flag, have since answered the last roll call, among which are some who lie beneath the green of our own cemetery. We do and will honor their memory. Comrades, let me appeal to you to be present next Tuesday, 5:00 p. m., at my home, to assist in arranging the plans. Don't fail me, men. The G. A. TO THE PEOPLE OF MAZOMANIE.

On account of the cost of carrying accounts, and high cost of carrying stock, we are forced to do a cash business.

Our plan is to give to our customers 15 days in which to pay for small bills for goods they purchase and find they haven't change enough to pay for what they buy when up town.

We have given this matter a lot of thought, and find that in order to stay in business we must carry out this plan. Often we must pay for goods we buy before they reach us.

We try to carry a complete stock of everything in our line. As you know, goods are hard to get. We are forced to buy ahead to have the stock, and it costs a lot of money to do this.

We will make no exception to our rule, so do not ask us. We will be forced to refuse your request. We want to use all our customers alike.

Wisconsin River Power Co.

Preferred Capital Stock—Par value of Shares \$100 each

DIVIDENDS OF \$1.75 PER SHARE PAID QUARTERLY ON THE 20th DAY OF FEBRUARY, MAY, AUGUST AND NOVEMBER OF EACH YEAR, BEING AT THE RATE OF \$7.00 PER SHARE PER ANNUM.

ORGANIZATION

The Wisconsin River Power Company was organized under the laws of Wisconsin in 1906, and is now furnishing electrical energy to a large portion of Southern Wisconsin for both light and power requirements.

BUSINESS

The Company has constantly progressed in the development of its business as is illustrated in its gross earnings and the number of kilowatt hours delivered as shown below:

	K.W.H. Generated	Gross Earnings
Year ending June 30, 1917,	67,457,730	\$285,951.38
Year ending June 30, 1918,	77,846,119	334,503.62
Year ending June 30, 1919,	81,711,367	416,533.72

Under present conditions, which will evidently continue for some time to come, and because of the high price of coal, the Company has requests for more energy than it is possible to generate, indicating that further substantial growth is to be expected as rapidly as it is desirable to install additional equipment. New contracts are taken only on a long term basis to protect the Company.

PROPERTY AND TERRITORY SERVED

The Wisconsin River Power Company serves through its steel tower, high tension, transmission lines a substantial proportion of the electrical energy required in the operation of the street railways in and around Milwaukee and the entire electric light and power requirements in the City of Madison, Wisconsin. In addition, it supplies the entire energy requirements of 12 communities in the vicinity of its plant at Prairie du Sac and has now under construction an additional 66,000 volt, steel tower transmission line to serve the Samson Tractor Company development at Janesville and to supply the great additional energy which will be needed in Janesville.

The Company owns, including the line practically completed to Janesville, Wisconsin, over one hundred miles of the highest type of steel double circuit 66,000 volt high tension transmission lines.

Its plant at Prairie du Sac comprises seven modern water wheel units of high efficiency, having a total energy capacity of over 30,000 horse power and turning out approximately 100,000,000 kilowatt hours per annum. This means that on a normal basis of consumption the operation of this water power, of at least 200,000 tons of coal per annum.

PURPOSE OF ISSUE

Up to the present time, in developing this important system, practically all of the funds have been secured from outside investors, and the public in the territory served has had no opportunity to join in the development of what is essentially a home industry.

The Wisconsin River Power Company has developed the properties owned and controlled by it in the belief that such properties are primarily a home industry in the respective communities of the territory served; and that this development is beneficial to the public. The Company, therefore, feels that an opportunity should be given to the investors in the communities it serves and the territory in which it does business to share in the ownership of the Company's securities.

To take care of the additional demands for service and to further develop the property to the consequent advantage of the territory in which the Company's operations are conducted, it is desirable to raise additional funds; the Company, therefore, is offering for subscription, \$500,000 par value of its Preferred Stock

The following is a summary of the principal features of this high-grade investment stock:

- (1) Issued by an old, established property with a large, well-demonstrated and increasing earning capacity.
- (2) Stock issued as fully paid and with the express covenant of Company that it shall not be subject to assessment for any purpose.
- (3) Exempt from all taxation in Wisconsin, and the income derived therefrom by individuals not subject to the normal Federal income tax.
- (4) The gross earnings have shown a steady growth during the entire history of the Company.

BOOKS AS MEDICINE

Books are frequently referred to as tools and as the key to the treasure house of knowledge. The American Library is daily demonstrating in U. S. Public Health Service Hospitals that convalescent soldiers and sailors find returning health and increasing strength in good books.

Arthur West at Hospital.

A. J. West, residing about two miles north of this place, was suddenly stricken and rendered helpless near the Kier farm, south of Black Earth, while driving homeward on a load of hay, Friday afternoon. He had earlier in the day hauled the hay from the Bert Wilson farm in Monroe Creek to the Haugner place, to be hauled. He was taken to Black Earth, where he was kept overnight, and taken to the general hospital at Madison on the morning train, Saturday, where he was operated upon at 10:40 a. m. by Dr. Jackson, when it was found that a perforation of the stomach was the cause of his trouble. While his condition is very serious, all are hopeful, and the latest report is to the effect that his condition is as good as can be expected under the circumstances. Mrs. West is with him at Madison, and his brother, Dr. West, of Madison, is taking charge of the farm in the meantime.

Farmer Gains Thirty Pounds And Gets Rid of Rheumatism By Taking Tanlac.

"Yes sir, I certainly can endorse Tanlac, for I know what it will do and I know from personal experience," said Robert Kerach, a well known and prosperous farmer living at Spencer, Nebraska, while in the Central Drug Store in Milwaukee, Wis., the other day.

"I am here on a visit to my mother who lives at 1323 Lewis Ave," continued Mr. Kerach, "as my Tanlac gave out I thought I would just drop in and get another bottle. This medicine has done so much for me that I just can't afford to be without it. Three years ago my health went down completely and I suffered like blazes up to a couple of months ago when I got hold of Tanlac. My stomach was in an awful condition. In fact, I had gotten to the point where everything I ate disagreed with me, and it just seemed that I would die from the awful cramping spells I would often have after meals. Very often gas would form so bad that it would just choke me up and almost cut my breath off."

"That was the condition I was in when a man came out on the farm one day to build a bridge, and as soon as he heard about the condition I was in, he advised me to take Tanlac, and also told me how it had overcome similar troubles for him. Well, sir, I have actually gotten back thirty pounds of my lost weight already, and when it comes to being sound and healthy there isn't a man in this country who has anything on me. Why, I am as well and strong as I ever was in my life, and my stomach is in such fine condition that I can eat just anything I want and never suffer a particle after wards. No more cramping spells, no more rheumatism, and in fact, all my troubles are gone and I just feel fine all the time. I never had such an appetite, and I can sit down to the table and eat so many big meals a day as anybody. Oh! I tell you it is simply wonderful the way Tanlac knocked my troubles out and made me into a sound, well man, and I can get out and do as much hard work on the farm as any man out there. I am strong for Tanlac, and no longer as I live I will never lose a chance to say a good word for it."

"TANLAC" is sold in Mazomanie by C. G. Robertshaw; and in Sun Prairie by W. L. Schultz.—Advertisement.

New Diphtheria is Contrasted.

One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ. If your child has a cold when diphtheria is prevalent you should take him out of school and keep him off the street until fully recovered, as there is a hundred times more danger of his taking diphtheria when he has a cold. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted.—Adv.

"Just as Man to Man" says the Good Judge

You get a lot more genuine satisfaction from a little of the Real Tobacco Chew than you ever got from the old kind. You don't need a fresh chew nearly as often, the good, rich, real tobacco taste is so satisfying. That's why it costs less to use this class of tobacco. Any man who uses the real Tobacco Chew will tell you that.
