MARKSVILLE

The county road workers are working on this road now.

Carl Brockman, of this place, moved to Middleton, Tuesday.

Mrs. Anna Hawley, who was operated upon at the general hospital in Madison returned home again last week Wednesday.

People from far and near were here Sunday, to attend the funeral of Mrs. William Ewert. Over a hundred cars were counted.

Obituary: Mrs. William Ewert, Augusta Hietz, a daughter of Mr. and Mrs. Carl Hietz, was born in Germany September 11, 1863. She came to America with her folks at the age of five years, and spent her childhood days on a farm near Springfield. She was confirmed in the German Lutheran church at Springfield in 1877, by Rev. William Sack. She was married to William Ewert, September 16, 1883, and they settled on a farm near Springfield, not later moved to Berry; in the year of 1901 they moved to Marksville, and lived there ever since. Several weeks ago she became ill and was taken to St. Mary's hospital at Madison, May 22d. She was operated upon the next day for a tumor, and it was found that she

had cancer of the liver. She passed away May 27th, 1920, at the age of 57 years, 8 months and 16 days. The burial took place May 30th, at the St. Paulus Lutheran church at Marksville, on Decoration day. The service was given by Rev. E. F. Scherbel. She leaves to mourn her death, her beloved husband, William Ewert, and nine children: William Ewert, Berry; Mrs. John Purdy, Milwaukee; Louise Ewert, Gordon, S. D.; Mrs. Roy Hartner, St. City, Iowa; Mrs. Edmund Schumann, Marksville; Mrs. George Denner, Middleton; Mrs. Kenneth Weed, Stout

City, Iowa; Augusta and Carl Ewert, at home. Two sisters: Mrs. Minnie Todd, Oaksho; Mrs. Louise Hyer, Baraboo; and many other relatives and friends.

A precious one from us is gone. A voice we loved is stilled. A place is vacant in our home which never can be filled. But 'tis God that has bereft us; He can all our sorrows heal; Yet again we hope to meet thee. When the day of life is fled, When in Heaven with joy to greet thee, Where no farewell tears are shed.

Funeral services were held at the home of Mrs. Ewert, and kindness expressed in so many ways during the illness and burial of our beloved wife and mother. We also thank Rev. E. F. Scherbel, the choir, and for the floral offerings.

William Ewert and Children.

Hearing of Lynaugh, Thursday.

The preliminary hearing in the case of the state against Matthew B. Lynaugh, Madison, politician, who shot and killed Carl E. Janshof, student of Grand Rapids, Mich., last Friday afternoon, was set for Thursday morning in the superior court at Madison, and will probably last about two days. The shooting occurred on Laughe street, near the lake. Lynaugh is being held on two accounts, murder in the first degree and manslaughter in the second degree. If convicted on the murder charge, he will be sentenced to life imprisonment at Waupun. Conviction on "second of manslaughter carries with it a sentence of from four to seven years."

TO OUR PATRONS:

The problems of peace, as did the problems of war, involve heavy expenditures by the Telephone Company.

There is much reconstruction and even more advance construction work to do before the former position of Readiness to Serve is regained.

Little or no construction work for two years, a vast increase in demand for service and a vast increase in the population to be served, presents a standing problem to the telephone management.

A dollar will not buy as much service or as much material as heretofore, which further complicates the problem.

In the circumstances the Telephone Company must adopt the policy so uniform among merchants in every line of business and sell its service at higher prices.

The higher rates are a protection to a service that is in the interest and for the convenience of every subscriber.

Bone Is Not a Good Cure.
From the Ames, Iowa, Intelligencer: When a man comes to you all doubled up with pain and declares he will die in your presence unless you procure him a drink of whiskey, send him to a doctor or else give him a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. There is a mistaken notion among a whole lot of people that bone is the best remedy for colic and stomach

NOTHING IN THE WORLD LIKE IT

This Is What Milwaukee Man Has To Say About Tanlar—Is Entirely Restored Now.

"My first bottle of Tanlar convinced me that at last I had struck a medicine that would help me," said Thomas Christie, of 494 Milwaukee St., Milwaukee, Wis., a few days ago.

"My stomach was in the worst kind of shape, and after nearly every meal I felt so stuffy and full that it seemed like I had a stone or lump of lead in the pit of my stomach," continued Mr. Christie. "My digestion was so bad that I could hardly drag myself out of the bed, and all day long it was all I could do to keep myself going. I got to the point where I couldn't eat a bite hardly and even then I still had that same heavy, full feeling in my stomach, like I had just got through eating a big hearty meal. My kidneys were in bad shape, and nearly all the time I had a dull ache low down across my back and that kept me from the drug store with him and got me a bottle, and, sir, right away I commenced to improve and today you see me a well man. My stomach troubles are all a thing of the past and I can eat anything I want without any bad effects at all and I don't have those cramping pains and heavy feelings in my stomach. My kidneys are in good shape and I never have that pain across my back and I can lift anything without feeling any strain or pain in my back. I'm not troubled with headaches or with nervousness any more, and I sleep fine every night and get up in the morning feeling good like a man ought to feel. I'll tell you I just feel good all the time and my mind is a pleasure to me and I don't know when I've seen the day I could do more work than I can do right now. There's nothing in the world like

Cut This Out and Take It With You.

A man often forgets the exact name of the article he wishes to purchase, and as a last resort takes something else instead. That is always a disappointing and unsatisfactory. The safe way is to cut this out and take it with you so as to be sure of getting Chamberlain's Tablets. You will find nothing quite so satisfactory for constipation and indigestion. Advertisement.

There is more Catarrh in this section of the country than all other diseases put together, and for many it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

Memorial Day Exercises.

Memorial day was beautifully observed in Mazomanie, the exercises being held on Monday, and were witnessed by a large number of people from the village and surrounding territory. The parade, headed by a large band, was formed in the morning, and consisted of old and young soldiers, boy scouts, school children, etc. At the quarter of the grave of eighty-four old veterans and four world war veterans were strewn with flowers. A picnic dinner was given at the school grounds at noon, many being present. After this a program of music, drills and exercises, and an address by Rev. F. J. Thomas, was carried out very successfully. The day was splendid, and everything went off well, under the management of efficient committees. The writer had hoped for a more detailed report of the day's doings, but on account of absence from town and not being able to procure a substitute is thus unable to do justice to the occasion.

HIGH LIVING COSTS.

"If the price of gasoline had not
tripled in the past few years, I believe
that it would have been the death
of me," remarked an average citizen in
the course of a philosophic discussion
of the high cost of living. "Like most
other people, I have a natural tendency
to like the soft things of life. As a
consequence I had got into the way of
letting a gas engine do the work that
my leg and other muscles were made
to do."

The best cuts of the highest priced
steak cutlets were naturally more ap-
petizing than the meat that had to be
chewed for a few moments before it
could be swallowed. Being more ap-
petizing, I ate far more of such food
than I needed and was growing more
stoutish physically and mentally than
I should have been.

"The case I couldn't lower prices nor
increase my earnings, to keep pace with
increases in costs, there was but one
thing left to do and that was to con-
sume less luxuries. I began to walk
to save gasoline. With every exercise
an appetite for the more natural and
nutritious food came to taste better and
to more satisfaction than the fancy
foods had been."

men have been publishing statements
that doctors of the heart, arteries and
kidneys have been rapidly increasing

A PHILIPPINE TRAVELOGUE

THE ROMANTIC ISLANDS OF THE FAR
EAST—PICTURESQUE, THEIR NATURAL
BEAUTY AND HISTORIC, EXOTIC—A
POPULAR WINTER RESORT.

The Zigzag on the Way to Baguio, Summer Capital of the Philippines.

All aboard! Let's go! We're start-
ing from Manila, the great picturesque,
Americanized Oriental city, and will
travel by automobile 200 miles to the
north to Baguio, the summer capital of
the Philippines. The trip can also be
made by train.

We have ahead of us one of the most
scenic, spectacular and thrilling auto-
mobile trips in the world. We will
have excellent roads all the way. The
Philippines are, in fact, a paradise for
automobiles, possessing 3,500 miles of fine
macadamized roads.

The first part of the trip is through
typical small towns and then across
the central plain of Luzon and through
several rich and fertile provinces,
where the scenery is very fine.

Here one is impressed with the

plains, which represents one of the
East's greatest producing areas, with
the advantage of immense natural re-
sources for the development of further
production. It is regrettably true that
even in the United States there is far
from any real understanding of the
potentialities of the islands.

At some points rice fields, looking in
the distance like the greenest of green
lawns, stretch away as far as the eye
can see. If you want color, if you want
to feel the romance and mystery of
an Oriental twilight, pass this way
at the red-eyed sun at the end of the
day; day is slowly sinking behind the
unending expanse of green fields. At
first you cry out in ecstasy at the
gorgeous scene. But as you ride along,
your eyes fastened on the panoramas
of tints and colors, and with the im-
mensely black Oriental night coming
on, you become entranced.

You no longer try to express your feel-
ings. You cannot. You realize that these
now fast changing, colorful land-
scape pictures that no man can ade-
quately describe are human inside the
pictures. So what's the use of trying?

True, these are but impressions, but
the traveler considers himself just-
ified in mentioning them, for they are a
part of the trip to Baguio and return.
Indeed, the gorgeous sunsets in all
parts of the Philippines leave an im-
pression on the mind of the tourist that
is hard to forget.

We leave the plains and tropical
foliage and enter the zone of rugged
mountains. We pass from the soft, increas-
ingly air of the warm lowlands to the
cool, invigorating expanse of the tem-
perate zone all within a few hours' time.

For mile after mile the road now fol-
lows the tortuous course of a river, the
road rising in the bottom or on the
rocky sides of a granite canyon.

The Philippines are rich in hydro-
electric possibilities. This power is the
cheapest power on earth. And it is
renewable. Your traveler is not a prophet
but he predicts that one day there
will be innumerable Philippine govern-
ment owned hydro-electric plants in
this region we are now passing
through. Think of the possibilities of
such a power! Today the trip from
Manila to Baguio is too expensive for
the average Manila worker and his
family, many of whom may live and
die without beholding the wonderful
beauties of their own island of Luzon.
Think of what a blessing it would be
to the Filipino mothers and children to
feel upon their fevered brows the cool,
invigorating breezes of the mountain
tops now so near and yet so far. With
the Philippine government owning its
own electric railways and hydro-
electric plants it would be possible to bring

the trip to Baguio within the means of
hundreds of thousands of Filipinos.
Not only is there sufficient power in
this river to electrify a line from Ma-
nila to Baguio, but to operate the
street railways of Manila, light the
city and furnish power for manu-
facturing concerns.

But we have now arrived at Camp
One. From this point the scenery
rapidly changes as the elevation in-
creases. We are traveling over the
famous Benguet road, the construction
of which through the mountains is a
most remarkable engineering triumph.
At places the road is blasted out of the
solid granite. Riding on the edge of a
100 foot precipice makes one feel like

"At times we seemed perilously near
the jumping off place."

"At times we seemed perilously near
the jumping off place."

As the rim of the world. Some of
the turns are so sharp it is impossible
to see 20 feet ahead, and we seem to
be perched near the jumping off
place. We wonder if it is safe to lean
out and peer into the canyon far below,
and when we do we are perfectly
satisfied we are flirting with death. Yet
the trip is a safe one, providing our
driver has better nerves than our own.

All too soon we reach the outskirts
of Baguio, a city among the clouds,
unfamiliarly surprised at the modern
city we find it to be. In contrast to
Baguio has grown from a village of huts
to the now, hilly, famous mountain re-
sort of the Philippines, sometimes called
the Philippine Santa. It is un-
doubtedly destined some day to become
a large city.

Baguio ranges in elevation from
1,500 to 5,000 feet and is surrounded
on all sides by high mountain
ridges and "hogbacks" towering
into the skies at a height of almost
5,000 feet.

Avoid from the scenery, which is
outstanding, the great blessing of Ba-
guio is its temperate climate, which is
a godsend to those impoverished
by the tropical temperatures of the
lowlands. Not only is the mountain
air rich in oxygen, but it is also
construed to be extraordinarily free
from germs of all kinds.

Each year during the hot season the
school teachers of the entire Philippine
are enabled to spend a month at the
Baguio for recreation and confer-
ence on school work. American army
officers and their families also go to
Baguio for the hot months.

And now that your traveler has
seen Baguio, he believes he will leave
you there, for there is nothing interest-
ing side trips in take and besides
Baguio is the most delightful place for
a vacation in the entire Orient.
