I'd like to know the price of that suit in your show window," asked Mr. Verne Pfanku, of Madison. Wis. \$25.00 we said. He said: "I don't want to buy a suit, but I was curious to know your price because I bought one just like it and paid \$50.00. The next time I'll know where to buy my suit."

If you have been disappointed in your clothes just try a few of our garments. We know we have what you want. Good snappy patternslight colors in grays and tans-double and single breasted made of excellent cloth well tailored splendid fitting in noby cut styles, exactly what you young men want.

Also an assortment of staple suits. Our clothes have real merit. A trial order will prove our statement. Prices range from \$20.00, \$25.00 to. \$30.00.

New Jefferson Shoes are here. We once heard a man say, talking about negroes, that he liked a man who was black outside and white inside better than a man who was white outside and black inside. The Jefferson Shoes are white ourside and inside. You're sure of a reward if you find anothing that's not leather inside or outside. The Jefferson Company has made sho for the Presidents or The United States. They cost a little more, but they are worth it.

We are closing out broken lots of shoes at real We haven't counted how many, but there are not so many as these are hairs on the head of a blonde that has, it's said, about 157,000. We don't know who counted them unless it was Will Patt. So, you'd better come early and get a pair of them.

For the vacationist we have new Trunks, Suit Cases, Traveling Bags, and Sport Clothes.

It Talks!

Pedro, Emperor of Begail, one June slay in 1870, a he held to his cer the receiver of Alexander Graham Bell's telephone, then on exhibit at the Philadelphia centential exposition, while the young inventor, some distance away, spoke into the transmitter.

Time has not detracted from the drains of this scene, nor robbed the emperor's tribute of fits truth. Fifty remarkable years have passed. Important among their contributions to human frongers has been the development of Bell's idea into a nation-wide, universal telephone are ice. But the wonder of the selephone is still that which agreed most shoughts a half century agos-shaffer can talk. Herein he, it is unique rube to the ministed and the nation. It provides, as nothing elect, a means of specific, over great destinance, privately and sutthout interruption, the intimuate, personal times of the human soice. It projects, personality. It unites nollines of Americans, though separated by the location of a continent, into a single vast commonwealth of a continent, into a single vast commonwealth of speech.

Helping Your Development

When down by the Chicago, Milwaukee & St. Paul tracks do you ever think what those thin lines of rails mean to you?—to your business?—to this community?

With clock-like regularity long trains come thundering over those tracks out of the land beyond the horizon. With the same regularity they go whirling away to distant cities—to strange ports—into unfamiliar lands. The tracks are a great highway, thronging with the life of the nation. Over this highway come to you all the elements of progress and development. Along it pass the contributions this community is making to the prosperity of the country.

of the country.

Hour after hour—day and night—summer and winter—unceasingly the thousands and thousands of cars and unines of the Chicago, Milwaukee & St. Paul roll on—carrying the elements of civilization back and forth—helping the development of this community and weaving it into the fabric of the nation!

and weaving it into the rabne of the nation!

There are men here in town who remember, as though it were only last week, when ox-wagons groaned westward and the pony express was the fastest means of communication with the outside world. Yet today this community is as firmly knit with civilization as any of the cities of the East.

What becomes of all the wheat!—the corn!—the hogs!—the butter! It is speedily transported by rail to waiting markets. Fresh beef from the Northwest is delivered at house doors in Floridal The best butter in Philadelphia comes over these tracks. The hogs you see going East may be eaten from Boston tables.

pinta opines over these tracks in the ropy out see going East may be eaten from Boston tables. And back over the tracks come phonographs and radios; moving picture films; food staples and luxuries in the way of grocertes, candies, bottled drinks, agricultural implements and automobiles—nearly everything you have in your home, even to the magazines that bring the latest styles and modes of living into this community as soon as they arrive on Firth Avenue or Michigan Boulevard. The Chicago, Milwaukee and St. Paul is the great highway over which progress and civilization in the Northwest is rolling. This community is an integral and vital part of the great territory the Milwaukee serves. Our hopes are similar, our destinies are similar. That is why the Chicago, Milwaukee & St. Paul wants you always to remember it as an intimate part of this community and vitally interested in every phase of its development.
