

THE MAZOMANIE SICKLE.

VOL. LIII,

MAZOMANIE, DANE COUNTY, WISCONSIN, FRIDAY, AUG. 13, 1926

NO. 28

CHURCHES & SOCIETIES

German Lutheran Church.—English services next Sunday afternoon at two o'clock. All are invited.—Rev. C. C. Wilson, Pastor.

Community Church.—There will be no morning service this Sunday, but the Sunday school will convene at noon at 10:00 o'clock.

DEES AT LAKE WAUBESA.

Mr. Leifgren, 55, of Rockford, Ill., died from a blood clot on the lung at Leifgren's beach at Lake Waubesa, Sunday, while taking part in a family reunion. There were more than twenty relatives present.

YOUTH HELD ON GIRL'S CHARGE.

William Johnson, 19, town of Perry, was arrested Friday by Sheriff Dugan on a charge of having committed a statutory offense against a 17-year old girl of the same township. He denied the charge in the superior court at Madison. The preliminary hearing was set for August 17, and Johnson was released upon providing \$1,000 bond.

A UNIQUE EXPERIENCE.

Among the few couples who were married by A. J. Nollan, D. D., pastor of Luther Memorial church at Madison, last week-end, was one very unusual young man. When he appeared at the altar of the church to make arrangements for the coming ceremony he completely forgot the name of his sweetheart; and only after he was invited into the parsonage for a few minutes conversation with the pastor's helpful wife did a remembrance of who came to him and the information came forth.

CATHOLIC CAMP.

A large recreation camp for Catholic boys is to be established at Chasewater lake, Oneida county, under direction of the church authorities at Mundelein, Ill. The camp, which will comprise eleven buildings, to cost \$10,000, will occupy eighty acres of the 2,700 acre tract owned by the church.

SLAVE FORCED DOWN.

The River slave, plotted by Lieutenant Jack Laane, was forced down three times in the vicinity of Richland Center, Monday, but reached La Crosse at 11:30 Tuesday and escaped off an hour later for St. Paul to join the other slaves in the Ford-Bellamy tour. Laane landed the first time at Lone Rock.

MANY FAIRS IN STATE.

Eighty fairs will be held in Wisconsin this season to display the work of agriculture and industry. The fair season, which will continue until October, opened August 10, with exhibitions at Blueford, Elroy, and Evansville. Fairs in Wisconsin are as old as the commonwealth, and the first state fair was held 76 years ago, at Janesville.

KILLED BY KICK OF HORSE.

The kick of a horse proved fatal to the 5-year-old daughter of Mr. and Mrs. Albert Thurst, of Verona. The child was playing in the yard Sunday when it crept under the fence into the field where the horses were. She received a kick on the back of the head and died a few hours later while being operated upon at the Madison general hospital.

Ex-Captain is Held on Serious Charges

Last week's Independent Chronicle contained the following story affecting former residents of this place: C. E. Rosenkrans and his spouse, wife, Nellie Doe, were brought before Justice T. H. Arthur Tuesday evening charged with serious offenses. The two with small children, a boy of ten and a girl of eight years, have been living in a hotel near the river, about three miles west of the Lone Rock bridge. Two older boys, who were recently released, were out among the surrounding farmers, the family having been in that vicinity three years.

Complaint was made to authorities about the actions of this couple and a detective from Milwaukee made investigation. Upon his report a warrant was sworn out by District Attorney N. S. Boardman charging the man with operating a house of ill fame and the woman with being an inmate. Sheriff Raincock and the Milwaukee detective went to the scene Tuesday afternoon and placed the two under arrest. The man was frisked and was found to be carrying a loaded .32 calibre revolver. The two were handcuffed and followed by the younger children, were marched up the railroad track, a distance of three miles to the waiting auto which brought them to this city.

The two were brought before Justice Arthur where the charges were read to them. The woman, who appears to be in her forties, stated that she was not an inmate as it was her own home and claimed to be the wife of Rosenkrans. He, a large man of about 60 years, bravely related what had been transpiring this summer merely giving as an excuse the fact that they needed the money. Neither even illiterate and he goes by the title of "Captain" and has also said that he was formerly a preacher, Rev. Rosenkrans.

Justice Arthur sentenced the woman, upon her admission of the charges, to pay a fine of \$200 and costs. Rosenkrans waived preliminary examination and appeared before Judge Jenks in county court, Wednesday afternoon where he pleaded guilty to the charge. He was given a sentence of one year in Wisconsin at hard labor. The woman pled for her children and assured the court she would walk the straight and narrow from now on. The oldest son, 18, appeared in court and said that he and his brother would amply provide for the mother and younger children upon which they were allowed to depart.

TRIES TO ESCAPE.

Frank Marwaring, of Black Earth, brought to the county jail at Madison Thursday night on charges of operating an automobile while drunk was said to have made a dash for liberty as he was being taken into the jail but he was overruled within a short distance. He pleaded not guilty to the two counts in superior court Friday, and was held upon \$500 bond for hearing Wednesday.

DEER ATTACKS MAIL CARRIER.

Edward Dehms, a rural mail carrier near Fremont, was attacked by a large buck deer when he left his car to place mail in a box on his route. A road patrolman working near by succeeded in driving the animal away.

SUMMER SCHOOL STUDENTS GO.

More than 5,000 university summer school students were here Saturday leaving Madison. Examinations were over for the third largest summer school body in the United States. Early registration days at the university will be September 16 and 17, and the regular registration takes place September 21 and 22.

Conquering Limitations

JOHN MERCEREAU's stage coach lumbered its creaking way from New York to Philadelphia in a day and a half, in 1771, and was considered so fast that it was called "The Flying Machine." When steam came into use, there were the "Comet," the "Thunderbolt" and similar names, suggesting the attainment of the age-old need—speedy messengers.

Man's effort to overcome the limitations of time and distance finally put electricity to work, and it became his swiftest messenger.

Half a century ago Bell invented the telephone. It is more than a messenger, for it has been developed to carry man's spoken words for great distances with the swiftness of light. Through its wizardry space is conquered with the speed of thought itself.

Selection of Dairy Cattle Breeds Influenced by Shows

A good typical specimen of a dairy cow, showing the influence of the show ring on the selection of breeds.

Many a man who is undecided as to the breed of dairy cattle that he will select has been influenced in making his decision by the animals of a particular breed that he has seen in public.

The individual breeder acquires a great deal of advertising as the result of exhibiting at fairs, or in offering good animals at public sales. It gives people a chance to see and know the kind of stock that a man is breeding and paves the way for future business.

It is essential that special care and attention be given dairy animals for a number of the times that they are to be exhibited or sold. Exhibiting or selling animals publicly in this way every day clothes in poor exhibition and puts them at a disadvantage when the competition is keen. It takes several weeks to put a dairy animal in good shape.

A good covering of the body adds to size, increases smoothness and gives the animal a more thrifty and in good health. Dairy animals should be kept in extra feed.

Stabling and blanketing are great aids in putting the dairy animal in condition. By stabling in summer, the animal is protected from the hot sun which makes the hide hard and stiff to the touch. A heavy box stall that is kept clean and well bedded provides desirable quarters. Continuous blanketing helps keep the animal clean, keeps the hide, thus improving its handling qualities and makes the hair lay to the body. The blanket need not be expensive but it must be tied on securely.

Every dairy animal that is to be exhibited should have the hair clipped from the entire body about three weeks previous to the date of the show or sale. This will get rid of the old hair and allow a new, even growth to develop, which will greatly improve the appearance and increase the selling value of the animal.

A point often overlooked in the preparation of a dairy animal for show or sale is that of training to lead and stand properly. An untrained animal cannot display its good points to advantage. It combats the efforts of the attendant to exhibit it properly. A little time spent each day in training to handle properly will pay off and increase the financial return.

While in the show or sale ring, the man in charge of an animal should have one main thing in mind, namely that of showing the animal to advantage. By now extra feed when it stands, its feet are properly placed, back straight and head alert. Any movement on the part of the attendant or animal should be as graceful as possible. Until the ribbons are placed or the auctioneer's hammer falls, there are no chances.
