SERIOUS STORM DAMAGE.

Wind of Monday Batters Barns and Outbuildings over Wide Area.

Richland Democrat: A storm with wind, rain, thunder and lightning, which passed over this section Monday afternoon, caused thousands of dollars in damage to farm buildings, particularly to the southeast and east of this city. Its trail up Willow creek valley is easily marked by the destruction and unroofing of houses, barns, machine sheds, etc.

At the Charles Eubank farm, this side of Twin Bluffs, the large barn was torn from its foundation and deposited nearby, a torn and twisted wreck, one horse being killed in the wreckage. At the Dow farm several outbuildings were blown down and unroofed. The Fred German house was unroofed in part, and other buildings damaged. A silo was blown over on the John Louis place and other outbuildings unroofed. John Durst was returning home and was riding in a hog rack. The storm caught him at the turn by the Pickard farm and carried the rack off the wagon, landing across the fence in a field, but depositing Mr. Durst just outside the fence. He received a severe shaking up, bruises and cuts, but no broken bones and was feeling somewhat improved Tuesday morning.

To the west or northwest of this city reports have it that the storm left a perfect trail of ruined farm buildings, overturned silos and machine sheds. The large barn on the farm of Mrs. A. J. Chittwood was left a ruin, being practically blown away. Two sons of Mrs. Chittwood were caught in the wreck and it was necessary to chop away timbers before they could be extricated. Neither one of the boys were able to handle himself at last accounts and their injuries may be of a serious character. The large barn of the George Fowell farm was also wrecked.

The damage in this immediate vicinity was confined to ruined sheds and barns. The storm was not so severe as it was in some other sections. The fair ground came in for another visitation, and the west end of the installation, the newer part, was torn from its foundation and hurled bottomside up across the race track.

More or less damage is also reported to farm buildings along the road toward Lone Rock and on Bear Creek, and the combined damage will amount to many thousands of dollars.

PARDON ASKED FOR DIETZ.

Application to Governor is Made by His Eldest Son.

The actual application for the pardon of John F. Dietz made by Clarence H. Dietz, his eldest son, now living in Milwaukee, was received at the Governor's office Wednesday.

The application sets forth that Dietz, although tried and convicted of the murder of Oscar Harp, was as a matter of fact innocent of the shooting. It claims that he has been unjustly punished whether innocent or guilty and that he never has been a vicious nature and that he is now sixty-four years old and broken health is the result of his ten years at Waukesha.

A new aspect of the Dietz case was revealed by a special report by Warren Town of Waupun when he attached to his formal report a special report awarding Dietz merit for bravery. In October 1919, Silas Bond, a negro convict, assaulted the shop foreman and overcame an officer. At this time Dietz went to the assistance of the officers and not only captured Bond but prevented further trouble.

Appreciation.

My dear people and friends: When everything was dark, and dark for me, and I did not know which way to turn; when I was forsaken, abused and driven out of home and home far away from my own home; when I gave up all hopes, forgotten by God, man, and mankind; think of my joy when you as my friends stepped up for me and tried to protect me in all ways possible to you. I was only a short time among you people, hoping that I could stay longer, but find out to my sorrow that I must go away; leave you all to make room for someone else. Oh! cruel world! Hoping that God will bless you all and repay you for your kindness, I will if I can. Grace.

Here's a Real Argument For Philippine Independence

A Typical Philippine Homestead

The United States isn't the only country that has homesteaders—those enterprising pioneers who, in sparsely populated districts and take their families into virgin territory to create homes for themselves. The Philippine Islands have thousands of thrifty homesteaders.

The above photograph shows a picture of a Christian Filipino homesteader and his family near Pikit, Cotabato province, Mindanao, P. I. Five years ago he was a cab driver working for low wages at Cebu, a thickly populated city. He went into the then wilderness of Mindanao, planted hemp and coconuts, paid for his land and has become wealthy. Thousands of similar instances could be cited. One Mindanao homesteader is worth \$500,000.

The Philippine government is encouraging the immigration of Filipinos from the thickly populated sections into Mindanao. This is the second group of the islands of the archipelago. It is still sparsely settled, although it is one of the richest and most productive islands in the world. Many Americans have established plantations there and become rich.

Filipinos are using the stories of the many successful Filipino homesteaders as an argument for independence. They make the point that a people that can go out into a tropical wilderness with no capital save their patience, perseverance and energy and win homes of themselves, have the necessary stamina to run their own affairs.

Volstead Introduces Bill To Put Total Lid On Beverage.

Washington—A bill prohibiting doctors from prescribing beer as a medicine was introduced in the House Monday by Rep. Volstead, father of the dry law.

The measure, designed to tighten up the Volstead law in view of an opinion by former Atty. Gen. Palmer, would not prohibit wine as a medicine, but restrict in more specific language the injunction that such prescriptions be limited to actual needs.

"The Palmer opinion," said Rep. Volstead, "holds, in effect, that the commissioner of internal revenue has no power to limit the quantity of such liquors when prescribed, though the law expressly provides the commissioner shall limit all permits."

The bill prohibits doctors from prescribing beer. It is to be argued there is any real necessity for beer as a medicine. Leading doctors everywhere deny it has any value for that purpose.

15,000 MEN ON HIGHWAYS.

Grading and Improving State Highways Already in Progress.

Indications point that the present season will see the high water mark of highway construction reached in this state. Notwithstanding the fact that railroad companies have refused to reduce the freight rates on highway material, the state highway department is going ahead with plans for highway construction that will give employment to large numbers of men who otherwise would probably be without work for many weeks.

Between 4,000 and 5,000 men have been placed at work on the grading of state highways on different projects now under way since the first of March, and it is expected that at least 10,000 more will be given employment before the first of May.

Mr. Higgins, chief of the state highway department, in answer to an inquiry by Assemblyman Martin Higgins, of Milwaukee.

Mr. Higgins' attention was attracted to the army of men out of employment in the city of Milwaukee and he took the matter up with Mr. Hirst in an effort to see if these men could not be given work on the state highways.

Mr. Hirst has announced that by the 15th of May, work will be under way on all of the highway projects contemplated for this year, which will necessitate the employment of at least 15,000 men and it is probable that several hundred more will be given employment later on.

Plans for highway construction this year call for many new projects which will result in miles and miles of splendid roads being added to Wisconsin's already famous highway system. In addition to this, many projects that were not completed last year will be finished, and many miles of surfacing and grading will be done.

OBITUARY.

Samuel Murrish.

Mazomanie deeply mourns the loss of one of her most revered citizens. Few there who would be as greatly missed by as many people as Mr. Murrish will be. His honorable life lived so openly before our many eyes, his sympathy and charity, his genuine goodness, made him a friend never to be forgotten.

Mr. Murrish was a devoted member of the Community Church, one whose religion was of the most practical sort—of the kind that led him to advance funds when the church treasury was depleted, to quietly send a basket of food to a needy family, to speak a word of praise where he felt it was deserved, and to judge all gently. He was a kindly nature, quick to forgive an injury, and to right a misunderstanding. Steadfast, deeply loyal to friends, and generous to a fault. His home, which was very dear to him, has always been one of great hospitality, as many can testify.

Samuel Murrish was born in Cornwall, England, March 14, 1847. The following year he and Mrs. John Murrish, with their infant son Samuel, came to America, making their first home near Mineral Point. A few years later the family moved to Mazomanie where, in 1861, Mr. J. E. Merriam, at her home in Lake City, Minnesota. This happy union bore a son and a daughter.

For some years Mr. Murrish had suffered greatly from rheumatism. He had, however, been able to go daily to his place of business until a few days before the end. He died at his home Thursday morning, April 21, 1921, at the age of seventy-four years. Many relatives and friends from away, besides a great number from Mazomanie and the surrounding country, gathered at the residence Sunday afternoon to pay their tribute to the memory of the departed one. Funeral services were conducted by his pastor, Rev. G. V. B. Shepard, assisted by Prof. A. P. Hauke, of the State University, a former pastor and intimate friend of the family.

Surviving Mr. Murrish are his wife, his son, John, of Wisconsin, Minnesota, his daughter, Mrs. Gayle Emery, of this place, three sisters, Mrs. George Lincoln and Mrs. J. B. Greene, of Mazomanie, and Mrs. Lewis Moulton, of Spencer, Iowa, two brothers, John, of Denver, Col., and William, of Los Angeles, Cal., and four grandchildren.

Heaven:

At first we think of streets of gold,
Of gates of pearl that dazzle light,
Of shining wings and robes of white,
And things all strange to mortal sight.
But in the afterworlds of heaven
It is a more familiar place
A home unhampered by signs or fears,
Where waiteth many a well-known face.

With passing months it comes more near,
It grows more real day by day.
Not strange or cold, but very dear—
The glad home land, not far away.
Where none are sick or poor or lone,
The place where we shall find our own.
And as we think of it we know
Who there have met to part no more.
Our longing hearts desire home, too,

FOR RETIREMENT BILL.

Miss Mary Dowling, Who Taught 40 Years in State, Makes Plea.

Capital Times.—For more than two score of years Miss Mary Dowling, now 86 years old, taught in Wisconsin schools, and Thursday she came to the Capital City to urge Wisconsin legislators not to kill the teacher retirement fund after thinking the committee members for giving her a hearing.

Way back in 1858, when she was but 22 years old, Miss Dowling started to teach in a rural school in Iowa county, and with the exception of a few years in a village school at Arena, she has always taught in district schools.

Her first salary was \$10 a month. This was increased rapidly until it reached a maximum of \$30 monthly. On only two occasions did she receive a larger salary; once when she taught for a half year at \$40, and on another occasion when she received \$55 for a couple of months, according to records in the office of the teachers' retirement fund.

In 1912 she retired, having taught over a period of 50 years. A wonderful reputation as a teacher has Miss Dowling, especially in Dane and Iowa counties, where she taught most of her years. She also spent a few years in Dodge county.

FORM JUNIOR DUEL CLUB.

Dane County Boys and Girls Can Enter Pig Contest.

Duroc Jersey breeders of this section have formed a Dane County association to increase the number of better swine in the county. At the organization meeting, the breeders decided to promote a boys and girls pig club. Through this club, breed improvements will be made faster than by any other means. Boys and girls may become members of the club, between the ages of 10 and 20.

The breeders desire to have a large number of boys and girls own their own pure-bred Duroc Jerseys. They are also desirous of having the young people grow, fit and show their pigs at the two shows held within the county, the county fair and the junior livestock exposition, both of which are held in Madison. Officers of the county association are: President, M. H. O'Keefe, Wausau; secretary and treasurer, J. B. Keenan, Oregon; executive committee, C. E. Cole, Marquette.

A warning is issued by banks that all bills of \$5 and \$10 be scrutinized before acceptance, owing to the fact that several instances of \$1 bills raised to \$10 bills by skillful bill raisers have been found. All bills more than \$1 should be watched for irregularities in the corners and under the picture, where the changes are usually noticeable.

Notices.

All persons holding merchandise due bills on Murrish & Sons' Store, please bring them in for approval at once.
