PLAN FREE CAMP SITES.

Tourists Will Be in Operation Many Places This Summer, Is Plan.

According to report, free tourist camp sites will be in operation at many cities and villages in Wisconsin this summer.

This sudden development is caused by the laying out, road marking, and patrol maintenance of the state trunk highway system. This means that hundreds of thousands of tourists are visiting the state, that the hotels are not able to accommodate them, and that the cities and villages have awakened to the fact that the tourist business is a rich asset to the state and are preparing to capitalize it. This is the statement in the current issue of "Good Roads for Wisconsin."

The following places will be provided with free tourist camp sites this summer: Abbotstown, Adams, Algoma, Alma Center, Amherst, Amherst Junction, Appleton, Ashland, Augusta, Barab, Berlin, Birchwood, Black River Falls, Burnett County, Cambridge, Cazenovia, Chippewa Falls, Clintonville, Columbus, Durand, Eau Claire, Eleva, Fall River, Fenimore, Fond du Lac, Gillett, Glendon, Gresham, Hilbert, Hixton, Hustler, Ironton, Junction City, Kaukauna, Kilbourn, La Farge, Lake Madison, Manitowish, Markesan, Mazomanie, Mequon, Merrimac, Milwon, Milton, Neenah, Neokosh, Oak, Oshkosh, Oxford, Pepin, Portage, Port Edwards, Rice Lake, Richland Center, Ripon, Schofield, Sister Bay, Sparta, Spooner, Spring Valley, Stevens Point, Sturgeon Bay, Superior, Turtle Lake, Waubesa, Watertown, Waupaca, Wausau, Webster, Weyauwega, Wilton, Wisconsin Rapids, and Wisconsin.

HIGHWAY CONSTRUCTION.

Many Miles of Concrete Surfacing is State Project.

The Wisconsin Highway commission has prepared a brief statement of concrete highway construction work in hand. Including hold-over jobs and new contracts for this year will be \$1,000,000.

Wisconsin this year. Of this work 133 miles is under state aid and the balance is under federal aid. In addition there are 45 miles under state aid and 22 miles under federal aid which the contractors have not been let. The work this year will be well distributed over the state; of the 275 miles that it is the purpose to complete this year, no county will have more than eight miles. The 275 miles will be divided between fifty counties.

TODAY'S FISH STORY.

Fifteen-Ton Sea Monster Caught Off Florida Coast.

T. J. Van Dusen, of Kansas City, who mother lives at Madison, writes of seeing the largest fish ever caught, an unknown marine creature weighing 30,000 pounds, now on exhibition at Kansas City.

The monster, a mystery to scientists, was caught off the Florida coast after it had dragged a yacht from which it had broken speed for thirty-two hours. Five harpoons were driven into its body and more than one hundred bullets fired into its head before the monster was killed.

The creature had swallowed an octopus weighing 400 pounds, a blackfish weighing 1,500 pounds, and in its stomach was found coral weighing 500 pounds. The fish was 100 feet long, thick, and, although the largest fish ever captured, scientists claim it was but a baby of its tribe and, had it grown to maturity, that it would have been three times as large.

BOOZE AND GAME COST MOST.

April Superior Court Fines Exceed All Past Records.

More money was taken in in fines and costs in superior court at Madison during April of this year than during any month in the history of the court, according to figures compiled by E. J. Walden, clerk of the court.

In state fines alone \$2,745 was turned into the court coffers. Of this \$1,300 was in fines for violations of the excise laws, and \$1,000 for fish and game law violations. The remainder was for miscellaneous offenses. City ordinance violations brought \$222.50 in fines and costs. Of this, \$100 was paid in fines for disorderly conduct. The remainder was paid for drunkenness and automobile violations. A total of \$2,925.45 was turned over to the county as fines and costs in state cases.

A Passing Landmark of Old Manila

This is a photograph of the famous old Bridge of Spain, Manila. It is now a departed landmark of the Philippines, for its place has been taken by one of the most bridges in the entire Orient, the new Jones bridge.

The Jones Bridge is named in honor of the late Congressman W. A. Jones of Virginia, author of the Jones law of 1916 which promised the Philippine Independence upon the establishment of a stable government.

The old bridge of Spain is called "the mother of Manila's bridges." The original bridge was built of piousness sometime between the years 1500 and 1600, being known as the Bridge of Boats. The stone bridge shown above was built about 1820. It was twice damaged by earthquakes, and was once partly demolished by a flood.

WANT EXHIBITS FROM ALL

Dane County Cheese and Butter at the Wisconsin State Fair.

Over 350,000 people, or about five times the population of Dane county, will look over our county's dairy exhibits at the next State Fair, August 29 to September 3. The advertising and boosting our county will get from a representative exhibit of our dairy products at the big fair cannot be overestimated. Every cheesemaker, every buttermaker, every factory patron, every man interested in this county's welfare and future growth should see that the creameries and cheese factories in his neighborhood all send exhibits in two or more classes to the State Fair this year, and make a fine

Two new classes of prizes are offered this year for the first time for butter and cheese, manufactured before June 1, as well as the usual prizes in all other classes as last year. Our county has within its borders about 131 cheese factories and creameries. Last year only nineteen of them sent exhibits of cheese or butter to the fair, besides their own dairy industry was not properly represented before the people of the state at the 1920 fair. Prizes to the amount of \$6,000 are offered for dairy products this year in the new State Fair prize list, and every exhibit scoring about 50 points will receive a share in the pro-rata fund and premiums, averaging \$7.00 per exhibit, besides free admission tickets to the fair, and chances to win the state, district and county cash prizes.

Let's do our share to put our county at the top of the exhibit this year, with 100% of our cheese factories and creameries sending two or more state fair exhibits. Write now to Secretary O. E. Reamy, State Fair Park, West Allis, Wis., for full information.

TO ROUND UP DODGERS.

List of Draft Evaders, in State to be Made Public.

It has been stated by federal officials that the government roundup of draft slackers will be launched this week. A first chance is given them to evade publicity if they surrender at once.

The complete list for Wisconsin suspects is now being printed at the Camp Grant printing office, and is expected to contain nearly 4,000 names. While this number is seemingly large, it is not out of proportion as regards population in the state according to the officials. Illinois, Michigan, and Wisconsin, together, have more than 17,000 alleged slackers, the greater part coming from Illinois.

The list is being printed in sections. It is the purpose of the war department to publish a section each day. But a few names will be given at a time, in order that police and other agents of the government may have plenty of time for the recognition of men sought. Local police, sheriffs, and other state officials have been asked to assist the government in the roundup. It is the intention of the government to have the lists published in the newspapers and to be distributed in all United States marshals and state adjutant generals as well as to state and city officials. A reward of \$50 is offered for the arrest of each person mentioned on the list.

In Shabbytown.

In Shabbytown they do not care if things look seely everywhere. They have no pep, they've lost their grip, they simply sit around and yip in easy tones. In Shabbytown, the shipping village on the hill. Oh, Shabbytown is punk and gray, and it shows symptoms of decay, and strangers passing remark. "It surely dates back to the Ark." "Clean up and paint up" makes men frown along the streets of Shabbytown. A can of paint makes no appeal to this bun village, down at heel; the people think there is no sense in going to so much expense; so things are always going down, and getting worse in Shabbytown. It always gets worse.

The town is a village, a village, a village; the people take a hearty pride in making things look clean and bright, and in their labors take delight. They're lavish with the helpful paint, selecting colors chaste or quaint, and decorating every shack; thus warding off decay's attack, and making all the buildings look the boldest of things in a book. And strangers, when they see the town, say, "Here we'll come and settle down, and raise us nineteen kids, and die" and die as sick as grass." This barge barge goes right ahead, while Shabbytown is prone and dead.—Walt Mason.

Mrs. Melba Bowker was granted a judgment of \$1,200 by Judge Stevens in circuit court at Madison, Monday. She was suing for support money for herself and her minor child, alleging that her husband, Miles Bowker, deserted her in 1918. She is not asking a divorce. The couple was married in Colorado in 1913.

Alleging that she left him without cause, D. L. Norman, who lives near Richland Center, has filed an answer to the complaint of his wife, Julia, who is suing him for divorce. She charges cruel and inhuman treatment. Norman replies that he has always been a good husband and has provided a home but that his wife has extravagant tastes and dressed beyond his means.

Notice To Voters.

A mass meeting will be held at the village hall, tonight, for the purpose of discussing with the members of the village board the advisability of selling our electric transmission line to the Wisconsin River Power Co. It is hoped there will be a large attendance, so that all may be thoroughly informed as to the proposed transaction.

It is only the sale of the transmission line that is to be considered, not our local distribution plant. Current would be delivered to us here instead of at the Prairie du Sac dam.

Come to the meeting at eight o'clock, and talk it over.

Notice.
A meeting will be held at the village hall on Monday evening, May 9th, at eight o'clock, for the purpose of making arrangements for the clearance of Memorial Day. All who are interested are urged to attend.—Committee.

Schools Are Making Filipinos An English Speaking Race

This is the type of schoolroom that is rapidly making an English speaking nation out of the 10,500,000 inhabitants of the Philippines.

If a teacher in a public school in the Philippines desires to punish a child, she does not have to apply the ruler. She simply sentences the offending pupil to remain away from school a few days!

This is the most severe punishment she can inflict, for Filipino children take an almost abnormal pleasure in going to school and acquiring an education. The all-Filipino legislature, in response to the popular demand for "schools and still more schools," is constantly increasing its appropriations for education, but the schools can scarcely be constructed fast enough to care for the ever-increasing enrollment.

Without any compulsory attendance laws. When they were called into Manila Bay there were 2,100 private schools in the islands. Today there are 5,500 schools and colleges, with 17,000 Filipino teachers and about 1,000 other teachers, 341 of whom are Americans.

The University of the Philippines is the center of learning of the entire Orient, and is the pride of the Filipino people. It has an enrollment of 3,500 students. Santo Tomas, a city of Manila, older than Harvard, is another famous seat of learning.

The school system includes normal schools, agricultural colleges, twenty-seven farm schools, a nautical school and a school for the deaf and blind.

The Filipino pupils, in addition to learning English and in addition to their regular studies, learn basket making, embroidery and hat weaving, the trades peculiar to the islands, as well as the domestic sciences and pedagogy.

There are more positions than can be filled by the trade school and college graduates. The trade and agricultural schools produced 17,585 sort of goods in 1919.

There is nothing that the public school system will have been reached.

Today there is hardly a barrier between the young and the old. The young men of the islands, as well as the representatives and eighteen of the twenty-four senators speak English in the next election, in 1922, the young men of the new schools will be stepping into control, and the first great of the public school system will have been reached.
