VOL. XLVIII.

MAZOMANIE, DANE COUNTY, WISCONSIN, FRIDAY, MAY 13, 1921

NO. 15

WANTS GOVERNOR IMPEACHED.

Madison Man Petitions The Legislature To Take Such Action.

Victor H. Arnold, president of the Madison Bond Co., in a petition to the legislature asks impeachment of Gov. Blaine because of his refusal to give ten minutes, on a busy day, to listen to the troubles of Arnold's bond house. The interview was asked, according to Arnold, because no effort had been made by the district attorney to obtain evidence when Arnold accused the vice president of the bond company of embezzlement.

Arnold holds the action of the governor in refusing to see him "is opposed to public policy and endangers the rights, privileges and freedom which the constitution of the United States gives to him as a citizen of the same."

The petition was unanimously rejected, Tuesday morning.

MURDER OR SUICIDE?

Court Has to Decide Why The Dog Crossed the Street.

Boston, Mass., May 9.—To the contention of John Chalmers in a suit for \$10,000 damages that his dog was using due care when killed by an automobile driven by Peter J. Donaghy, the latter answered in superior court today that the animal was a suicide.

The court has to decide whether the dog may be said to have used due care and whether a dog may exit its life intentionally.

Mr. Donaghy, an attorney, in his answer, said: "The dog was crossing the street. He suddenly revolved, snapping and biting at other animals. Despondent at his inability to dislodge said animals, he hurled himself under the defendant's automobile and thereby committed suicide."

The Sickle is \$2.00 per year.

Supreme Court Decision Ends Ford-Newberry Election Controversy.

For the first time in a year and a half, Senator Truman H. Newberry, republican, of Michigan, made his appearance in the senate chamber at Washington, Monday. A decision of the United States supreme court last week freed Senator Newberry of a jail sentence imposed in the Michigan courts after he had been convicted of

violation of the corrupt practices law in connection with his election. Although the Newberry-Ford election controversy is pending in the senate privileges and elections committee, republican leaders regard the case as "ended" by the supreme court decision.

AS IT IS IN EUROPE.

Pickpockets Are Angry Because Their Victims Lie.

Geneva, May 9.—The chief of police of this city has received a letter signed "The Thieves' Protective Society" and

in which the pickpockets have "no dishonest habit" of favorably declaring to the police a larger sum than they have lost. They cite a case where a man claiming to have been robbed of 2,500 lire lost only 50, and another reported 1,800 lire when he lost less than 200. The letter argues that such exaggerations caused strained relations among the fraternity, as when a member turns in a few hundred lire and the local claims to have lost thousands the pickpocket is suspected by his colleagues.

"Alleged honest people should be more delicate," the letter ends.

LABOR LEADER FREE.

Released After Serving More Than Nine Years in Prison.

San Quentin, Calif., May 9.—John C. McNamara, former secretary of the Iron Workers' union, convicted of dynamiting the Livermore Iron Works, of Los Angeles, was released from prison here today, after an imprisonment of nine years and five months.

His release meant parting from his brother, James McNamara, serving a life sentence for the Los Angeles Times explosion.

After a visit to San Francisco, McNamara said he would visit relatives in Chicago and the east, and then return to his home in California.

His first desire when free was to go to a motion picture show.

Let's Go, Fellows!

Where to? To the next meeting of the Mickelson-Martin Post No. 313, American Legion, which will be held in the village hall, Black Earth, Wis., on Tuesday evening, May 17, at 8:30, in the form of a social dance; and say, fellows, bring your lady friend, or if you are married, bring your wife.

A special invitation is extended to the ex-service men of Mazomanie, Mt. Horeb, Cross Plains, Vermont, and Black Earth; whether you are a member of the Legion or not, please feel free to attend.

Ice cream and wafers will be served as refreshments. A collection will be taken up to defray expenses.

Arthur E. Ellis, Post Commander.

Hangman Earns Big Pay. "I had a big year and there wasn't a single hitch in any of my jobs," said Arthur Ellis, Canada's official hangman, at Ottawa, last week. Ellis had been paid \$12,500 for executing men in the last year. On July 8 five men will be hanged at Vancouver and one at Quebec. Ellis has accepted the Vancouver job.

WILL ESCAPE JAIL.

Judge Ben B. Lindsey Not to be Sent Up for Contempt of Court.

Denver, Colo., May 9.—Judge Warren Haggott in District Court ruled the original sentence of Judge Ben B. Lindsey for contempt of court contained no provision for imprisonment and that the fine of \$500 assessed could not be reallocated. However, Judge Lindsey has no visible property on which to levy the fine, so its payment cannot be enforced. Judge Lindsey was fined when he refused to violate the confidence of a fourteen-year-old boy whose mother was charged with murder.

Judge Lindsey paid the fine and costs, \$531, Thursday.

CHEESE AND BOOZE.

Expert Claims Prohibition Law One Cause of Cheese Price Slump.

That the enforcement of the prohibition law is one of the causes for the slump in the cheese market is the opinion of Cheese Expert Winder of the state dairy and food department. Mr. Winder is a long way from being opposed to liquor prohibition, but that, he says, does not prevent him from recognizing the fact that the closing of the saloons where cheese was a staple of the free-lunch counter, temporarily cut down materially the demand for cheese. When Wisconsin cheesemakers, he holds, awake to the importance of improving the quality standards of their products the people of this state will greatly increase the consumption of cheese. This country, wherein the bulk of the world's cheese is made, is the lowest per capita consumer of cheese of any civilized country. Mr. Michaels, in charge of cheese production and marketing for the state division of markets, believes that with the prompt improvement of standards and establishment of grades, cheese consumption in Wisconsin alone can be doubled in five years.

CHO CHO, FAMOUS HEALTH CLOWN.

Cho Cho, the famous health clown, is the man whose boyhood has been described to the rural school children of Dane county by the county nurses, Miss Gertrude Burnson and Miss Mabel Danielson. He will appear, in person, at the Dane county rural commencement exercises in Madison, on June 3.

Cho Cho was a model school-boy when he was young. He lived with his grandmother who taught him carefully all the rules of health. "Even before he went to school, he learned to brush his teeth each morning and night. Then, when he did commence school, he always remembered to drink plenty of good, fresh milk; he never forgot his penials for his share of the hot lunch at noon; and he always went to bed at eight o'clock each night. So he gained half a pound of weight each month, and soon became a perfect school-boy, physically. The complete story of his school-days is told in the "Rhymes of Cho Cho's Grandpa," by Mrs. Frederick Peter.

At first, Cho Cho thought he wanted to be a farmer when he was older. But he enjoyed so much playing his game of health that he decided to teach other children the rules. So for years, he has been traveling all over the United States showing school girls and boys the way to be strong, well.

With droll mimicry and puny jokes, he demonstrates the right way to eat, bathe, sleep, and brush the teeth. He tells of his wonderful visit to the country where he met his friend, the cow. He introduces the farmer's wife who gave him oatmeal and milk for breakfast and showed him her vegetable garden. His performance rings with laughter throughout.

THE MAPLES.

The Maples school closed Friday with a picnic dinner.

Henry Neendorf and family visited the Chr. Bethel home, Sunday.

The Social Center meeting held last Thursday evening was well attended. Thule and Nena Schulte attended the picnic dinner at the school home, Friday.

Carl Schumann and son, Elmer, visited at Walter Schumann's Thursday of last week.

The eighth graders of the Maples school, were to diploma at Black Earth, Saturday.

Camp Grant Won't Be Moved.

The war department does not plan the removal or abandonment of Camp Grant, according to a statement made by Secretary of War Weeks.

Lie Detector is Perfected.

Liars beware the sponserer, Prof. William H. Marston, of Harvard university, has announced the invention and perfection of an instrument said to be infallible in detecting a lie. Its chief benefit to civilization will be its

faculty of detecting untruths in court cases. "The whole secret," said Prof. Marston, "lies in the scientific fact that any person telling an untruth experiences an emotion which absolutely affects the blood pressure and breathing."

"Here's Real Tobacco" says the Good Judge

That gives a man more genuine chewing satisfaction than he ever got out of the ordinary kind. Smaller chew, lasts longer—so it costs less to chew this class of tobacco.

And the good, rich tobacco taste gives a world of satisfaction.

Any man who uses the Real Tobacco Chew will tell you that.

Where The Money Goes.

While few people who pay an income tax stop to consider how the money goes to, still it is interesting to know just what the money thus raised is used for. Out of every dollar paid in the form of income taxes, 68 cents goes to pay off the world war debt and the debt we incurred trying to run the railroads better than the railroad people could run them themselves; 20 cents of it is spent in the maintenance of our present army and navy; while the other twelve cents go to pay the salaries of the public officials, the cost of harbor improvements, good roads, education, and peace-time activities.

Fireworks.

The Chinaman on New Year's day,

the southerner at Christmas time, and

the American boy on July 4th, dis-

charge fireworks purely for excitement,

not because of Confucianism, Christianity, or patriotism.

In years past this practice has been

the cause of many injuries, deaths, and

much property loss.

Safe celebrations of later years have

saved these sacrifices of life, limb, and

property, and amusements and particu-

lar exercises have taken the place of

noise and carnage.

The state law and regulations govern-

ing fireworks have not been changed

for three years and are as follows:

Section 4374 prohibits the sale and

possession of toy pistols, toy revolvers

or other toy firearms, under penalty

prescribed.

Section 4385 prohibits the sale, pos-

session or bringing into the state of

fireworks containing picric acid, pic-

rates, chlorate of potash compound

dynamite, mixture of dynamite or

other highly explosive mixtures, explo-

sive canes, exploding blank cartridges or

explosive paper caps, blank cartridges

pistols, or any fireworks more than

three inches in length and one-half

inch in diameter.

Order 6865 of the General Orders on

Fire Prevention reads as follows:

No firecrackers, rockets, torpedoes,

Roman candles, bombs or other fire-

works, and no pistols, cannons, explo-

sive canes, blank cartridges, or other

similar appliances or displays, shall

be stored in a place nearer than 200

feet from a neighboring building, ex-
