VOL. XLVIII.

MAZOMANIE, DANE COUNTY, WISCONSIN, FRIDAY, JUNE 24, 1921

NO. 21

## WEEDS CROWDING OUT CROPS.

Town Chairmen, Weed Commissioners and Public Must Turn The Tide.

The state of Wisconsin is facing a real danger in the enormous growth and spread of noxious weeds. Canada thistles, morning glory, and quack grass, and other dangerous weeds threaten to smother the chief grain crops of the state unless vigorous efforts are made to extirpate them. This is the substance of a statement sent out this week by Prof. Stone of the division of seed and weed control of the State Department of Agriculture. Commissioner Norford, head of the department, said Prof. Stone's warning could not be too strongly emphasized. Two things are immediately necessary to stay the tide of weed growth: one is active and persistent work on the part of weed commissioners and the other is an awakening of the public

mind to the danger to a point when the weed commissioners will be strongly supported in their efforts.

Odder, a parasite plant is killing clover in our great clover seed producing sections, filling clover seed with the minute dodder seeds and spreading this dangerous weed wherever the seed is shipped. Canada thistles, and morning glory in alfalfa, red clover and grain fields are likewise being spread over the state. The whole state will soon be weighed down with this mill stone of disadvantage and pestilence unless town chairmen and weed commissioners enforce weed laws without fear or favor and unless the public stand behind them and urge them on. Complete eradication may never be accomplished but they can be brought under control within reasonable time by effective work done each year.

Wisconsin has one of the best weed laws in the union and since the state

department of agriculture at the Capitol was given the supervision and direction of the work in 1917 a constructive policy of putting pressure on the enforcement of this law has gradually been reaching every community in the state.

Upon the town officers and weed commissioners in the several townships rests the responsibility for the thorough enforcement of the weed laws. They are clothed with ample authority to enforce the law and accomplish the work. The town chairmen, village president, or city mayor, as the case may be is required by law to appoint one or more weed commissioners and to report to the State Department of Agriculture whether such commissioners faithfully perform their duties. The appointing officer who fails to appoint at least one such weed commissioner must forfeit not less than fifty or more than one hundred dollars unless he can show that he has

exhausted every possible source in his attempt to obtain one.

The weed commissioner when appointed and qualified is given all necessary authority for enforcing the law. He must serve written notices on the occupants or owners of all noxious weed infested lands in his district. These notices should be served before weeds are to seed, but late enough as one cutting will keep them from going to seed. If the occupants or owner fails to cut the weeds within six days after receiving the notice he is subject to a fine of five dollars a day thereafter until the weeds are cut. If the owner or occupant refuses to cut the weeds it is the duty of the weed commissioner to go on and to have the town, village or city treasurer, as the case may be, enter the cost of so doing in the tax roll to be paid as other taxes on such property are paid.

The weed commissioner has authority to enter upon all lands where such noxious weeds are growing and cut the weeds without rendering himself subject to action for trespass or any other action resulting therefrom provided he exercises reasonable care in the performance of his duty. Having qualified as weed commissioner he is subject to a fine of from \$10 to \$25 for each case of neglect or refusal to perform his duties. "A word to the wise is sufficient."

## SMALLEY IS CLEARED.

Decide Judge Had Not Authorized Distribution Of Leaflets.

Lancaster, Wis.—Judge Sherman E. Smalley will retain his seat as judge of the fifth judicial circuit a result of the jury's decision Thursday night clearing of charges of violation of the corrupt practices act, in the trial brought by the state.

The jury decided Judge Smalley did not circulate or authorize the circulation of alleged libellous campaign leaflets objected to by ex-Judge Levi H. Bancroft, Richland Center, whom Smalley defeated in the April election. The decision is virtually a verdict that Smalley is adjudged not guilty of violation of the corrupt practices act. The case was the first brought in Wisconsin in the ten years in which the act has been in effect.

The jury was out five hours. Judge Bancroft said that while he was disappointed at the verdict, he was satisfied that the residents in the district knew what was brought out in the testimony and feels that he has been cleared of charges in the leaflet that he opened prohibition and woman suffrage.

## They Appeal to Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. Many such, however, have been completely restored to health by the use of Chamberlain's Tablets. These tablets strengthen the stomach, invigorate the liver and improve the digestion. They also cause a gentle movement of the bowels. When you have any trouble with your stomach, give them a trial.—Advertisement.

A story dealing with trueness in life in America and the honor system. Big expensive photoplay, with one of the best stage and screen stars on the American stage today.

An extra good Christie parlor comedy goes with this fine program. This Forum special comes at an added cost, but during mid-week we are not going to make any additional charges. We are trying to, and working hard to work up our mid-week patronage by putting on some of the finest and best photoplays on the market. Ask the traveling men what they think of our movies. They all come the second time they make the city, for they know a good show when they see it. Popular program at the Majestic. Admission 10c and 20c. War tax paid.

## The WRECKERS by FRANCIS LYNDE

COPYRIGHT, BY CHARLES SCRIBNER'S SONS

Here You Have It! The Latest of Francis Lynde's Wonderful Railroad Stories!

When Graham Norcross, general manager of the Pioneer Short Line, determined to run his railroad squarely, he was in for the fight of his life with the corrupt stock jobbers and crooked politicians in league with them. Norcross' opponents meant business. They didn't shy at gun fights and causing train wrecks. Here are some real adventures in big business. Here's a gripping story of railroads, money, and the kind of men who run them. What happened is all told in a delightfully breezy and irresistibly absorbing way by Norcross' boy stenographer—Jimmy Dodds.

You Are in Luck, for Soon You Will Have a Chance to Read It as a Serial in This Paper!
