The "Library Teas" held during the months of May and June were a great success. The amount raised for the library fund was \$102.50. On June 30, the hostesses were entertained at the pleasant farm home of Mrs. M. W. Shovers by the members of the library board and the librarian. A program

was given and light refreshments were served, and right here, the members of the library board must heartily thank the young ladies who gave of their time and talent in getting up the pantomime, which was so much enjoyed by all. The library board also desires to thank the hostesses, whose names follow: Mesdames Zangl, Wm. Brown, Griswold, Pugh, Bestor, Henry Kirch, N. C. Kirch, Ernest Cooker, J. Tidley, Siederer, Swearingen, Parr, Batty, A. Shower, W. A. Haseltine, Ellsworth, School, Wm. Knight, Fey, Geo. Shields, Haas, Voss, Wm. Boynton, E. A. Murphy, J. W. King, Jas. B. King, C. H. Mr. Walter Schumann, July 10, 1921.

Mazomanie, Wis.

Friend Walter:—I have just been reading the Sickle and noticed the item from West Halfway Prairie, also that you have changed the name of the school to Old Halfway Prairie. It tickled me so much that I wanted to put somebody on the back. I think you put it over on them that time. I don't let them bluff you out of it either.

Have been intending to write for a long time but you know how it is, never get around to it. How is everybody? Pretty warm these days up here. We are harvesting just now; rye is a fair crop, but oats will be a short crop, too much hot weather for them. Corn is extra good, for this time of the year; mine is just starting to tassle out.

We like it real well here, are getting pretty well acquainted with the neighbors and some in town, and it all helps a little. We like the farm work fine, but can't say I like the prices we are getting for the stuff we have to sell. I certainly picked an awful time to start in farming. Should have waited another year, but of course we did not know that then. Well, I won't stop for any more just now. Say hello to all the old Halfway folks—say when you see them. We are coming to see you all some day.

Yours truly, G. M. Stewart.

Representative Hill says the Volstead prohibition law is a joke. Quite so; but the humor in it is very dry.

CHURCHES :: SOCIETIES

The Community Church—Rev. Geo. V. R. Shepard, Pastor. Services Sunday, July 17, 1921: 10:30, Morning worship; subject of sermon, "Purposeful Fraternity." 11:45, Sunday school. 6:30, Christian Endeavor. 7:30, Evening worship; subject of sermon, "The Change That Comes With Conversion." Sunday school at the regular hour, and Epworth League at 6:45 p. m. Prayermeeting at 7:30 p. m. Wednesday—W. P. Burrows, Pastor.

Daily Vacation Bible School Notes.

The faculty (and we believe the community with them) have every reason to be highly pleased with the enrollment. The ages of the pupils and the number in attendance enabled us to organize five classes, with a total enrollment of fifty-seven.

Since the opening of the school Miss Edith Parr has kindly volunteered to act as one of the teachers, thus providing a teacher for each class in addition to the special teachers and the principal.

The children are given a half hour each with the musical and physical directors and the remaining time is about equally divided between a study of the bible from a historical standpoint, memorizing scripture passages and a study of the great work on our mission fields.

The parents seem to appreciate the fact that the work is entirely un denominational as is evidenced by the small denominations represented.

ORDINANCE.

The following ordinance was passed at the regular meeting of the Village Board, held July 1st, 1921:

An ordinance prohibiting ball playing on the streets in the Village of Mazomanie, Wis.

The playing of ball in any manner upon the following streets in the Village of Mazomanie, Wis.:

St. P. R. R. Co. tracks to Hudson street; Hudson street; Wall street; street running parallel with and north of C. M. & St. P. R. R. Co. tracks from Broadway street, west; or upon any other streets designated from time to time by the Village Board.

Anyone violating this ordinance shall be prosecuted by due process of law, and if found guilty, shall be subject to a fine of not more than \$5.00 or imprisonment for not longer than ten days.

This ordinance becomes effective upon the date it is duly signed by the President and Clerk of the Village.

Signed this 7th day of July, 1921:

A. G. Ellis, President.

Chas. T. Davies, Clerk.

Tuesday was the hottest day of the year. The official thermometer at the U. S. Weather bureau at Madison registered 98 degrees at 4:30 p. m., one degree higher than the day before. Wednesday was a trifle cooler, and Thursday was quite respectable. Rain fell in some sections near the village in the village. The continuous excessive heat has greatly injured small grains and the yields will be light. It is threatening out about ten bushels to the acre. Corn is an excellent crop so far, but potatoes are said to be poor.

Two fires occurred near Middleton, Tuesday night, thousands of dollars worth of property being destroyed. The old Middleton brewery, now used as a slaughter house, was burned to the ground, the fire being discovered at about 10:30. The building was located between Middleton and Pharsant

burn on the William Flemming farm
was destroyed together with many tons
of new hay, a silo, and several straw
stacks. This fire is said to have been
caused by heat generated in the midst
of the green hay in the mow. The
assistance of the Madison fire depart-

—The motion for a new trial in the Hancock-Smalley case, argued before Judge Held last week, resulted in another victory for Judge Smalley, the court holding that the case had been given a fair and impartial hearing and that there was no new evidence of grounds for a retrial. Under Judge Held's ruling, however, Judge Smalley must bear the expense of his part of the trial, none of the defendant's costs being assessed against the plaintiff or complainant.

—All accounts due Murrish & Son must be settled by August 1, 1921.—Samuel Murrish Estate.

—They Appeal to Our Sympathies. The bilious and dyspeptic are constant sufferers and appeal to our sympathies. Many such, however, have been completely restored to health by the use of Chamberlain's Tablets. These tablets strengthen the stomach, invigorate the liver and improve the digestion. They also cause a gentle movement of the bowels. When you have any trouble with your stomach, give them a trial.—Advertisement.

—New Features and Improvements. Five position wringer. Special "Power Electric" wringer rolls. Improved safety wringer release. Special roller bearing casters. Accurate mechanical power. All moving parts are enclosed.

—SIMPLE CONSTRUCTION—The "Typhoon" is compactly built with few parts, assuring greater dependability and longer endurance.

—CONTROL—The control is centrally located, which eliminates inconvenience in operation. Even when the washer is moved against the laundry tubs the control levers are still easily accessible.

—WASHING PRINCIPLE—The "Typhoon" has lifting bars and a revolving wooden cylinder that reverses after every six revolutions. In this way all of the dirt is forced out of the most delicate fabrics without any injury to them.

—MECHANISM—The patent reversing mechanism allows the cylinder to come to a full stop before reversing, thus overcoming the continual wearing jar on the mechanism and strain on the motor.

—The "Typhoon" is constructed on such a principle—a principle that produces powerful agitation with minimum wear on clothes. Experience has shown that metal cylinders are hard on clothes, while the revolving wooden cylinder in the "Typhoon" has proven to be the most desirable method of washing clothes by electricity.

—When the cylinder is revolving the clothes are gently lifted up by the wooden lifting bars and dropped back into the soapy water—an operation that is continually repeated. This gives more action than you can get with the vacuum or oscillating type washers.

THE "TYPHOON."

WASHES
CAREFULLY
THOROUGHLY.

New Features and Improvements. Five position wringer. Special "Power Electric" wringer rolls. Improved safety wringer release. Special roller bearing casters. Accurate mechanical power. All moving parts are enclosed.

SIMPLE CONSTRUCTION—The "Typhoon" is compactly built with few parts, assuring greater dependability and longer endurance.

CONTROL—The control is centrally located, which eliminates inconvenience in operation. Even when the washer is moved against the laundry tubs the control levers are still easily accessible.

WASHING PRINCIPLE—The "Typhoon" has lifting bars and a revolving wooden cylinder that reverses after every six revolutions. In this way all of the dirt is forced out of the most delicate fabrics without any injury to them.

MECHANISM—The patent reversing mechanism allows the cylinder to come to a full stop before reversing, thus overcoming the continual wearing jar on the mechanism and strain on the motor.

The "Typhoon" is constructed on such a principle—a principle that produces powerful agitation with minimum wear on clothes. Experience has shown that metal cylinders are hard on clothes, while the revolving wooden cylinder in the "Typhoon" has proven to be the most desirable method of washing clothes by electricity.

BEEN ROBBING the canary.
OTHER THINGS inspire
THE ALMOST human male
TO BLOW through his lips.
AND MAKE shrill noises.
A RAISE, for example,
OR A day off when,
A DOUBLE header is on.

OR AN everyday thing,
LIKE A good drag.
ON ONE of those smokes,
THAT SATISFY,
WHICH CERTAINLY ARE,
THE REAL birdseed.
FOR MAKING men,
TRILL their pipes for joy.
SO LADIES, if hubby,
YOU NEEDN'T worry,
ALL'S SWELL.

WHEN you get that Chesterfield "satisfy," you're instant your light one—that the tobacco in it are of prime selection, both Turkish and Domestic. And the blend—you never tasted such smoothness and full-flavored body! No wonder the "satisfy-blend" is kept secret. It can't be copied.
Did you know about the Chesterfield package of 10?
