CHURCHES :: SOCIETIES

M. E. Church.—Next Sunday the pastor, W. P. Burrows, will preach at 10:30 a. m. The subject will be, "God Hand on The World's Life." Do not miss this sermon. Sunday school at 11:00 a. m. Let everyone rally to the work of the Kingdom. Services at Mounds Creek at 2:30 p. m.—W. P. Burrows, Pastor.

The Community Church.—Rev. Geo. V. R. Shepard, Pastor. Services, Sunday, Sept. 18, 1921: 10:30, Morning worship; subject of sermon, "The Magnificent of The Cross." 11:45, Sunday school. 6:30, Christian Endeavor. 7:30, Evening worship; subject of sermon, "Covering Our Sins."

The religious campaign to be conducted by Dr. John B. Koehne at the church, beginning September 27, invites your attention. A paper at Beaver Falls, Pa., said of the Rev. Dr. Koehne has spoken to a large audience at every service he has held in Beaver. He relies on the compelling power of the plain gospel truths for his results. In a sermon lecture he has shown the fruits of a life-time study on that particular theme, drawing apt illustrations from the great field of nature and daily life. At times he breaks for a moment into the field of humor, but he seldom fails to clinch a point in doing it, and is always reverent in manner and discourse.

Health Clinic at Mt. Horeb.

Dr. A. A. Pleyte, of Milwaukee, will be the medical examiner at the free chest clinic to be conducted in Mt. Horeb on September 30 under the auspices of the Mt. Horeb Health Center and the Wisconsin Anti-Tuberculosis Association. Dr. Pleyte is a member of the medical staff of the Wisconsin Anti-Tuberculosis Association and is an expert who is well qualified in tuberculosis diagnosis and treatment.

For several years he was assistant and associate medical director at Stoughton, the state tuberculosis sanatorium. While in army service, he took the course of instruction in tuberculosis given by the government in New Haven, Conn., under leading tuberculosis specialists of national reputation.

On the basis of army practice in this respect, on completing the course he was sent to a government sanatorium in South Carolina, where he was made chief examiner of incoming men and later served in the officers' ward and as assistant to the chief consultant.

"While the object of the clinic is to discover early cases of tuberculosis," said Dr. Pleyte, "other conditions are also diagnosed. One of the most gratifying results of our clinics has been that, due to the early discovery of the disease through the opportunity for examination which the clinic offers, many of our patients are now restored to health or on their way to recovery. A large proportion of these people did not know that they had tuberculosis until they were examined at the clinic."

"I wish to emphasize the fact that tuberculosis is a curable disease. The earlier it is discovered, the more easily and quickly can it be cured. For this reason it is urged that people who have at any time been in contact with a case of tuberculosis or people who for any reason suspect that they may have contracted the disease, appear at the clinic and make sure of their condition through thorough examination."

"To many of our clinics has come the welcome word that their anxiety is groundless and that they are not tuberculous. Thus we have been able to relieve a great deal of worry and its consequent strain. If you are troubled by loss of appetite, loss of weight, loss of pep, the indication is that you need an examination. A persistent cough or cold also should receive attention."

Examinations are made free of charge, the cost of the clinic being borne jointly by the Health Center and the Wisconsin Anti-Tuberculosis Association. The state tuberculosis sanatorium is supported by the sale of penny Christmas seals.

The Key that Unlocks the Door to Long Living

The men of eighty-five and ninety years of age are not the rotund, well-fed, but thin, spare men, who live on a slender diet. The average man of this age, however, a man past middle age, will occasionally eat too much or of some article of food not suited to his constitution, causing indigestion or constipation and will need a dose of Chamberlain's Tablets to give his bowels and invigorate his stomach. When this is done, there is no reason why the average man should not live to a ripe old age.

Disarm Delegates Selected.

Senator Oscar Underwood, Senator Lodge, Ellis Rod, and Secretary Hughes will be the four representatives of the United States at the Washington conference on limitation of armaments, it is officially announced. The delegations of all nations participating in the conference will probably be limited to four members.

1,565,000 More Idle in 1914 Than Now

Washington, Sept. 14.—Those who are discouraged over the 5,733,000 unemployed, of today, overlook that in 1914, there were 7,000,000 out of work. Secretary Davis said today.

Assessing the country has just passed through a period when every man or woman before to work and save starting Europe," Mr. Davis said today.

But unemployment figures include great numbers upon whose earnings no one actually is dependent.

"While we have our unemployed, let us not forget the 12,000,000 still at work," the statement said.

"A further encouraging fact is that \$500,000,000 is now available about the country in bonds issued or approved by state, county and municipal governments for public works."

"Indubitably this will be organized intelligently."

Poor signs of business recovery have been furnished by the commissioner of labor statistics, Secretary Davis said.

George A. Steine, prominent Madison manufacturer, was fined \$100 and costs by Judge Hoppmann in superior court at Madison, last Friday, for drunkenness and disorderly conduct.

This charge was preferred against him after the charge of driving an automobile while intoxicated had been dismissed. A. A. Banning was also fined \$100 and costs in superior court Friday for driving an automobile while intoxicated. He pleaded guilty when arraigned.

Three young women of Stoughton and four Edgerton men were painfully injured shortly after midnight, Tuesday, at the outskirts of Stoughton, and a Twin Six Pathfinder car, valued at \$1,500, badly wrecked, when the car skidded into a cement culvert and turned completely over. The eighth occupant of the car, a young lady of Stoughton, was uninjured. Clifford Shaw, of Edgerton is the owner of the car. He was driving a party of young people home after attending a dance.

Suit Follows Melon Frank

An \$8,000 damage suit has arisen out of an alleged melon theft which is said to have resulted in the shooting of Russell Madison, 16, town of Rutland, on August 16, by Joseph Crahan, a neighboring farmer. The suit has been brought by Mrs. Mabel Madison, mother of the boy, who charges that her son, with five other boys, went to the Crahan farm, allegedly to get some melons. She charges that Crahan ran away with a gun and fired at the boys. Madison was struck in the leg and fell, the rest of the group fleeing. Madison's wounds are said to have resulted in a serious injury.

Need Not Make Public Licenses

No public notice is needed to validate licenses granted by city councils to proprietors of soft drink parlors, the attorney general holds. The only requirement according to the statute, is said to be that the council pass a resolution granting the permit, and that the license fee then be collected. The attorney general also rules that licenses of soft drink parlors may be transferred to heirs, when the proprietor moves his business from the city at fair time.

Airplane Wrecked in Storm at Portage.

During a heavy storm at Portage, Wednesday night, a large passenger airplane, owned by Ernest Zastrow, was wrecked while moored in a field on the outskirts of the city. The storm uprooted trees and tore the roofs from several buildings.

Hogs Lowest Wednesday in Five Years

South St. Paul—Hog prices at the stockyards here were lower Wednesday than they have been in more than five years. The best hogs sold at \$7.567.50 a hundred lbs. and some common heavy hogs were as low as \$7.5.

The Death Toll Of The Auto.

With 8,000,000 automobiles in use in the United States, the death toll being taken annually by the car is becoming one of the most acute problems before us.

A recent report of a large insurance company shows the fatalities last year are running about 25 per cent higher than last year. Among their policy holders, the death rate from this cause was 102 per 100,000. This is a rate that is fair for one month. This rate is a fair sample of what is occurring to the rest of our populace, we had more than 10,000 deaths that month caused by automobile accidents, to say nothing of those injured and injured, and of property damage.

The city of it is that most of these deaths are preventable. Our speed mania is such that a paltry 30 miles an hour does not satisfy us. We must do 50 or 60, even though we are on public highway. Added to this, not one motorist in ten knows how to properly care for his car, with the result that the average pair of brakes will not bring a car to a sudden stop, should an emergency arise.

To add to this feature, we issue a license to anyone with the car and the fee, and see reckless or incompetent driver perils souls of others. A large part of the responsibility rests upon the individual driver. As one veteran motorist put it: "If you see a roadblock or speed demon coming, give him more than half the road, and if you see a woman coming, give her all the road."

\$125,000,000 Paid In Back Luxury Taxes

Washington, Sept. 14.—Commissioner Blair of the Internal Revenue bureau said today that his "flying squads" had brought \$125,000,000 into the treasury from tax evaders.

Officials estimated that the government has been robbed on \$100,000,000 "luxury taxes" and a determined drive is to be continued to catch the guilty.

Revenue officials now are making careful survey of the methods of soft drink places, movie theaters and jewelry establishments.

The delinquent collections compiled today represented the work of 1,725 field deputies.

Same Symptoms

Slumpson—Why, Jones, it's ages since I saw you last. Married now, aren't you?
Jones—No, no, old man. It's not that. Just business worry and nerves.

Natives in British East Africa protest wage cuts because the price of wheat still is 50 per cent above par. This cost of living problem is going to be a humdinger to solve. It bobs up, no matter how far away you go, even in the jungle.

YOUR SAVINGS GROW

They Help When Misfortune Comes and When Opportunity Knocks.

By EDGAR TAYLOR WHELOCK. (Copyright, 1921, American Press League.) For wage earners, professional people with moderate incomes and persons drawing small salaries as clerks, accountants, etc., savings banks offer the only safe means by which funds may be accumulated to meet emergencies or take advantage of opportunities.

The Mission of Savings Banks. It is to encourage thrift and frugality that savings banks are established. In case of accident, sickness or death in the family, a savings account is indispensable. Also such an account may become available as a first payment on a home or an interest in a business venture which promises to be profitable.

For instance: By putting aside 34 cents each day a person can accumulate \$10 each month; by depositing this amount in a savings bank monthly, at the end of five years the depositor will have accumulated \$647.68.

At any time during the five years after \$100 or more has been saved the depositor may convert his savings into dividend-bearing stocks or interest-bearing bonds and thereby double the interest rate.

Not a Permanent Investment. It is not intended that savings accounts be considered as permanent investments. There are industrial bonds and stocks of approved value always on sale which pay from 7 to 10 per cent. In case of necessity these securities may be used as collateral when applying for loans at your bank, or they can be sold outright at any time, as there is always a market for them.

No bonds or stocks should ever be purchased by a man of limited capital who cannot afford to take a chance without asking advice from an experienced, trustworthy banker, or an established, responsible brokerage house. They have a complete record of the history and financial standing of every corporation in the country offering securities for sale and they are in a position to protect investors from Blue Sky swindlers.

Beware of Irresponsible Stock Salesmen.

Too much importance cannot be placed on this fact. Several years ago the federal government issued a statement to the effect that each year more than THREE HUNDRED MILLIONS OF DOLLARS are collected annually in this country by irresponsible operators through the sale of fraudulent stocks. Practically all of this money comes out of the pockets of poor people who cannot afford to lose it.

Will Be Given Hearing.

John A. Johnson, known as "Doc-Skin Johnson," is to have a chance to prove his innocence of the murder of seven-year-old Annie Lemberger on September 5, 1911. Governor Blaine, after hearing a plea for his pardon by Senator Timothy Burke, Johnson's attorney, announced he would order a hearing of the case before Court Commissioner Rufus B. Smith.

No Substitute Offered.

Say what you will about druggists offering something "just as good" because it pays a better profit, the fact still stands that ninety-nine out of a hundred druggists recommend Chamberlain's Colic and Diarrhoea Remedy, when the best remedy for diarrhoea is asked for, and do so because they know from what their customers say, that it can be depended upon.—Adv.

The production of Ford Cars and Trucks for August again broke all previous records with the total reaching 117,696. This is the fourth consecutive month in which the output has gone over the hundred thousand mark, the total for the four months being 463,074, which has gone a long way in making possible the present reductions. June this year, with an output of 117,247, was the previous record month.

Go over these new prices! See how little it costs to become the owner of a Ford Car or a Ford Truck. Can you really afford to do without one any longer?

Let us tell you more about it, and advise you regarding the delivery of the particular type of car in which you are interested.

—Maroon and white will be the colors for next year's automobile license plates in Wisconsin, according to Elmer S. Hall, secretary of state, who says that all automobile license plates in this state are made by the prisoners at Waupun. Because we care each year, not to mention traffic, it is necessary that the work be started early on the plates for 1922.

—Wisconsin farmers are faced with a shortage of approximately 500,000 tons of hay this year, and will have to purchase large quantities or dispose of much of their stock, according to a statement made Wednesday by Joseph A. Becker, crop reporter. Production of hay this year is estimated at 4,189,000 tons, compared to 4,109,000 estimated on the first of the month, and a five year average of 4,877,000 tons.

—Suits have been commenced in the circuit court at Madison by George and Fred Schmalz, of Prairie du Sac, against P. P. and John Miner, to recover \$1,000 which they claim is due them on the sale of a Cadillac car last year. The plaintiffs claim that they turned over to the defendants the car for resale, the condition being that it be sold for not less than \$1,000 and the balance of the purchase price to be paid to the defendants. They claim that the defendants sold the car for more than \$1,000 but have refused to live up to their agreement.

—Cultivated crops in Wisconsin made a most substantial gain during the month of August, says the report of J. A. Becker, of the Wisconsin crop reporting service. The corn crop increased some 1,800,000 bushels, potatoes nearly 1,000,000 bushels, tobacco more than 1,000,000 pounds, cabbage, 11,000 tons, and sugar beets, 18,000 tons. More seasonable temperatures and abundant rains renewed growth of all unharvested crops.

—Miss Adelaide Partridge, a daughter of A. M. Partridge, of Owatonna, Minn., and well known to many of our readers, was married at Owatonna, Tuesday, Sept. 6, 1921, to Carl Koppke, of that place. Mr. and Mrs. Koppke arrived at the home of Mr. and Mrs. Wm. Sawie, Friday, and spent several days here, returning to Owatonna, Wednesday evening. The bride is a graduate of the Mazomanie high school, and her many friends here extend hearty congratulations.

—A young man, apparently insane, appeared at the Earl Orcutt farm west of town Thursday morning, and refused to leave, taking possession of the barn. Officers from the village brought him to this place in the afternoon, and endeavored to ascertain his identity, but other than an unspoken letter addressed to a name corresponding in a measure as nearly as could be understood to what he gave as his own name, nothing much could be learned. The letter also bore the inscription, "Richland Center, Wis." From the drift of his talk it was inferred that he was going to walk to Milwaukee, and that he was a metal polisher. He was taken to Madison last evening in charge of Edw. Neavich, the marshal being out of town at the time.

—Mrs. John Kreyche, a resident of this place until twenty years ago, died at the home of her son, John, at Exeland, Wis., Sunday evening, Sept. 11, 1921, aged nearly seventy-five years. She was born near Prague, Prussia, September 24, 1846. Her husband died at Muskego and was buried in Mazomanie in January 1908, and an only daughter died in May of the same year, since which time she has made her home with her son, who for the past ten years has been farming. Funeral services were held at Exeland, and the body taken to Mazomanie, accompanied by the son, John, and his wife. The body arrived Wednesday evening and was taken to the Knapp & Son undertaking rooms. The burial took place in the Mazomanie cemetery Thursday forenoon, the services at the grave being conducted by Rev. Geo. V. R. Shepard.
