HELD FOR MANSLAUGHTER.

"Fatty" Arbutick Released on Bail After Eighteen Days in Prison.

San Francisco, Cal., Sept. 28.—Roose Arbutick was freed of the charge of murder today, but was held for trial for manslaughter for the death of Miss Virginia Happe. She died after a party in his rooms in the Hotel St. Francis on Labor Day. "Fatty" is now at liberty on \$5,000 cash bail. The bail was furnished under the manslaughter indictment returned against him by the grand jury. He was released on his own recognizance under the police court charge.

Arbutick almost won full release from the police court charge because the state refused to put its complaining witness, Mrs. Randolph Maud Belmont, on the stand. Judge Stryker J. Lazarus, commenting on this, said evidence to warrant holding Arbutick for murder had not been produced, and reduced the charge to manslaughter.

A Warning to Motorists.

Richland Democrat: Every day or two a complaint is made by residents of the failure of automobilists to offer rides to people they pass upon the roads. Here is one reason for such failure on the part of auto drivers. One evening last week, just as the shades of night were falling, two gentlemen who have been making deliveries and collections about the country, drove onto route 11 just this side of Boonville. While proceeding at a moderate pace, the man at the wheel noticed what appeared to be a perfectly good man's hat lying in the road. His foot sought the brake and stopping apparatus, but as the car slowed down two men jumped from the side of the road and ran toward the car. Immediately suspecting a holdup the driver "stepped on her" and the car dashed along the road, but not a moment too soon, as two shots from guns in the hands of the men rang out in the air and a bullet grazed one of the rear wheels. The men these fellows may have been business, or they may just have been having what they called "fun," but the driver is now a very nervous man.

advis, especially in the evening, unless it be to help out a well known acquaintance. "You never can tell," is what most drivers think, when he sees a strange walking along the road or notices a suspicious article in the roadway.

Record Reached in Liberty Bonds.

New York, Sept. 27.—Trading in Liberty bonds and Victory notes on the stock exchange today again attained unusually large proportions and created several new high records for the year. The chief feature being Victory 4's. These rose to 90½. Out of total bond sales, roughly estimated at \$19,000,000, the Liberty and Victory issues constituted fully one-third of the total.

Largest Coal Receiving Port.

Superior is Wisconsin's chief coal receiving center, according to report of the department of commerce, which states that \$24,104 tons of soft coal have been taken in at the Superior docks up to September 1. Milwaukee ranks second with receipt of 1,851,080 tons. Manitowish received 200,000 tons; Sheboygan, 200,282 tons; Green Bay, 197,000 tons; Ashland, 300,300 tons.

The Ideal Purgative.

As a purgative, Chamberlain's Tablets are the exact thing required, strong enough for the most robust, mild enough for children. They cause an agreeable movement of the bowels without any of the terrible griping which they are easy and pleasant to take and agreeable in effect.—Adv.

Morgan Would Be Governor.

William J. Morgan, attorney general, will be a candidate for governor in Wisconsin in the 1922 primary unless political elements opposed to the present administration and the so-called La Follette-Norfolkian League faction of the republicans should hold an open meeting and choose another man. He says, according to his friends, that in such a case he would withdraw as a candidate. He said he would not oppose Senator La Follette.

Smith, on Johnson's application for a pardon. Fear of the mob, was given by Johnson as his reason for pleading guilty to the charge of murder, a plea which he said

was not guilty, but would plead guilty to escape the mob, which he had supposed was after him.

Gels Message From Hell.

London, Sept. 27.—A warning to would-be suicides to shun the terrors of hell is uttered by Sir Oliver Lodge in an article entitled "The Ethics of Suicide," published by the Fortnightly Review.

"Some desperate souls may say 'We don't care. We are in hell now. If we are in hell hereafter it will not be any worse,' says Sir Oliver. 'But it will be worse. It will be torment. Hell is not so easily realized.'"

Sir Oliver claims he has received communications from suicides in hell.

It is usually the busy man who does things on time.

Governor Blaine's new sedan, which was being brought back from Milwaukee, where it had been sent for repairs, was wrecked Thursday night last week on the bridge over the Rock river, five miles from Watertown. The chauffeur, Sanford Roque, who was alone in the car, was thrown from his seat and was badly injured. John D. Moore, superintendent of public property, drove to Watertown Friday morning to take the car back to Milwaukee.

Fifty Thousand Feet in the Air.

Lieutenant John A. MacReady, test pilot at McCook Field, Dayton, Ohio, shattered the world's altitude record, Wednesday, attaining a height of 50,000 feet in the same La Perre airplane used by Rudolph O. Schroeder, who set a record of 38,180 feet on February 28, 1920. Lieut. MacReady was in the air one hour and forty-seven minutes at 50,000 feet for forward on his oxygen tank, but he pressed on until the altimeter registered 51,000 feet, when his engine died. He glided to earth.

Convicts Receive Pay On Their Discharge.

Upwards of \$23,500 is on deposit in the banks of Wisconsin awaiting the discharge of prisoners now in the state prison. This was the statement of former Warden Henry Towne in discussing the Wisconsin idea of paying prisoners.

"Each prisoner at Waupun receives three cents a day for each day during the first year," said Towne.

"After the first year this pay is reduced to one cent a day. The highest amount that I remember any prisoner receiving upon discharge was close to \$100. This is due, however, to the fact that we allow liberal pay for extra and overtime work in various capacities."

"The result of all this is that no prisoner leaves the gates without at least \$5 in addition to his free citizens' clothes. In the winter we, of course, furnish an overcoat in addition. At all times he receives free transportation back to the town where he was convicted and sentenced to Waupun."

While many states give a man a five dollar bill when he leaves prison regardless of the time he has spent, it is said the Wisconsin system has approval of all prison authorities. It furnishes a sufficient sum of money in many cases, so that men and women can take care of themselves for the period of readjustment following release after long confinement.

War Elm Falls at Baraboo.

During a recent storm at Baraboo a war elm fell, killing a man.

—The death of Mrs. Frank Avery. Though a number of neighbors were in the home at the time none were injured. The Baraboo News says: "The old elm was known as the Sumner tree because it was planted the day the news of the firing on the fort, April 12th, 1861, reached Baraboo. At the time the news came, the late Senator Frank Avery was planting the tree. The information came from Kilbourn, and while at the task Jonathan Miles came along and informed Mr. Avery of the momentous event. The firing on the fort precipitated the war and many Sauk county soldiers rallied to the defense of the flag. Once the elm was struck by lightning and now it has been badly torn. The damage to the historic tree is greatly regretted in the neighborhood and by the entire populace of Baraboo."

New School Age Law.

The new law requiring that children attend school until 18 years of age instead of 17 will affect the attendance at the high school.

Full time attendance either in public school grades or in school on the vocational school is required of all under 18 years of age who do not secure employment even though they can meet other requirements for a working permit. All persons between ages 6-18 must report for school somewhere. Persons desiring working permits must be at least 14 years of age and have completed the eighth grade or have been in school nine years exclusive of kindergarten. Until this year the law only required completion of the seventh grade or eighth year in school. Graduates of high school are exempt from further schooling regardless of age. Until this year 17 years of age was the limit but the new law makes attendance compulsory until 18 years of age.

Two Lone Rock young ladies, Miss Fleck and Miss Phetprea, found that bus-car traveling was not a certain thing when they left their homes intent upon beating their way to Stoughton, where they hoped to obtain employment, but were put off at Arena by two brakemen after the train had pulled out. They were brought back to town and their parents notified. They arrived on the next train and took the girls home.—Dodgeville Sun-Republic.
