Peace For Ireland.

An eleven-hour agreement between Great Britain and Sinn Féin was reached in the small hours of the morning Tuesday, after hours of bitter discussion. The pact was rushed to Belfast for the sanction of Ulster. Her acceptance is considered most probable. The British cabinet approved the agreement shortly after noon. King George sent a message saying he was overjoyed at the splendid news. Authorities are confident the agreement would meet the approval of all factions. The agreement was signed by Premier Lloyd George, Austen Chamberlain, Lloyd Birkenhead, and Winston Churchill, for Great Britain, and Arthur Griffith, Michael Collins and George Barton for Sinn Féin. Ireland is to be known as the "Irish Free State."

ELLSWORTH & MATHER

On Wednesday, King George issued a proclamation releasing all political prisoners interned in Ireland. Approximately 3,400 persons are affected by the release order, all persons under internment as dis-

tributed from those who have been tried and convicted, it was stated by the Irish office.

Mazomanie, a Farmers' Service Station.

The relation of the farmer to the small town is the subject of a study which is being conducted in Mazomanie by J. H. Kolb, representing the U. S. Department of Agriculture and the Agricultural Experiment Station at Madison. Secretary Wallace, of the U. S. Department of Agriculture, is urging in numerous public addresses this winter, the importance of giving attention to the buying and selling activities of the farmer as well as to the social problems of rural life. The present study is one of a number of such studies which are being carried in other parts of the country.

"The small town needs the farmer and the farmer needs the small town," says Mr. Kolb. "The small town is really the farmer's service station. The purpose of the study is to find out to what extent the farmer is using such a service station. The services include, of course, not only the buying and selling or merchandising, but also those of education, religion, recreation, social activity, and amusements."

Last year a similar investigation was made of the farmers' organizations and neighborhood settlements in Dane county. The results are now being published by the experiment station.

Although no attempt will be made at any sort of organization, yet the results of the study when summarized and reduced to tables and maps will be available to local people in case there is a desire to make use of them in any organized way. Such a report could well become the starting point for some united effort for making Mazomanie a better and bigger service station.

The business men and the officers of the various organizations, Mr. Kolb reports, are giving freely of their time and are cooperating in every way.

VERMONT

A social and business will be held Friday evening at the high school.

Sumner with relatives in town Tuesday. Mr. and Mrs. Frank Brunner and family were Cross Plains visitors Tuesday.

Mrs. Ernest Sutcliffe and daughter, Miss Marie, were Madison visitors, on Saturday.

A Somerset party was given at the home of Mr. and Mrs. Mike Norman, Friday evening, by the Social Center club.

Mr. and Mrs. Raphael Borman and Mr. and Mrs. Vernon Hodgson were guests at a Somerset party given at the Quar Tupper home, at Black Earth, Tuesday evening.

Dr. Lorenz Will Return Home. Dr. Adolph Lorenz, the famous Austrian surgeon, announced Wednesday that in view of the opposition to his professional activities in this country from the medical profession he would discontinue further free clinics and return to Vienna as soon as possible. Dr. Lorenz may reconsider his decision, and remain here for the present.

No Substitute Offered.

Say what you will about druggists offering something "just as good" because it pays a better profit, the fact still stands that ninety-nine out of a hundred druggists recommend Chamberlain's Colic and Diarrhoea Remedy, when the best remedy for diarrhoea is asked for, and do so because they know from what their customers say, that it can be depended upon.—Adv.

A Pronounced Success.

The uniform success that has attended the use of Chamberlain's Colic and Diarrhoea Remedy in the relief of cases of bowel complaints, both for children and adults, has brought it to the attention of the universal use, so that it is practically without a rival and as everyone who has used it knows, it is without an equal.—Adv.

C. S. War Pensions.

The United States is paying pensions to sixty-four widows of men who served in the United States army in the war of 1812.

For service in the Mexican war in 1846, pensions are given 100 soldiers and 2,150 widows; for the Spanish war, 21,000 soldiers and 5,126 dependents are pensioned; and for the civil war 214,773 soldiers and 281,227 dependents are pensioned.

During the United States year ending June 30, these pensioners received \$28,875,000, which was \$45,000,000 more than the total paid the year before, although 20,137 pensioners died.

The total number receiving pensions is 350,053.

Christmas Seal Your Christmas Mail.

St. Hore is one of the communities in the state to which the annual Christmas Seal sale this year will have a special significance, for the visit of the traveling clinic held there a few weeks ago was a striking demonstration of the value of one phase of the work financed by the stamps. Here, as in practically every community in the state where clinics have been held, it was impossible to examine all the people who presented themselves. Not only have scores of people been turned away from new clinics, but the state association has been unable to respond to the demand for this service from a great many communities. A second clinic team is urgently needed and will be organized if enough funds are raised in this year's sale to make it possible.

A study of the clinic records of the state association will reveal cases of many persons, who unquestionably owe their lives to the work of the traveling free chest clinic. Twenty per cent, or one in five of the 5,000 persons examined at the 100 clinics held during the past year, were found to have tuberculosis. A large number of these cases were entirely unsuspected by the patients themselves, and undoubtedly many who were found tuberculous and due to proper treatment are now recovering, would have neglected being examined until the disease had seriously advanced, had the traveling clinic not come to town.

Although Wisconsin's death rate from tuberculosis has been one of the lowest in the United States, it is still much to be done. Last year over 2,200 Wisconsin men, women, and children died of tuberculosis, and there are today over 20,000 living cases in need of care. A large majority of these cases are unknown to the patients themselves, national investigations having proven that at least fifty per cent. of even advanced cases of tuberculosis are undiagnosed.

To search out these undiagnosed cases and persuade them to take the proper treatment while the chances for recovery are best is the work of the traveling free chest clinic, which is but one of the health activities supported by Christmas seals.

Every purchaser of the cheery little double barred cross stickers has a share in this life-saving work. "Christmas Seal your Christmas Mail."
