### CHURCHES :: SOCIETIES

**M. E. Church.**—Next Sunday morning, Sunday school begins at 10 o'clock. The pastor will preach at 11 a. m. The sermon subject will be, "Things Which Make a Strong Church." Only four Sundays more before the annual conference, which convenes in Marshfield, August 29. Be ready to send complete reports, with no deficiencies, to conference this year. Service at Mounds Creek Sunday, at 2:30 p. m., followed by Sunday school. Stand by the rural church, for it is one of the foundation stones of good government.—Rev. W. P. Burrows, Pastor.

### Community Church Notes.

Mr. and Mrs. Shegan started Tuesday morning on a vacation trip through the northern part of Wisconsin and Michigan. They will visit their daughter, Florence, in her new home at Ralph, Mich.

There will be no services of any of the church organizations, August 6, but August 13 the usual order will be observed. Prof. A. P. Haake will fill the pulpit both morning and evening.

The D. V. B. S. closed its second annual session with transmuting exercises Sunday evening when the following program was rendered:

Hymns, and an anthem by the choir; recitations and prayer, class I; The

Lord's Prayer and bible verses, class II; Books of the Bible, class III; 1 Cor. 13, class IV; Romans 12, class V; Benedictions, class VI; outline of the Gospel of John, class VII; a paper, Thanksgiving Ann, Helen Speich, class IV; Jesus Wants Me for a Sunbeam, William Jones, class III; address, by Rev. W. P. Burrows. On account of the approaching storm, two numbers were omitted, one a song by class IV girls, The Song of The Sunbeams.

The diploma were presented by the principal, Miss Lawa. There was a total enrollment of 82, and of this number there were 73 steady workers.

The test of attendance is the only one made: Class IV, boys, Pearl Winch, teacher, had the highest average attendance, 97.5%; class III girls, Lorna Gillette, teacher, 92.5-115%; class IV, girls, Jessie Sindle, teacher, 91.5%. As attendance is the only test made for promotion, parents will readily see how important it is that the children attend regularly. Some failed to be present Sunday evening. After the faithful efforts put forth by the teachers, it is surely due them that their pupils "stand by" at the public exhibition of the work. Multiplying what your child does by everyone's child, what would be the effect upon any sort of community efforts?

The third session will be the second and third weeks of July, 1923. Will it not be possible to plan so that there will be a large regular attendance?

### Grand-daughter of Mazomanie Residents Drowned.

Madison takes claimed their seventh victim of the year Friday with the finding of the body of Virginia Roche, 4, daughter of Mr. and Mrs. Walter Roche, 401 E. Johnson St., in Lake Mendota at the foot of Franklin St.

The girl disappeared at 5 P. M. Thursday. Police and East Side residents began dragging the lake several hours later under the direction of Patrolman Roy Schott, until midnight, but without result. The body was recovered Friday morning by Capt. Thomas Hubbell, in charge of the university bathhouse and his assistant, E. N. Nelsch.

Coming from her home, Virginia made for the lake to watch the bathers, as was her wont, it is believed, she fell into the water without outcry, apparently, and drowned unnoticed.

#### For CONGRESS

### I BELIEVE IN TAKING THE BULL BY THE HORNS, NOT THE TAIL.

1. I stand for a soldier's bonus.
2. Reduction of the doctor's prescription to fifty cents, and the price of liquor to fifty cents, to abolish the moonshiner. The Volstead Act as it is now administered is making criminals. It gives a bounty to the moonshiner.
3. Repeal the Eight-Century Bill. Excessive rates have driven the public from the roads.
4. A new organic law, equitable in nature, with right of appeal, to settle all strikes. The present strikes now cost us \$5,000,000 a day.
5. The abolition of Boards of Trade, dealing in margins. Boards of Trade put a false price on the farmers' product. The farmers buy when the market is low and sell when the market is high.
6. The squeezing out of all public utilities, the watered stock. There are eight billion dollars of watered stock in the railroads.

### MAN GIVES WIFE GLYCERINE MIXTURE

She had stomach trouble for years. After giving her simple buckthorn bark, glycerine, etc., as mixed in Adler-ika, her husband says: "My wife feels fine now and has gained weight. It is a wonderful stomach medicine." Adler-ika acts on BOTH upper and lower bowel, removing food matter which poisoned stomach and which you never thought was in your system. EXCELLENT for gas on the stomach or chronic constipation. Guards against appendicitis. The impurities it brings out will surprise you.—H. Lippert, druggist.

### Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. "Catarhal Deafness" requires constitutional treatment. HALL'S CATARHAL MEDICINE is a constitutional remedy. "Catarhal Deafness" is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be removed, your hearing may be destroyed forever. HALL'S CATARHAL MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions. Circulars free. All Druggists. F. J. —Richland Democrat: The Mazomanie Sickle says that motor bus traffic has increased to such an extent that most of the passenger travel from that village to Madison is made in that manner. We have no motor bus line in this neck of the woods, but if the sales tickets at the depot in this city is any criterion by which to judge, even the jacking Ford is more popular there than the railroad train.

—Reports from railroad companies throughout the northwest to the Immigration Division showing immigrant cars unloaded along their lines indicate that 1922 will not be a big year in that settlement, according to G. M. Hunsicker, of the Wisconsin Department of Agriculture. "One road having miles in Michigan, Minnesota, and the Dakotas reports seventy-one immigrant cars arriving at points on their systems last month. It is interesting to note that of the seventy-one new settlers Wisconsin received fifty-eight, North Dakota one, South Dakota one, Minnesota ten, and Michigan one. The immigrant cars originated in New York, Nebraska, Indiana, Ohio, Illinois, Iowa

—The scarred crops of grain, and hay represent the years of toil of the farmer, his family and his hired help. Let no careless act jeopardize these food and feed products, says a statement from the industrial commission. The farmer's secret enemy is lightning, and the best is a favor-able. Occasionally a building, poorly rodded, is struck. This is no argument against the efficacy of lightning rod protection, when proper materials are used, installed according to the best modern practice, well grounded to permanent moisture, and kept in good repair. When so installed the lightning rod is an almost certain protection, and the cheapest protection a farmer can have.

—On Sunday, July 30, intermediate members of the Hawley families and relatives assembled to celebrate the occasion of their second annual reunion, staged at the grove of Otto Olson, one and one-half miles east of this village. General good old hand shaking coupled with many interesting reminiscences which were related made the occasion one which will be long remembered. A basket dinner was served in the good old way to about sixty people. Members of the Hawleys attending were: Mr. and Mrs. Asa Hawley and son; Fred Hawley and family; Mr. and Mrs. Herbert Hawley and daughter, of Oregon; George and Claude; Mr. and Mrs. Eli Meiller; Mrs. A. Cooper and daughter; Mr. and Mrs. Louis Karberg and daughter, Bernice, of Sauk City; Mr. and Mrs. Ben Anderson and family; Lawrence Gort and family; Mr. and Mrs. Alfred Hammacher and daughter; Mr. and Mrs. Keith Campbell and family; Elmer Meiller and family; Lawson Meiller and son; Mr. and Mrs. Jacob and daughter, Vera; Mr. and Mrs. Elvin Faulkner and daughter, of Madison. Horseshoe pitching was brought into evidence, Thursday, August 3.

Fred Hawley and Louis Karberg defeated Asa Hawley and Elvin Faulkner in a series of games. The feature of the entire program was the close contested baseball game between Gort's "Athletics" and Hawley's "All Stars." The "All Stars" emerged a winner by the score of 14 to 13, Robert Meiller and Asa Hawley starting with the stick, each capturing five hits. Walter Meiller, of Madison, well known in various branches of athletics, acted as official umpire. His work was highly commendable. "Happies All Stars, Forrest Hawley, Lawrence Gort; Athletics, Fred Hawley, Ralph Anderson. Struck out by Gort, 7; by Fred Hawley, 5. Hit by pitched ball, Fred Hawley. Each team recorded two home runs. Official scorer, Alvin Gilette. A rousing supper was served in the evening, after which the pickers went to their respective homes. A short talk by Herbert Hawley concluded the day's program. Mrs. Ellen

Meiller, 67 years old, was the oldest member of the Hawley family, and Roy Meiller was the youngest, being four months of age. The third annual reunion will be held by the Hawleys at Olson's grove the last Sunday in July of next year. The writer wishes the best of luck to all relations and acquaintances he met at the reunion, and expects to attend again next year. \*

## Notice.

The Town Board of Review for the Township of Mazomanie, will meet at the town hall, Saturday, August 12th, 1922, at 9:00 o'clock a. m.

G. L. Dunlap, Town Clerk

The morning run of the branch train, which arrived here at about 7:45, has been discontinued. The train now starts here on the first run of the day shortly after 11:00 o'clock in the forenoon, and returns after the second trip at about 7:30 p. m., remaining here for the night.

Mr. and Mrs. George Pugh and daughter, Miss Janet, left for Los Angeles, Calif., Wednesday morning, for a visit of several weeks. Miss Pugh came from Minneapolis, Sunday morning, to join her parents on the trip. Mr. Pugh accompanied Mrs. Augusta Clark to Milwaukee, Sunday, where she will visit with her relatives for a few weeks.

The drowning of Clarence Kocher, 50, 616 Willard Ave., Saturday night, ended a week of tragedy for Madison in which five violent deaths occurred, a girl took poison, four men narrowly escaped death in Lake Mendota, a man was severely burned in a tank car explosion and several persons were injured in minor automobile accidents.

Mrs. Ida Roche went to Madison, Friday morning, called there by the death of her granddaughter, Virginia. The rest of the family went Sunday to attend the funeral, which was held at the Holy Redeemer church, Monday morning. Mr. and Mrs. Edward Roche and daughter, of Omaha, Neb., also attended the funeral, and are now visiting at the home of Mrs. Roche.

Grade crossing accidents numbered 33 during the past quarter, the railroad commission reported Tuesday. Eight persons were killed, and 25 injured in the accidents, 26 of which involved automobiles in which three persons were killed and 23 injured. The steam railroads reported a total of 62 accidents, other than crossing accidents during the quarter, resulting in 13 fatalities and 32 injuries. Of these casualties, trespassers furnished 7 killed and 8 injured.

The largest law class ever passed by the Wisconsin Board of Bar Examiners was announced last Thursday, 107 of 122 who took the examination, 102 passed, according to the announcement made this morning by Arthur A. McLeod, secretary of the board. The fact that 83 percent of those taking the examination passed is unusual. Of those taking the examination, 73 were graduates of the Marquette Law School. Several of those who took the examination were overseas. Law studies were interrupted at the time of the war.

A violent thunder storm struck this place shortly before ten o'clock.

Lightning demolished the chimney on Jas. Carroll's residence, and also struck at the residence of Geo. Pugh, where it set fire to a pad of paper lying on top of the telephone box, which caused quite a flame for a few moments. A little half fell here in the village, but a few miles southwest of town the storm was accompanied by heavy hail in some sections, which did a great deal of damage to corn. There was also a heavy rain late Tuesday afternoon.

Walter B. Mellier writes: On August 1st, 1922, I discovered a freak in a full blooded Plymouth Rock chicken possessing four legs. Born on April 25th, 1922, this one-pound feathered wonder, called Beelzebub, was hatched from an egg which came from the poultry department of the College of Agriculture, University of Wisconsin, and of the heavy laying strain. Its home is on the Lewis Sexton farm in Halfway Prairie. When Beelzebub first saw the light of day it appeared to be a cripple, but proved later to be the possessor of two extra legs, which had two and three toes respectively. Although the extra legs cause some inconvenience by occasionally hooking into vines or fences, they have never seemed to be a handicap. The writer believes this healthy, lively chick which has kept abreast of its mates in growth, probably has a double digestive system, and a part of a second body. Beelzebub was born with a full hatch of ten perfectly normal chicks. This is the second freak born on this farm, the first being a five-legged sheep, several years ago.

More red blooded Americans needed, and fewer red minded socialists.
