The "Daylight" Washer-The Masterpiece

Washes, Acraha, Sterlines, The

the Clothes, all at the same time.

Vacuum and Aeration—the principle on which the "Daylight" washes—makes sure that both air and sudsy water are forced down through the fabric, and then drawn up through it again. This repeated action is what brings your clothes out white, fluffy, air-blown and thoroughly clean with no pull or strain on the fabrics.

Compare blankets washed this way and those "matted" by other methods.

Ask for a free demonstration in your home. Convenient terms can be arranged.
