

THE MAZOMANIE SICKLE.

VOL. XLIX.

MAZOMANIE, DANE COUNTY, WISCONSIN, FRIDAY, SEPT. 22, 1922.

NO. 34

Three Babies Killed in Cave.
Richland Democrat? Clarice, aged three years, Marjorie, aged four, and Lucille, aged six, baby daughters of Mr. and Mrs. Arthur Beatty, lost their lives, Saturday afternoon, while at play in a dug-out in near vicinity to their mother and home, all being dead when released from beneath the tons of rock and sand.

The Beatty home is but a short distance from the village of Woodstock. On this fatal afternoon the father was in attendance upon the county fair and the mother was with the family of five children, the survivors being a boy of seven and a babe in arms, also a boy. The scene of the tragic event is a ledge of sand rock just to the rear of the pleasant farm home, where Mr. Beatty had started to dig into the side-hill with the intention of providing a place for the storage of vegetables. An excavation probably six feet across the face, about three feet into the hill and perhaps three feet in height had been made, when the soil was found of such character that it was decided as an unfit place for the root-cellar, and work was suspended.

Mrs. Beatty had allowed the three children to go out of doors to play. A half hour later the mother missed the prattle of the little ones and went in search of them. As she rounded the house she discovered that a cave-in of the excavation had taken place, and rushing to the opening, she found one foot of one of her babes protruding from under the sand and rock. Her frantic screams attracted the attention of Mr. and Mrs. Frank Neefe, who ran to her assistance, and together they managed to get one child out, only to find it dead. Further assistance was necessary to extricate the other two bodies, as rock which two men could not move had fallen across the little bodies. All were dead.

Church Home For Lutheran Students.

A \$300,000 church home for Lutheran students is being built directly across the street from Lutheran hall at the university of Wisconsin. With the return of the students this week the builders have definitely resolved to finish the structure before the students return.

Plans for the building are all over the state have expressed their interest in the new project and have volunteered whatever assistance they can give in

See Who's Here

order that a place of worship for university students may be provided. Among them are Judge A. C. Backus, of Milwaukee; Pres. E. A. Birge, of the U. W.; Ex-Gov. E. L. Philipp, of Milwaukee; E. B. Steensland, of Madison; Neils P. Haugen, of Holmen, Montana; Otto Rosshard, of La Crosse; Edward Nordman, of Madison; L. A. Gordon, of Madison; and Alvin B. Peterson, of Prairie du Chien.

Built of magnificent cream colored cinder block, with trimmings, including window tracery, of select Bedford, the church towers to a height of one hundred feet. It will contain a large hall, bath, and eight Sunday school rooms, the church is designed to accommodate every form of activity and to become a true home for students.

Health Conference.

All babies and pre school children will be given an opportunity for examination during the health conference to be held in connection with the baby contest at Mt. Horeb. Special arrangements have been made for the care of the child who is especially in need of medical inspection. This service will be rendered by Dr. Mildred Van Cleve, who is a graduate of the University of Wisconsin.

Dr. Van Cleve will also confer and give prenatal advice to all expectant mothers. The purpose of this special phase of work is to promote the welfare and hygiene of infant and maternal nursing. Dr. Van Cleve's consultation rooms will be next to the health center rooms. Dr. Walter Sheldon, Dr. Frank Mead, and Dr. G. W. Helms are some of the physicians who will be making the Mt. Horeb baby health conference and chest clinic a success. The chest clinic hours are from 8:30 to 5:30 on Saturdays, September 30.

Hog Cholera in Southern Counties.

Seventeen new hog cholera outbreaks during the month of August, with heavy losses in each case is the disturbing report issued by the Wisconsin department of agriculture. The disease has been reported from eight counties, as follows:

Grant county, four cases, near Mineral Point, Montfort, Plattville. Rock county, three cases, near Avalon, Brodhead, Milton Junction.

Green county, one case near Albany. Milwaukee county, one case, near Wauwatosa. Fond du Lac, three cases, near Oakfield and Fond du Lac.

La Crosse county, one case, near West Salem. Polk county, three cases, near New Richmond.

St. Croix county, one case near Spring Valley.

We have noted through the past history of cholera that outbreaks from the disease are most numerous, and those most severe during the fall months of September, October, and November. Farmers are therefore warned to watch their herds closely for evidence of disease. If some of the animals are not doing well, report the condition at once to the Department of Agriculture, Madison, Wis., and as much assistance as possible will be given you.

No herd of hogs, no matter how well kept, is safe from an attack of hog cholera, unless they are immunized, but the treatment should be administered while all the animals are in good health.

The nine miles of highway on trunk line No. 50, between Prairie du Chien and Waukegan, is practically completed and will be open to the public within a few days. The work has been under way for about a year and a half and will be completed at an expense very near the \$200,000 mark, the most extensive stretch under construction in the state this year.

The Soldiers' Bonus is Dead.

The profiteers have scored again! President Harding's veto of the soldier bonus bill was sustained in the senate, Wednesday, by a vote of 28 to 44, after it had been overridden in the house by the decisive majority of 258 to 54.

Reinforced by the "defection" of two republican senators, and aided by the "absence" of three unpaired supporters of the bill, the anti-bonus forces mustered more than they needed to defeat it.

As we have examined the necessary two-thirds vote to override the president's veto, the bonus advocates would have had to cast 48 votes. They fell four short of this mark.

All glory to Wisconsin's two senators, La Follette and Leonard. Both voted for the bonus, and to override the veto.

THE AMERICAN PRESS ASSOCIATION

SCHOOL NEWS

The public schools opened last week with a good enrollment. Nearly every pupil answered to the roll call. The places of the ones that are missing are filled by new pupils.

The work started out with little complications although under crowded conditions.

Parents must co-operate more this year than ever before in keeping up the health standards. Those living in the village should see that their children are getting enough exercise in the open air, proper amount of sleep, clothing and food. No pupil can do the work, if he or she is not physically fit. A little attention to these things will surely help.

Report cards will be given out every six weeks. Take the cards and carefully note each grade. If the grade is not up, let us diagnose the case together. There must be a reason, and some remedy should be made. If a child fails but should have made his

grade, it is a serious matter, for in these days and days to come our boys and girls will need all the education they can get.

The various classes met and have elected their officers for the year:
Seniors—President, Aljo Beckman; Secretary and Treasurer, Marjorie Jones.

Juniors—President Erville Borman; Vice-President, Josephine Zangl; Secretary, Vera Schmitz; Treasurer, Gladys Jones.

Sophomores—President, Mabel Parman; Vice-President, Ralph Hodgson; Secretary and Treasurer, Alvin Roelle. Freshmen—President, Gladys Hawley; Vice-President, Earl Lins; Secretary, Anna Quinn; Treasurer, Delbert Jones.

H. W. Jones, Principal.

Wisconsin Maintains Lead.

On September 1, Wisconsin still maintains its lead in the nation-wide war on bovine tuberculosis. Iron, Douglas, and Chippewa counties have

been free of tuberculosis since 1918. As yet, Wisconsin now has seven counties with tuberculosis tested cattle, four in which work is progressing, two others that have petitioned the department of agriculture for county-wide tests, and a dozen or more which are securing signers for such test.

Wisconsin not only leads the nation in the greatest number of tested areas, but also in the number of accredited herds. There were tested under the accredited herd plan 502 herds containing 11,476 cattle; 416 animals reacted to the tuberculin test. Forty-two herds were tested for reaccreditation by the local accredited veterinarians containing 1,155 cattle. At the end of August there were 5,800 herds containing 134,141 cattle under supervision. 3,011 herds containing 52,269 cattle had passed the first negative test toward reaccreditation and there were 1,820 herds containing 41,151 cattle certified to as fully accredited.

The Wisconsin potato crop this year based upon forecasted production on September 1, should leave a surplus of 45,840 cars for shipment, states Joseph A. Becker, of the Wisconsin Co-operative Crop Reporting Service. Last year 12,500 cars were shipped; in 1920, 19,980 cars; in 1919, 21,800 cars; and in 1918, 25,000 cars. Expressed in bushels available for shipment, some 20,276,000 bushels will be available from this year's crop as compared to 7,590,000 bushels last year, 10,828,000 bushels in 1920, 14,185,000 bushels in 1919, and 17,639,000 bushels in 1918.

A mark in this space indicates that your subscription to the Sickle has expired. Prompt remittance for renewal will be greatly appreciated, and will insure continued delivery. The Sickle is payable in advance, at \$2.00 per year.

Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one effective remedy, and that is HALL'S CATARRH MEDICINE. It is a constitutional remedy. It cures the catarrh of the mucous membrane of the middle ear, and restores the hearing. It is a simple, safe, and effective remedy. It is the only remedy that cures the catarrh of the middle ear. It is the only remedy that restores the hearing. It is the only remedy that cures the catarrh of the middle ear. It is the only remedy that restores the hearing.

—John Lihney went to Madison, Tuesday, to enter the university.

—Willard Sharratt has returned to Madison to attend the university.

—Butz Bros. have painted the front of their store building, near the depot.

—A daughter was born to Mr. and Mrs. John Parman, Saturday morning.

—Miss Florence Knap is spending the week at Lake Geneva and Milwaukee.

—Mrs. Vivian Chaffield returned home from her visit to Minneapolis, Thursday.

—Miss Alice Diment went to Madison, Monday, to resume her studies at the university.

—Mrs. Harry Fay was taken home from the Methodist hospital at Madison, Thursday.

—Mr. and Mrs. Ben Wein and family have gone to Madison to celebrate the Jewish Christmas.

—Misses Harriet Price and Lorna Gillette went to Waukegan, Monday, to attend Carroll college.

—Glasses carefully and correctly fitted by H. Lappley, Registered Optometrist, Mazomanie, Wis.

—Miss Elsie Holzman went to Madison, Friday, where she will resume her studies at the university.

—Mrs. Frank Steele and daughter, of Ladysmith, are visiting with Mr. and Mrs. Ed Mellier and family.

—William Elver, oldest son of Mr. and Mrs. Chas. Elver, is quarantined with a mild case of infantile paralysis.

—Miss Elizabeth, Miss Mary, and Mary Stuckert were at Madison, Thursday.

—Mr. and Mrs. C. W. Browne and children visited friends at Prairie du Chien, over Sunday, making the trip in their car.

—Wilfred and William Le Velle, of Marshall, and Allyn Le Velle, of Ladysmith, spent the week-end with the Kerr family.

—Yesterday President Harding attached his signature to the tariff bill of 1922, making the new rate effective at midnight last night.

—Mrs. Louis Hammet, of Owaucous, Minn., called on friends here, Thursday. Mrs. Hammet is better known here as Miss Belle Wightman.

—Mr. and Mrs. Henry Barto, and Mr. and Mrs. James Whittles and family, of Spring Green, visited Mr. and Mrs. Michael Koch, Sunday.

—Miss Mary Sutcliffe has gone to Whitewater to attend the Normal school, and Miss Jessie Sutcliffe is attending the GC college at Madison.

—Rev. Geo. V. R. Shepard went to Pardsville, Tuesday, to attend the semi-annual meeting of the Madison presbytery. He also visited at Beaver Dam.

—George Anderson, of Black Earth, has purchased a Fordson tractor, and Rev. F. M. Prucia has purchased a Ford touring car from the Mazo Motor Co. this week.

—Mrs. Will Roberts, of Manitowish, Mich., spent part of last week here. She had been called to Whitewater to see her father, George Wightman, who is seriously ill.

—The Mazomanie high school baseball team was defeated by the Black Earth high school team by a score of 5 to 1 in a game at Black Earth, Wednesday afternoon.

—Mt. Hope is making arrangements to hold a harvest festival September 28 to 30, inclusive. The program list is out, and shows that the event is to be a near fair.

—What has become of R. G. Dahlberg? "Why, don't you know?" He is in his new harness and shoe repair shop, at all business hours, in the Hobbs building, on Crescent street.

—Returns from representative cranberry growers of the state are to the effect that this year's crop of that sugar-reducing berry will be about 40,000 barrels, nearly double the crop of last year.

—Mrs. James Schaffer suffered a stroke of paralysis, Tuesday afternoon which seriously affected the whole left side of her body and face. She is resting easily at present, and shows some improvement.

—Frank Koltes, of Madison, has purchased the Dr. West farm, north of town, occupied by A. J. West, and will take possession the first of next month. Ray Jackson will move onto the place as tenant.

—Mr. and Mrs. Robert Humphrey and son, Ernest, of Keystone, Neb., visited Mr. and Mrs. Paul Schroeder and family last week. Mr. and Mrs. Henry Nelson, of Mill Creek, were visitors at the Schroeder home, Sunday.

—The annual State Conference of Social Work will be held at Madison, October 11 to 13. Leading social and civic workers from every section of the nation and state will give addresses on the dominant problems of home, school, the community, etc.

—Rev. Henry Scherman and his daughter, Miss Clara, of Nebraska, spent Tuesday with J. W. Walter. Rev. Scherman was pastor of the Evangelical church at this place thirty-one years ago, and called on some of his old friends here. Miss Scherman, who was born in the former Evangelical parsonage at this place, has recently returned from China, where she is engaged in missionary work for the Evangelical church.

—Capital Times: John Barleycorn was the central figure in proceedings in superior court, Saturday. Of a total of sixteen persons called before Judge Stolen, fourteen were charged with transgression of liquor laws. Three of them were charged with drunkenness, while eleven were up for alleged violations of the state prohibition act. Two men were fined when they entered pleas of guilty to possession of illicit liquor. E. C. Tiller, of Mazomanie, and Louis Turner, of Madison, each paid \$100 and costs. Charges of transportation of liquor against Tiller were dismissed.

Attention, Mystic Workers! Members of this organization are urged to pay their assessments when due, to avoid suspension.

Bertha M. Rohr, Secretary.

Notice.

Gold Film to Transparencies

Gold 1-2788,000 of an inch thick, or 10,084 times thinner than the ordinary sheet of printing paper has recently been produced. One grain of the precious metal of this thickness covers nearly four square feet of area and is perfectly transparent.

The process of obtaining the thinnest film is to cut a sheet of copper to a determined size and place it in an electric bath, where sufficient gold is deposited on one surface of the plate, to produce the finest gold color discernible. To separate the gold from the copper, the gold-plated copper strip is immersed in a weak solution of nitric acid for several days. The copper is entirely dissolved, leaving the film of gold floating on the surface of the liquid. The film is then collected on a glass plate—Popular Science Monthly.

Mount Everest.
According to the latest determination of the Indian survey, the height of Mount Everest is 29,141 feet. It is the highest mountain in the world.

The greatest Himalayas present such difficulties that climbers have been compelled to refrain from attempting to reach their greatest heights, as well as from the fact that the effects of altitudes are yet fully understood.

The greatest mountain heights yet reached are 24,000 feet, by the duke of the Abruzzi during his expedition to the western Himalayas, and 24,000 feet by Norwegians on Kebra, one of the mountains near Darjeeling.

Kidding the Doctor.

The doctor was ready to leave, and was congratulating the father on the advent of the new baby, when a burly fellow, went tearing by in hot pursuit of a dog.

"The father blurted out in very undignified English: 'That goat! I shall have to sell him. Doctor, would you like to buy him for your boys?'"

"I don't know," said the doctor. "What do you want for him?"

"Well, how much is your bill?"

"Then you ought to give me sixty for the goat. A full-grown goat ought to be worth more than a kid."

She Answered Her.

An austere woman was lecturing a body of high school girls in a flower room recently on the uselessness and wickedness of the flapper. After she had said that they were not fit to be the mothers of the next generation, she looked at a bobbed-haired little girl who had roared and panted her face rather heavily and demanded, "Young lady, what do you know about babies?"

"For a minute the little flapper looked startled. Then she blurted out a very red, 'Well, lady, she stammered, 'I've stopped believing in the stork.'—Indianapolis News.

"Passion Play" Result of a View.
The Oberammergau "Passion Play" is a dramatic representation of the life of Jesus Christ.

How much by the inhabitants of the little Bavarian village in 1568, with the hope of staying a plague then raging. The original text probably was made by the monks of Ertal, but the parish priests have since gradually revised it. The music was composed by Ruchus Deller in 1814. The play is given by amateurs in a purely recreational spirit, and not for gain. It requires a cast of about seven hundred persons. In 1901 an \$50,000 playhouse was erected especially for the presentation, which is given every ten years. The first performance was given in 1634.

Too Long to Wait.
Mr. Oldsmith—Do you refuse me because I'm too old? I'm practically certain to live 20 years more.

Miss Phillips—Oh, not. You're not too old. You're about 20 years too young.

Unique, as it Were.
"Rhode Island," said Muriel to her father during the course of her study after dinner, "is celebrated for being the only one of the United States that is the smallest."

Unfortunately the athletic hammer throwers of the college track team are not always able to throw forks of hay to the upper lofts of the barn.

Not Pretty Music.
Dorothy, three years old, lived at New Albany. Her father took her to the barber shop to have her hair trimmed; and the electric clippers almost drove the little girl into spasms of fear despite the kind assurances that they would not hurt her. She had a big audience before the task was completed.

Next day Dorothy went to visit a neighbor who lived near the barber shop. Shortly after her arrival she heard music and inquired its location. On being informed that it was at the barber's she replied:

"Well, I don't think his music is pretty."—Indianapolis News.

American Money in Canada.
It is estimated that American investments in Canada for 1920 amounted to \$325,000,000—more than half of the prewar Canadian investment.

Some of the items of investment during the period under review are: Bonds purchased, \$237,000,000; industrial investment, \$50,000,000; western lands purchased, \$7,000,000. It is also estimated that \$30,000,000 of the \$50,000,000 invested in industries went into pulp and paper business.

Immediate Regrets.
"Did you give your wife that lecture on economy you said you were going to?"

"Yes, I did."

"Have any effect?"

"Yes, I'm going to make my last summer's suit do for this summer."—Bryn Mawr.

ONE JOURNAL IN GREENLAND

And the Editor of That One Had to Teach His Subscribers How to Read It.

Journalism in Greenland is in a primitive stage, according to the captain of a British bark. The captain makes frequent voyages to Greenland and is held to be an authority on conditions in that country.

The one editor in Greenland is a Dane named Moeller, who conducts the only newspaper and enjoys the singular distinction of printing the paper for the natives and teaching them to read it.

Mr. Moeller is not only the editor and proprietor; he is the reporter, printer, distributor and business manager, and every two weeks he makes a long journey on skates to dispose of his journal.

Originally it contained only a few crude illustrations, but gradually other matter was introduced, until now it contains articles on the affairs of the day.

This man actually taught his subscribers to read his paper, first introducing words, then sentences, until now his subscribers are able to read articles on any topic he cares to write about.

FORMED NEW VOCAL CORD
Tissues, After Operation, Grew Together, and Voice Is Said to Be Improved.

In three out of four cases in which Dr. H. Burger resected the vocal cords the tissues grew together to form a new vocal cord. He reports by the Netherlands. Theobaldus dieneskunde (Amsterdam) that the more radical the operation on the side wall of the throat the more the new cord approximated normal.

In all these cases the diagnosis of malignant tumor was beyond question, and the operation was done through a slit in the thyroid cartilage. No attempt was made to suture this afterward. The voice is good in all but one, who still is hoarse. The voice is very much better than in other cases in which merely the growth itself was resected and the rest of the vocal cord left. The repair after this is much less perfect. In one of his cases the repair was so perfect that in examining with the laryngoscope a year later there was some doubt as to the operated side.—New York World.

Saw Volcano in Action.
A volcano in action was witnessed about six weeks ago by the captain of the British freighter Bounty, off the West African coast. The skipper of the Bounty was about five miles off shore when he observed smoke pouring high and profusely out of a peak in the distance.

The ship was off the coast of Biafra, near the boundary line between Kamerun and Nigeria. Thinking he might be of assistance in the event of disaster to the villages near the seacoast he went to the aid of the vessel.

Word comes to us of the marriage of Miss Hattie V. Pope and Henry H. Hall, at Los Angeles, Calif., September 1st, 1922.

Mrs. R. M. Hodson and daughter, Alice, of Mazomanie, visited friends in Arena, Sunday.

Mr. and Mrs. Sam Hamilton, Mrs. George Hamilton and daughter, Ruth, spent Saturday at Dodgeville.

Mrs. Ralph Hodson, Mrs. August Salzman, Mrs. Wm. Devore, attended the W. C. T. U. convention at Mineral Point, Wednesday of last week.

Miss Susan Mahbott, of Dodgeville, was the guest of Mrs. T. J. Mahbott, of Dodgeville, last week.

Mr. and Mrs. Tom Pine took their little daughter, Helen, to the Methodist hospital at Madison, where she had her tonsils and adenoids removed, Thursday.

Edgar Billington was taken to St. Mary's hospital, Tuesday, and was operated upon Thursday of last week. Latest reports are that he is improving rapidly.

Mrs. Clayton Walte and two children, of Kibbourn, Mrs. Phillips and daughter, Beatrice, of Endeavor, Ray, Hays, of Rockford, Ill., visited over Sunday with Mrs. and Mrs. Sanford.

Mr. and Mrs. C. J. Chapman and daughter, Jean, of Madison, and Mrs. Joseph Sharratt and family, of Mazomanie, Mr. and Mrs. Ernest Lintner, of Dodgeville, were the guests of the week with Harold Mahbott and family.

The W. C. T. U. will hold their annual picnic at the home of Mrs. T. J. Mahbott, Wednesday afternoon, Sept. 27. Each member is urged to be present.

Metaphysics.

The second great discovery of the Greek thinkers was metaphysics. Now, as our modern effort to reach the highest truth, and secured by others as the highest of all good things, I am inclined to rate it like smoking, as a highly gratifying indulgence to those who like it, and at the same time, as a relatively innocent—Prof. J. H. Robinson, in "Mind in the Making."
