Former Resident Passes Away.

Howard H. Coleman was born in Medford, N. Y., on November 17, 1843, and died at the home of his son, Raymond, in the town of Sigel on Friday, February 23, 1924, being past 80 years of age. In 1867 he was united in marriage at Memphis, N. Y., to Adeline Wilson. To this union two children were born, namely, Adeline Schanel, now of El Monte, Calif., and Raymond, of Sigel.

The subject of this sketch came to Wisconsin in 1869, and located first at Roseland where he lived two years and then moved to Mazomanie where he resided until he went to Wood county with his son some thirteen years ago. Early in life, Mr. Coleman learned the blacksmithing trade and specialized in carriage building until the advent of the factory made buggy. He then turned to carpenter work for several years. Mrs. Coleman preceded him in death some 30 years ago while they lived at Mazomanie. Mr. Coleman was a genial sprightly man, who was well met, and enjoyed a large circle of friends.

The funeral was held from his late home in the town of Sigel with Rev. C. Lepelak officiating. Interment was made in the Reformed church cemetery in Vesper. Thus was brought to a close a long and useful life filled with many joys, adversities and sorrows. While it is the common end of man at a ripe old age, yet his passing leaves many pleasant memories worthy of emulation.

Hook and Line Fishing.

1. A close season is established for all varieties of game fish extending from the 1st day of March to the 31st day of May (except as may be otherwise provided) and no person shall take, catch, kill or fish for game fish of any variety during the close season, nor in the open season in excess of the daily bag limit.

2. The open season for large and small-mouthed black bass, (also known as Oswego, green, yellow and pink-eyed bass) is from June 15th to December 31st. The bag limit is 10 per day, except in Green Lake county, where the season is from July 1st to December 31st.

3. The open season for trout of any variety is from May 1st to August 31st, and the bag limit is 25 per day.

4. There is a closed season on all varieties of sturgeon and the spaw, and eggs in all waters of the state all year round.

5. The open season in inland waters on all other varieties of game fish is from June 1st to March 31st. There is no size limit on fish. The daily bag limit shall be as follows: Muskellunge 1, pike 10, pickerel 15, rock bass 30, white bass 50, perch in Lake Koshkonong 25, bullhead 30 pounds, catfish 10, (in the Mississippi river there is no bag limit on bullhead, or catfish, and in Lakes Pepin and St. Croix, no bag limit on bullhead.) In Lake Winnebago, there is a daily bag limit of 30 sunfish, rock bass, herring, silver or calico bass, bluegill and crappie or a mixed bag of 30 of such fish.

6. In Lake Wisconsin in Columbia and Sauk counties there is no close season for hook and line fishing for perch, bullhead, bluegill, sunfish or crappie.

"Tough fish" includes hickelback sturgeon, weighing more than one pound dressed, spoonbill sturgeon over thirty inches in length, catfish over twenty inches in length, and any size of chub, dace, suckers, carp, red horse, sheepshead, cillipout, dogfish, garfish and buffalo.

"Game fish" includes bass of all varieties, muskellunge, pike, pickerel, bullheads, 10" or bluegill, sunfish, crappie, rock bass, all varieties of trout caught in inland waters, whitefish, herring or cisco caught in inland waters, and all fish not mentioned above as rough fish.

"Fin" Coughs Hang On.

Some victims of the "fin" never fully recover the health of the lungs and coughs that "hang on" are the coughs that threaten. Chamberlain's Cough Remedy puts a soothing, healing coating on the inflamed surface, relieves tightness and soreness, raises phlegm easily. Good for bronchial coughs, and night coughs, too.

Varnish that Protects the Floor it Beautifies

Devon's need the protection of a varnish that will absorb the shocks of wear without breaking, without loss of beauty and without exposing the surface underneath to the destructive action of dirt and moisture.

Devon's Floor Finish Varnish breathes out moisture and develops a firm, elastic body with a brilliant, durable gloss.

It is extremely tough and thus resists the surface continuous and sudden, preventing an air-tight seal against dust and moisture that would otherwise destroy the wood underneath.

If you have a single floor that looks character and beauty don't let it go another day without Devon's Floor Finish Varnish. Pale, clear, translucent, it dries quickly with a glass-like smoothness.

Nationwide Ownership

Nowhere in the scope of its service, the Bell System is nationwide also in the distribution of its securities.

In street car, at church, at theatre, at grocery store counter you rub elbows with its owners.

They differ as widely in occupation and in wealth as do the more than 14,000,000 subscribers served by the system. But as Bell subscribers are united by a common means of inter-communication, so Bell owners are united by a common characteristic—thrift.

Other forms of thrift have very properly attracted the savings of thousands of Americans, but none of them more truly illustrates an investment democracy and none more directly serves the public.

Two hundred and seventy thousand people have made common property of their savings in order to maintain this great national public utility.

Their dollars serve them and serve the nation.

On the first Tuesday in April, which this year is the first day of April, the voters of Mt. Horeb will have the opportunity of voting on the question of, shall the village of Mt. Horeb purchase the partly completed building on Main street known as a Lumber building, and complete it as a municipal building, housing a hall, movie show, rest rooms, public toilet, library and fall festival exhibit rooms? The necessary bond issue would be \$20,000.00—Times.

It is estimated the loss on the recent Sarrington mill fire at Delton was between \$30,000 and \$40,000. The chemical apparatus from Kilbourn saved a corner where the office was located. A mill on the same spot was burned in 1919 and a new one erected the following year—Sank County News.

The public hearing ordered at Lone Rock by the state highway commission on the appeal of the Richland county board was well attended and resulted in a successful issue of a matter long agitating three counties. The high water mark on the main channel marks the extreme length of the bridge, which it is estimated will cost over \$130,000. The state pays half. Richland, Iowa and Sank counties are obliged to pay the other half, according to the amount of benefit received. Sank county now has two bridges and its share will be less than the amount the other two counties must provide. The means will be provided through county board action and actual work on the bridge will begin in 1925.

Golden Jubilee Banquet.

On Thursday, March 13, 1924, at 5:30 p. m., a most helpful meeting was held in the Methodist church by the Woman's Christian Temperance Union. Mrs. Annie W. Warren, State vice president, was with us and gave us splendid suggestions, also, she commended us upon the work we are doing.

At six o'clock our Golden Jubilee banquet was held in the church dining room where covers were laid for members and friends to the number of sixty. The room and tables were beautifully decorated in gold and with red and white. A bountiful chicken dinner was splendidly served by several young ladies.

Mrs. Percy Reed, president, presided as toast mistress. Rev. Prussia gave first toast "Fifty Years Back." P. F. Stickney gave an interesting toast on "Am I My Brother's Keeper?" and Mrs. G. A. Shields gave a snappy toast on "Cleaning Up Politics." Mrs. Warren gave an inspiring and encouraging address, reviewing the past fifty years, from her most optimistic viewpoint. A duet, "It's in the Constitution and It's There to Stay," was sung by Mrs. Zehlsky, and Miss Alice Hodgson, the company joining in the refrain. They also sang "The Jubilee Song." The banquet hour closed by giving Mrs. Warren the White Ribbon Salute, after which all joined in the slogan "Write It On The Sky—Wisconsin Dry." Alice E. Hodgson, Publicity Suite.

Much so-called stomach trouble is really chronic appendicitis. This can often be relieved by simple glycerine, but when better, as mixed in Adulterated. Most medicines act only on the liver. BANKER-FARMER MEETING NOTES

A conference of bankers and farmers of the Fifth Federal Reserve District held recently at Raleigh, North Carolina, under the auspices of the American Bankers Association Agricultural Commission, adopted the following principles:

"In order to encourage and promote a safe, sane and constructive system of farm practices, the Banker and Farmer Conference of the Fifth Federal Reserve District would make the following recommendations with reference to the activities of farmers and bankers on duty to concentrate efforts during the coming year:

"1. Encouragement of loans by bankers to bright and deserving young men and young women who wish to go to college to study agriculture and home economics.

"2. Promote in a rational and conservative way the economic increase in the production of the soil of the district so that a larger unit of crop production may be secured. Small unit yields of necessity are expensive while modernized large yields of crops are generally the cheapest. Larger yields per acre result in a reduction in the unit of acreage, when advisable, should and usually will be more profitable and less wasteful in the production of an over-production.

"3. Encouragement of a proper system of diversified farming in which farmers will grow as far as practical, all the food and feed crops necessary for feeding the family and livestock of the farm and will modernize the farm, the regulate kinds and amounts of livestock best to meet the economic needs of farming.

"4. To formulate and put in motion definite plans for carrying out this program. It is urged that the Agricultural College of the District put a county agent in every county and that a banker-farmer conference be called in each county in the fall of the agricultural college of each State.

NATION'S SAVINGS PLANT TRIPLED

Savings banks and banks having distinct savings departments, not counting branches have grown in numbers in the United States from 1,375 in 1913 to 16,709 in 1923 or an increase of about 121 per cent in ten years, says the Savings Bank Division of the American Bankers Association. Savings deposits, it is pointed out, now comprise about one-half of all bank deposits of every description.

Stout, But Not "Heavy."

Stout persons say that Chamberlain's Tablets have no equal for bringing about a light free condition of the body. No bloating, no gassy pains, biliousness nor constipation when they are used. Small cost, only 25c.

Some 35,000 concrete seats are now available in the Camp Randall stadium of the University of Wisconsin.

A mark in this space indicates that your subscription to the Sickle has expired. Prompt remittance for renewal will be greatly appreciated, and will insure continued delivery. The Sickle is payable in advance at \$2.00 per year.

BILL BOOSTER SAYS

"BEING A BOOSTER, I BELIEVE IN ADVERTISING TO PEP UP BUSINESS. NO FARMER COULD AFFORD TO SLEEP IN THE PASTURE AND EXPECT THE COWS TO BACK UP TO BE MILKED, AND YET MANY MERCHANTS EXPECT TRADE TO COME TO THEM, WHEN THEY DO NOTHING TO ATTRACT IT."
