### Nuisance Tax Lifted.

Under the new law just gone into effect, the so called nuisance taxes are abolished entirely while in the field of miscellaneous taxes generally material reductions take effect. Included among the old law assessments which are eliminated outright are those on telephone and telegraph messages and the stamp tax of two cents per \$100 drafts, checks and promissory notes. The tax on theatre admissions of one cent for each ten cents charged is changed to apply only admissions in excess of fifty cents.

The 5 per cent tax on jewelry articles including musical instruments so classed will apply only on those exceeding \$50 in value and watches only of a value in excess of \$20.

A snake would starve to death rather than eat anything but living prey.

## What Will It Be?

### Letter From Miss Laws.

Bath Hotel, Glasgow, Scotland, June 17, 1924.

Dear Mr. Swan:

I wish I could flatter myself that someone opened the Sickle the morning of June 13 with the hope of finding therein a letter from one enroute to Europe from Mazomanie, but I don't. We have had a perfectly wonderful time from the moment of boarding the train at Mazomanie until the present. Only one stormy day aboard the boat and that was not bad. Excellent board and service aboard. Not a sea-sick moment. After the ocean voyage, the sight of the coast of Ireland was indeed a welcome one. A mere pen picture cannot do justice to the beauty of that wild, rocky coast, so different from anything I had ever seen before, that at times, I held my breath in fear that the picturesque scene would vanish. One school of porpoises appeared in the wake of the Cameronia and sported near the surface for a few moments. These are the only large fish we saw. The trip down the coast of Scotland after the stop at Londonderry, Northern Ireland, and up the Clyde was so beautiful that every moment spent away from the view was wasted, even for meals. This trip was made Sunday, June 15. We docked in Glasgow at 12 o'clock midnight and it was still daylight for the sun did not set until about eleven o'clock. At this time of year there is

no night for we are near the "Land of the Midnight Sun." Mrs. Mueller and myself are pleasantly located at the Bath Hotel, which contains furniture which would drive an American antique fiend wild with delight. Solid mahogany pieces hundreds of years old. The dining room wainscoted in mahogany with chairs and tables of the same wood. This is the month of weddings here in Scotland and it is a very common custom to hold a wedding in a hotel. There were three days in this hotel last week, and there will be one today at which we are to be allowed to peep over the banisters. The people are charming and are certainly giving the strangers within their gates a royal welcome. The Convention opens Wednesday evening with a general session at St. Andrew's Hall.

There is so much that I found intensely interesting and I do hope that out of my store of wealth I have chosen some pictures which will interest the dear friends at home to whom we both send greetings.

Truly yours,

Genie A. Laws.

### Safeguarding The Public.

The valuable service rendered by the National Board of Fire Underwriters through its arson department is about as little understood as the work being done by the United States Secret Service.

In its annual report just published, special agents of the board are shown to have investigated, during the past year, 642 losses of suspicious or incendiary origin.

During 1923 data was compiled concerning arrest and conviction for arson of about 240 persons and complete information was accumulated respecting more than 3,000 cases of arson successfully brought to trial by local authorities during the past six years.

Of 412 persons arrested last year on arson charges, 193 were convicted. This work for the protection of the public is carried on quietly and without any great hurrah but the criminal whose mania is burning down buildings finds a hard task master when he becomes entangled with the men investigators of the National Board and the program of insurance companies for reducing the fire hazard in American homes and business life.

### Celebrate At Waukegan.

Big Fourth of July celebration at Waukegan given by the Men's Club for the benefit of a community hall. Monster street parade, patriotic services, base ball between Waukegan and Speth, big display fireworks in evening, 20 races and field events, outdoor dancing day and night, musical Waukegan Concert Band, A Ford auto for one dollar.

The Waukegan Men's Club are making every effort to make this celebration one of the best. Come to Waukegan to spend the Fourth.

### Father Sage Says:

"It seems that even a layman engaged in a trade or profession a little different from the common run looks on folks not familiar with his particular line as 'laymen,' and speaks of them as such. Well, when you come to figure it all out, everybody must be a layman to somebody; else, so it ill behoves any man, no matter how skilled he may be in his own particular line, to hold two 'matted opinions' of himself."

### Frightening at Night.

Very in the night, gripping pains in the vitals, cramps, weakening diarrhoea, whether child or adult, there is immediate comfort and ease from pain in Chamberlain's Colic and Diarrhoea Remedy. Pays to keep it always on hand.

## BLACK EARTH

Mrs. Olaf Hagene went to Chicago, Monday.

Ray Haseltine drove to Plattville, Thursday.

Miss Elizabeth Ballies, of Minnig, is visiting friends here.

Mrs. Sidney Langman, of Ariva, was a caller in the village this week.

Mrs. M. Sawyer, of Worcester, Mass., called on Louise McKenzie, Saturday.

Mr. and Mrs. Fred Thacher, of McFarland, were guests of the Grant Parker family this week.

Mr. and Mrs. J. B. McKenzie and son, Donald, visited relatives here Sunday. Miss Louise McKenzie returned to North Lake with them for a couple weeks' visit.

John Inlay is home from the hospital at Madison, where he has been for treatment for paralysis, he having lost the use of the lower part of his waist. He is now able to walk about and hopes to be in his normal condition soon.

## Why Wisconsin Is A Great State.

"Wisconsin produces more cheese and cans more green peas than all other states combined," said Fred R. Zimmerman, Secretary of State, in an address to the Optimists Club at Madison last Monday. Among other interesting facts about Wisconsin, he brought out the following:

Wisconsin produces nearly one-fourth of the country's entire output of dairy products.

Wisconsin produces 30 per cent of the condensed milk and 11 per cent of the butter of the United States.

Wisconsin produces three times as much cheese as the other forty-seven states combined.

Wisconsin produces approximately nine billion pounds, or four and a half million tons of milk annually.

Wisconsin produces and can more peas than all other states combined.

"Wisconsin Early June Peas" are the standard of excellence throughout the Western World.

Wisconsin ranks first in the production of cigar leaf tobacco, hemp, shag and pedigreed seed grain.

Wisconsin is second in the production of potatoes, garden vegetables, clover and hay.

Wisconsin manufactures some part of everything that is manufactured.

Wisconsin ranks first in the production of aluminum goods, concrete mixers, planing-mill machinery, bottling machinery and wooden crates, boxes, crates and baskets.

Wisconsin is second in the manufacture of agricultural implements, dairy machinery, wood-working machinery, weavers and engines.

## Radio Large Consumer Of Copper.

A survey just completed shows that the radio industry, to date, has consumed approximately 5,000,000 pounds of copper and other metals.

There are now 2,500,000 radio sets in use. It is safe to say there will be not less than 15,000,000 in five years and the radio industry may be expected to use 30,000,000 pounds of copper during that time. This will be a direct help to the American mining industry.

The Radio Corporation of America has pioneered the way in making it possible for radio to be as common in the home as the sewing machine or the phonograph. It was this organization which saved the U. S. from foreign domination in the radio field.

## "LIBRETTO"

The small paper-bound volume which contains the text and words of an opera or extended musical composition is known as the "libretto." This word is a diminutive of the Latin word "liber," which means book. Familiarity with the "libretto" usually adds to the enjoyment of the opera. The pronunciation of it is "lib-er-eto," with the accent on the second syllable.

# STANDING BY PRINCIPLES

By THOMAS A. CLARK  
Dean of Men, University of Illinois.

It's a test of character for a young fellow to stand by his principles especially if they are of that old-fashioned kind that have respect for self-control and religion. Worthington found it so when he went to work for the first time in the city. He had come from the country and he was still old-fashioned in some ways. It took some time to say his prayers while some unregenerate sinners giggled, or to start off for church or Sunday school, while the other fellows were either in bed or sitting around in their pajamas reading the Sunday paper. It wasn't easy at all to admit that he didn't smoke or to refuse approval when a smart young clerk cracked a vulgar joke, and, as I said, it was a test of character and a test which too many flunk.

Every one admires the man who stands by his principles even when he is loath to admit it. If he laughs or makes light of your respect for religion or your regard for a clean tongue and a clean life, it is merely to bolster his own weakness or to test your sincerity. He respects you if you stand and displace your weakness if you lack the courage of your convictions.

When Jimmy Hunter "got religion" during one of the evangelistic campaigns conducted at his college years ago, he knew perfectly well that he'd have to say his prayers openly. When he thought of what "Butch" Wheeler, big, blasphemous and agnostic, would say and do, his heart sank, but he stood by his principles and knelt down by the bed in the dormitory, his body trembling and his lips dumb. Some-thing thundered out. "Be quiet, Jimmy's going what he thinks is right, and that some of us, perhaps would be better off if we did. If any man interferes, he'll wish he hadn't." And quiet reigned.

## BASE BALL

At the special meeting of the Ball Club called for Monday evening, new officers were elected and a Board of Directors appointed.

President, A. T. Moe; Secretary and Treasurer, Eugene Beckmann; Manager, Russell Greening; Board of Directors, G. H. E. Trager, M. J. Zane, Chas. Davis, Paul Greening, Chas. Morris.

The Board of Directors are to settle all disputes arising during the season and decide on salaries, players, and anything pertaining to matters of the club outside of duties of the president and manager.

It was also decided to form an association, everyone who has or desires to donate a dollar or more with the treasurer is a member of the association. Said association to be entitled to a vote on any matter which might be decided satisfactorily by the board of directors. A typewriter list is in possession of the secretary at all times for reference or inspection.

Arrangements have been started for a ball day to be held here. Also the Majestic Theatre has offered us a Saturday night for a benefit to the Club. More particulars will be given later. Watch for them and boost.

## Modern Blouse Features Fascinating Collar Effects

The modern blouse specializes in novelty collar effects. Very unique in the collar and rever combination designed in this blouse. The yoke and long sleeves are also distinguishing characteristics of the newer blouse modes. The play-plaid plaid panels inset at each side of the front give a dressy aspect to this model of dress. Crepe, which is developed in that high-colored color, powder blue. The blouse worn with side-plaid skirt is a favored ensemble this season.

## Father Sage Says

"When a new married couple live their first baby for about six months, they generally come to this conclusion: that they wouldn't send the kid for a million dollars, and wouldn't give five cents for another one like it."

Good breath, clear skin, attractive color, bright eyes, quick wit, belong to those who keep themselves fit, and free from harmful gassy stomach troubles, torpid liver and constive bowels, with Chamberlain's Tablets. They stimulate the entire intestinal tract to healthy activity and keep it so. Only 25 cents.

—The Federal tax on long distance telephone messages will be discontinued at midnight, July 2, 1924. Manager, Frank Lashway, of the Wisconsin Telephone Company called attention today to the fact that this discontinuation of the telephone tax was provided for in the amended Federal Tax bill recently passed by Congress and signed by the President.

—The Federal Tax on toll calls in Wisconsin during 1923, it is estimated, amounted to over \$400,000.00. The Federal Tax on long distance telephone messages amounted to five cents on a call for which from four to five cents was charged and ten cents on a call the cost of which was over fifty cents. "The repeal of this tax will effect a considerable and welcome saving to local users of the long distance telephone lines," said Mr. Lashway.

—School Meeting. Notice is hereby given that the Annual School Meeting for District No. 2, Joint, will be held at the School House in said district, in the Village of Mazomanie, Dane county, Wis., on Monday, July 7, at 8 o'clock p. m. Elizabeth Murphy, District Clerk.

—Notice. This notice is for notice on anybody's credit, but no charge against anybody. We have become a great burden to us. We can not do business with a large part of our working capital on our books. We therefore give notice that from now on the policy of this firm will be only small accounts and short settlements. All who know themselves indebted to us will please call to make a settlement.

### OUR SALE OF "HUMMING BIRD" HOSIERY FOR WOMEN

increases day by day. Madison people buy it of us. We asked one woman why she did not buy it in Madison. She said: "They don't sell it." I asked my uncle who is in business there why not. He told me that the "Humming Bird" stocking was as good as any \$2.00 stocking, but that The Humming Bird Co. had established a retail price of \$1.50 which did not give him enough profit. We are satisfied with quick sales and small profits. ## FROM OUR EXCHANGE

MT. MORRI—A surprise party was tendered Mr. and Mrs. John P. Williamson of Pine Bluff Monday night of last week, it being their wedding anniversary.

A very enjoyable occasion last week was the celebration of the Golden wedding anniversary of our highly respected citizens, Mr. and Mrs. Thord Swenson, on Saturday, June 28, 1924.

The West End Transportation Company has improved its service between Madison and Dodgeville by the addition, to the buses already in use, of a new 28 passenger "Vagol" of California type, "Safety Coach."

On Monday evening at Blue Mounds Earl Jewell, weight below 140 pounds and three Louis Carter, weight below 140 pounds, of Lone Rock, fell the first fall in 8 minutes and second fall in 4 minutes.

Ole State was busy a few days last week drilling the holes and installing the sockets to hold the flags which have been purchased by our business men to decorate Main Street on National Holidays. The holes have been drilled at regular intervals and when Old Glory is displayed throughout the entire business section it will certainly be a patriotic appearing street.—Times.

RICHLAND CENTER—Virgil Dodge of Viola, who was brought here last week on a charge of driving while intoxicated, plead guilty and was fined \$25 and costs.

Clifford Anderson paid a fine of \$25

and costs for driving his car while intoxicated Sunday night.

A. G. Harber was brought here late last week from Aberdeen, S. D., on a charge of wife desertion. He had a preliminary hearing on Monday morning and was bound to county court on bail.

Mrs. F. V. Smith and Mrs. Louis Trager had as their guests last week their aunt and cousin, Mrs. Ryan James and Mrs. Roy Chatfield, of Macomah, and their cousin, Mrs. Fred Gerber, and her daughter, Mildred, of Monroe, Washington.

The West Willow store, owned by the widow of the late Isaac Mead, was destroyed by fire with all its contents Wednesday of last week. The origin of the blaze is unknown. This is the fourth fire that has occurred on that location within the past few years.

Two cheese factories and a dwelling house having gone up in flames at that spot with no clear as to the cause of the fire.

A collision between a herd of cattle and a heavy car on the western grade of the Bashford hill Thursday resulted disastrously for both the car and the cattle. Clinton Cook, of the west branch, Mill Creek, had sold several head of pure bred stock to parties near Locanville and was on the way to deliver them when he met Irvin Carter, garage man, of Boon, bound him from behind. Carter was coasting down the long grade and did not see the cattle until too late to avoid the crash. Two cattle were killed outright, another died from injuries and others were badly hurt. Mr. Carter's car was badly wrecked in the smash.—Democrat.

SPRING GREEN—Mr. and Mrs. B. McNeill called on relatives at Macomah Wednesday.

Born to Mr. and Mrs. George Lockman, town of Arena, on Sunday, June 22nd, a daughter.

L. C. Trapper left for Eau Claire Tuesday to attend the Beaver convention as a delegate from Spring Green colony.

Franklin Leander Tennant, son of Cyrus and Rosina Tennant, was born May 3rd, 1922, in New York state, and died June 21, 1924, at his home in Spring Green, after a lingering illness, at the age of seventy-two years.—Home News.

PRAIRIE DU SAC—Rev. O. C. Bilese and family left Monday morning for an automobile tour at Rochelle and Mendota, Illinois, to visit relatives.

"Keep to the Right" markers are being placed on Water street at the intersections of Prairie, Galea and Washington streets.

The Fourth of July celebration at Prairie du Sac this year is under the auspices of the local Royal Neighbor camp and the Knights of Pythians lodge.

A number of large electric lights have been installed in Marion park for the use of evening dances and for the accommodation of the tourists who stop there for the night.

Carol Mae, one-month old daughter of Mr. and Mrs. Carl Wagner of this city, passed away Saturday morning at six o'clock. Toxic eczema with a complication of intestinal indigestion

with which the infant had been troubled since birth, was the cause of its demise.

Pearl Lucille Ryan, daughter of Mr. and Mrs. E. J. Ryan, of West Point, and Anton J. Gaffney were married at the St. Aloysius Catholic church in Sauk City, Tuesday, June 24, 1924.

The iron ore at the Cahoon mine near Harbison is to be shipped soon, according to reports. Several of the former roundhouse employees are engaged in preparing the machinery preparatory to activity and the track leading from the mine to the railroad is to be put in repair. It is estimated that about six months will be required in which to move the immense pile of ore which was due months ago.—The Sauk County News.

## Sidney Herschel Small

He went to San Francisco with his parents about twenty-five years ago. The family business being connected with the Orient, during the last ten years he has alternated considerably between California and Asia.

Coming from a race in which the art instinct predominated, it was natural that he should have it in some form. In his case it was the writing form. He is making a name for himself with Oriental tales—in which Japanese are frequently but not always "tricky." Chinese not always "wily" and East Indians not always "trusty" nor "incurable" but this does not prevent him from riveting his subjects with their natural poetry, romance and charm. In his latest novel, "The Lord of Thunder Gate," an American man and woman are deeply involved in a Japanese intrigue. Read it serially in this paper.

College Saves Farmers \$775,000 On Explosives.

At least \$775,000 has been saved for Badger farmers by their College of Agriculture.

If the explosive power of the more

than 5,000,000 pounds of sodaford ordered the past year were purchased as commercial dynamite it would have cost the farmers at least that much, declares John Stenbich, in charge of land clearing operations.

All but three of the 71 counties shared in the saving, he announces. Marathon county is using 351,000 pounds, the largest amount of any single county. From 50 to 60 per cent of Douglas county farmers helped their county to second place with \$17,000 pounds.

Grant county led the southern counties with 94,000 pounds ordered, but is closely pressed by Walworth with 67,800 pounds. In Manitowish county in eastern Wisconsin more than 60,000 pounds have been used.

1,320,000 Pints of "Bonded" For Badger Throats.

Federal Prohibition Director Clark M. Perry, whose territory includes all Wisconsin, yesterday revealed interesting data concerning the dispensation of precisely 1,320,000 pints bonded liquor available for "medical purposes" in the district.

The liquor truck will fetch \$7,920,000 at \$6 a pint, the regular drug store price, for what was once half a dollar.

About 1500 Graduates Make Largest Class

A graduating class larger than any that has preceded it marched in the Commencement parade at the University of Wisconsin last Monday.

With the 1,245 degrees and diplomas of various grades that were conferred last week and the 340 degrees, diplomas, and certificates that have been conferred during the year since last June, the total number of graduates for the year is 1,584.

Comparison with recent years shows 1,245 graduates this June, 1,229 last June, 1,244 the year before, and 969 three years ago. The 1,584 graduates for this entire year are to be compared with 1,295 last year, 1,297 the year before, and 1,171 three years ago.

Of the 1,584 degrees, diplomas, and certificates granted last week and during the entire year since last Commencement, 1,439 were bachelor's or other first degrees, 291 were master's or other second degrees, 78 were doctor's or other advanced degrees, 4 were honorary degrees, and 70 were short course certificates.

Some 726 women were included among the 1,584 graduates, 618 of them receiving their degrees last week. Exactly 106 women received higher degrees, including 3 doctor's degrees.

The 7,833 students in the University of Wisconsin this year included 4,715 men and 2,918 women.

## Catarh Can Be Cured

Catarh is a local disease, greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work.

## THE FARMER GOES TO MARKET

## TOTAL VALUE OF FARM PRODUCTS BY YEARS

1914	\$3,895,000,000	1919	\$3,895,000,000
1915	\$3,895,000,000	1920	\$3,895,000,000
1916	\$3,895,000,000	1921	\$3,895,000,000
1917	\$3,895,000,000	1922	\$3,895,000,000
1918	\$3,895,000,000	1923	\$3,895,000,000

During 1923 the American farmer carried over \$1,000,000,000 worth of grains and live stock, dairy and poultry products, fruits and vegetables from the farm to the market. The total value of the nation's farm output was \$146,000,000,000, or more than the estimated value for 1922, and over \$6,105,000,000 more than the value of the farm products in 1914.

In 1921 and 1922 the value of farm products was lower than any year since 1916, when the total was \$13,400,000,000. With the entrance of the United States into the World war, prices for farm crops almost doubled in value. In 1917 the total value of farm products was \$19,331,000,000, an increase of \$5,931,000,000 over the previous year. In 1918 the value had reached \$22,480,000,000 and in 1919 it was estimated at \$30,000,000,000. In 1920 the total value of farm products decreased in the one year more than \$5,420,000,000. In 1921 there was a still greater reduction, the total value having dropped to \$12,400,000,000, the lowest since 1915. Since 1921 values have been working their way back to normal.

Of this year's crop more than \$2,000,000,000 worth were marketed by the farmer's own business organizations at the actual cost of handling. Reports from 2,800 grain co-operatives show business totaling \$400,000,000. 1,841 dairy products organizations did a business of \$300,000,000. 1,182 live stock shipping associations, \$280,000,000; 75 cotton co-operatives, \$100,000,000 and 14 tobacco organizations, \$182,000,000. Only \$315 of the 10,300 organizations have reported, of which 93 per cent were primarily engaged in selling farm products.

## Important Facts

Those who demand radical reductions in rates completely ignore the factors that keep rates up—the high cost of all items of operating expenses, of equipment and facilities and of taxes.

Furnishing transportation costs the Milwaukee Road twice as much as in 1913—but its average freight rate is only 35% above 1913.

Of each dollar received last year the Milwaukee Railroad retained 88 cents for wages, supplies, taxes and rents. The remaining 12 cents was barely enough to meet fixed charges—no dividends could be paid.

Under the Transportation Act a "fair return" is permitted—not guaranteed—but the railroads have failed to earn this return so far by over One Billion Dollars.

As the Transportation Act does not guarantee but instead limits the earnings of railroads, the repeal of any portion of that Act could not be expected to bring about reduced rates.

Rate reductions made since 1921 cost the railroads in 1923 about \$650,000,000. This proves that the Interstate Commerce Commission has power to lower rates without change in the Transportation Act.

Under Government Ownership the public would lose the Million Dollars a Day Taxes now received from the railroads and in addition they would have to take interest on tax-exempt Government bonds issued to take over the railroads.
