WANT A SKATE MEET?

Madison ice skaters are seeking dates for competition with any amateur teams in the state, also will be glad to show their wares in exhibition stunts in any town which boasts of an ice rink. The writer wishes to commence negotiations with reliable parties who would be interested in staging an ice meet at Mazomanie this coming season.

Your mill pond would be an ideal place for a Sunday afternoon attraction, and large enough. Mazomanie has a few skaters, but undoubtedly could not cope with Madison, but we could engage in a series of events amongst ourselves or any other teams you might book. What a fine advertisement for the town and a good boost for the sport itself to introduce an innovation of this nature.

I wish to improve the expense involved would be undoubtedly less than \$25.00. We could defray our own transportation, while Mazomanie could furnish us with one meal and the prizes. This proposition seems fair enough and ought to appeal to the sport loving element of Mazomanie. A skating meet, as something different, could be put across with a bang if the right scores become interested. Please mail me a copy of your paper as evidence that you have done your bit in the boosting of winter's most healthful pastime.

Hoping the matter materializes in the near future, I remain,

Yours truly, Walter Meller.

301 S. Pinckney St., Madison.

MR. ATWATER KENT SAID:

Ever since I have been interested in Radio, this idea has been uppermost in my mind—Compactness with Simplicity of Operation.

Our ability to make powerful sets in compact cabinets is now a well established fact. Hundreds of thousands of satisfied owners of our Model 20 Compact testify to that.

And now the second part of my ideal has been accomplished—in our ONE Dial Receiving Sets. They are so simple that a child can operate them. Stations can be brought in perfectly with the use of but one hand and without looking at the dial!

Yet nothing has been sacrificed to gain this simplicity of operation or smallness in size. Our present Models are more powerful, more selective and have better tone qualities than any Receiving Sets we have ever made.

It has always been our policy to avoid novelties and to give the public only those things in Radio that will stand the test of time. The Receiving Sets and Radio Speakers listed in this catalog are in complete accord with this policy.

I am told that we are too conservative in the claims we make in our advertising. I feel sure that our friends, both old and new, will continue to find that our radio instruments will do more than we say they will.

CHILDREN IMMUNIZED.

Approximately 1,000 children have been immunized against diphtheria by the physicians in Madison since the first case was reported the first of September. Of the twelve cases so far reported, none have been fatal.

CONFESSIONS TO ROBBERIES.

Marvin Korber, 23, of Middleton, is under arrest in a South Dakota jail and has confessed to being the man who last spring and summer committed a series of highway robberies on the Madison-Middleton and other roads and to a number of robberies in Belmont, Wis. He is now being held by the federal authorities for transporting a stolen automobile from one state to another in violation of the Dyer act. Korber worked by holding up people who were parked along the road, taking their money and jewelry, and driving off with the car, which he later abandoned. He admitted breaking into the Farmers' State Bank at Belmont, where he stole several revolvers.

YOU PAY IT, JUST THE SAME.

Wisconsin will collect no state tax on real and personal property for state purposes in 1927. Gov. Blaine announced Tuesday. The state taxes, 2.5 mill for the university, 1.6 mill for normal schools, and 7.50 mill for the common schools, for 1927, amount to \$6,616,750, and this will be remitted. The reduction is brought about by applying to the payment of the state tax the state's share of the income tax and approximately \$2,000,000 of an available surplus in the treasury as of December 31, 1926.

When Your Car Was New

The valves in the motor were well fitted—well seated. This was done at the factory. But after you have driven your car a few hundred miles the valves undergo a change due to the extreme heat to which they are subjected, by reason of the almost continuous explosions of gasoline in the explosion chamber. This heat treatment they receive changes their shape. The valves become warped, permitting compression to go by. They become "set" in the new form the heat has given them and the heat will not change them again. However, continuous use will wear them out of true. When this occurs, it is absolutely necessary to refit and reset the valves, in order to have a smooth running, smooth working motor, such as you would like to have in your own car.

Knowing the importance of perfect seating valves in a motor, we use a KWIK-WAY VALVE FACING MACHINE and KWIK-WAY Resetting Tools which, due to their extreme accuracy will true up the valves and valve seats in the motor, so that they will be better than when they were new, and you will get more mileage from your gasoline.

Most shops use grinding compound, which does not true up a warped or worn valve, or a worn valve seat and this means that you are paying out your money for results that you are not getting.

We will be pleased to show you this new equipment and talk it over with you.

Yours for real service,

Our friend, Daniel Lynch, said that he knew a man in Ireland who wished to remember a friend with a birthday gift. After thinking a long time about it, he sent him some homing pigeons.

The logic of his shrewd reasoning was based on the fact that his investment would return to him.

When we heard Mr. Lynch tell this story we thought that is just the way we figure. We figure that when we turn out a satisfied customer it's an investment that is going to return to us. So we get our pigeons back. And they do come back; some of them for the last forty years.

Yes, we are going to tell you about our new Overcoats again. We are going to keep pounding the cannon until you do come, for we know that when you see them you'll buy. They are made of corking good materials, and are tailored up to a high standard at every point. \$10.00 to \$30.00.

If you spend much time out of doors in the winter, you'll want one of our wonderful sheep-lined coats. You'll wonder how you got along without one. They are cold-proof, rain-proof, wind-proof garments. They are indeed Butz Brothers values that can not be duplicated elsewhere. We have them for boys, too.

Doctors get stumped at times. Some of them will not admit it, but those who do call in a specialist for consultation. So it is with our business. If you are hard to fit, or if you don't seem to find what you want, just call on us for consultation, advice and service.

MAZOMANIE, WIS., OCT. 22, 1926.

At The Majestic Theater.

Saturday. "A film of beautiful women, of intoxicating Viennese waltzes, Viennese spirit, Viennese gaiety—a film that has assembled the best artists of the German film industry in one production—a film for which America may well envy us is 'The Waltz Dream'." The brilliantly produced 'Variety' is overshadowed by Ludwig Berger's new film, a light, playful production with which he reaches the very heart of his audience. He has created a new type of film, creating a combination of the finest, high-class comedy with the jovial, carefree spirit of the operetta. No film has enjoyed a success like this for some time. The audience applauded again and again.—B. Z. AMERZ, Berlin.

Sunday. "Bigger Than Barnum's." F. R. O.'s record circus picture, made a number of records in its production and in many ways is the most outstanding film of the season. It is not only a picture of the circus, but perhaps the most notable feature is the absolutely vivid and authentic circus atmosphere. The credit for this largely goes to two men, Jerry Gamble and Harry Bayfield, both old-time circus performers, who scoured southern California for the most noted clowns and acrobats in the profession, and succeeded in obtaining the services of all the real experts available. The list of names includes the veterans of high renown in the world of Big Top. Not an inexperienced clown was included in the cast, and the result is shown in the remarkable fidelity to genuine circus atmosphere that abounds in the picture.

Tuesday. "Better by far, than ten evil men escape than that one innocent man die for another's crime. That is the foreword of 'The Man in the Shadow,' a tense, thrilling melodrama which comes to the Majestic Theatre on Tuesday. The play depicts the cross which are caused by sentencing an innocent man on circumstantial evidence. In the cast are such well-known players as Myrtle Stedman, David Torrence, Joseph Bonanni, Mary McAllister, Arthur Rankin, Margaret Fielding, Edward Cowen and John T. Dwyer.

Wednesday. "Make it greater even than 'The Iron Horse'—if you can," said William Fox to John Ford, the noted director. And with that admission in mind—Mr. Ford took 15,000 people and went to the Teton country of Wyoming, built a shack and tent city in exact reproduction of the town of Custer in 1877 and began the tremendous task of picturing the thrilling motion picture story that will come forth under the intriguing title,

"Bad Men." In this mighty cast there were two regiments of U. S. cavalry, 600 Indians and laborers, 600 oxen, 1,000 cattle and an almost uncountable number of horses and wagons, for the story deals with the rush to acquire homes and gold claims in the Black Hills. Those who will be privileged to see this picture at the Majestic Theatre Wednesday will agree with officials that Mr. Ford did exactly what Mr. Fox asked him to do.

Next Friday—What "The Iron Horse" was to the story of the early railroads, the Metro-Goldwyn-Mayer picture, "Blarney," is to the bare knuckle days of prize fighting. The picture, which comes to the Majestic Theatre next Friday, has been enacted by a notable cast. The story is considered the classic of the prize ring. Ralph Graves plays the role of Carabine, while Renee Adoree noted for her recent work, plays the heroine, Peggy Nolan.

BLAST STARTS FIRE

Fire on Wednesday of last week destroyed that portable blacksmith shop owned by T. H. Arthur and son which was being operated on the site of road construction on highway 23, seven miles north of Dodgeville. A blast in a stone quarry nearby hurled a rock into the shop, upsetting a stove and setting fire to the structure.

The average salary paid Wisconsin high school principals is some \$2,500.

I don't s'pose there's nothing over there can get me. It's becuz I'm kind o' scared, I guess—What's that? I don't see no reason why my Dad can't let me—Gosh, it's comin' now, it's right! Get back there! SCAT! Well, if I jest keep on pitchin' hay an' whistlin', Maybe nothin' will find out I ain't a man; It's too dark fer them t' see my hairs all bristlin'; Wonder if I'd better beat it while I can!

Now my tips 're gettin' dry! Dad might not hear me If I hafta call fer help or anything. Listen! I can feel a lion crawlin' near me! Pretty soon that tiger there 'll make a spring! Say, that bear's a-movin'! . . . Well, I've sure been speedin' An' I don't see how I ever got away! After this, I'll keep on helpin' with the feedin'; But somebody else 'll hafta pitch down hay!

If the telephone wire in use in the Bell system could be stretched out in one single cord it would run from the earth to the moon and back 100 times, or a distance of 48,000,000 miles.

Students from every state in the Union except Delaware attended the summer session at the University of Wisconsin last year.

Women don't throw rolling pins any more. But few of them can find one.

Don't Get Up Nights

Nature's Danger Signal Begged by Tens. Man. Wants Others To Know.

J. L. Church, Knoxville, Tenn. says: "I had to go to bed 10 or 12 times each night. Burning was almost unbearable. Passed pills and pills but found no relief. Finally I took this little bottle of Kall's Catarrh Medicine. The tablets cost 25 cents each at the Kall Laboratory, Mechanicsburg, Ohio. Locally at G. A. SHIELDS."

"Cold in the Head"

Is an acute attack of Nasal Catarrh. Those subject to frequent "colds in the head" will find that the use of KALL'S CATARRH MEDICINE will build up the System, cleanse the Blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. KALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System, thus reducing the inflammation and restoring normal conditions. All druggists. Circulars free. F. J. Cheney & Co., Toledo, O.

TOURING

proves that **MonaMotor** stands up

Touring makes a motor get right down and work all day. Loaded down with luggage and rubbing along in heat and dust, the motor must have first-class lubrication.

Tourists know this. Those who have tried it always insist on MonaMotor Oil.

An oil that stands up in touring is certainly good for everyday wear. Buy this "long distance" oil and get better mileage!

His word is his bond!

A "personal guarantee" means very little to you, unless you know the man who makes it.

Ninety per cent of the things bought for your home are selected by the lady member of the firm. She is the purchasing agent. Most men admit that she is a capable buyer, and the reason is this: She must be shown — convinced by proof — that an article is what she needs and is worth the price!

For that reason, she sees the advantage of dealing with a local merchant — a man whose "personal guarantee of satisfaction" means just what it says.

She knows that what he advertises in this paper is entitled to her consideration. Because she has confidence in her neighbor—the local dealer—she can safely invest the family funds in what he guarantees.
