Thousand Eat Golden Rule Meal At Gathering of New Yorkers

MORE than a thousand leaders in religious, social, civic and political circles in New York sat down to the "Golden Rule Dinner" at the Hotel Pennsylvania in New York which recently opened the campaign for the fourth annual observance of International Golden Rule Sunday in the United States.

Clergymen of all faiths and some of the leading philanthropists of the nation participated in the program. Girls from various New York and Brooklyn colleges served as waitresses and not a dish was broken—most of them were made from old condensed milk cans especially for the dinner by boys in the Near East Relief training school on the island of Syria, Greece. They were similar to the tableware of the orphanages.

The menu served was meat stew, macaroni and cheese, stewed apricots, with syrup, bread and cocoa. This is the fare served daily in the Near East Relief orphanages abroad at a cost of approximately four cents a meal.

Golden Rule Sunday this year will have added significance since about it will be built a nation wide campaign for one million dollars to aid the victims of the recent earthquake in Armenia and to provide funds for the maintenance of children in the Near East Relief orphanages until June.

Cross Country Auto Roads Now Kept Open Through the Winter

The Federal government and the several states have made the automobile an all year instrument of pleasure and entertainment.
When winter comes with its chilling blasts and drifting snow the motorist need no longer put up his car and wait patiently for spring to bring back fair motoring days. All he needs of the car southward. Soon he will come to a through transcontinental highway that leads to sunshine and flowers. The roads have been made not only adequate but splendid for all year driving.
This fact is revealed by a survey just completed by the Automobile Club of Southern California in conjunction with its thousands of sources of information from all over the United States. The club, in its survey kept ten cars on the road, each carrying ten thoroughly experienced road information men. The cars went an average of 300 miles per day. This meant that the total per day of the cars was 3,000 miles. In a month they had traversed 90,000 miles and had covered every essential bit of road that motorists may use in crossing the United States in the winter time.
On the map shown above, all of the heavier roads are open through the year. Those that are farthest South are less troubled with storms and untoward local conditions than those in the North. In order to facilitate the use of the roads during the winter months by the motorists of the United States the automobile club has instituted an unusual service.
Should any reader of this paper wish to make an automobile journey that touches Southern California over any of these roads, the club will be glad to extend him every possible help and entirely without charge.
Prospective motor travelers should address the club at its headquarters, Twenty Sixth and Figueroa streets, Los Angeles. If road maps are

MAZOMANIE, WIS., JAN. 28, 1927.

At The Majestic Theater.

Saturday.—The whole town will be talking about "The Whole Town's Talking" when it comes to the Majestic Theatre Saturday. The screen version of the famous title success by John Emerson and Anita Loos is said by those who have seen previews to be one of the funniest comedies of a comedy season. Edward Everett Horton, whose type of comedy has made him the star of the theatre in this picture, and is supported by an unusually talented cast. Virginia Lee Corbin has the leading feminine role. Tricia Frazetta, Otis Harlan, Hayden Stevenson, Dolores Del Rio, Margaret Gentry, Robert Ober, Allen Manning, and Malcolm Waite have important roles.

Tuesday.—Priscilla Dean is the screen's champion daredevil actress. She clinched her right to the title of the Santa Cruz Islands recently when she was on location for the filming of "Jewels of Desire" when she took a ninety foot dive from a high cliff into the sea below. John Bowers plays the featured male role with an excellent supporting cast, including Walter Long, Lela Cosgrove, Syd Crossland, Ernie Adams and Raymond Wells. The picture will be shown at the Majestic Theatre Tuesday.

Wednesday.—How does a man act when the pelvis smites him to the notorious third degree? How does he act the first hour, the second hour, the third hour, the first day, the second day, the third day, the fourth day, the fifth day of this mental agony and physical torture when his tormentors are every minute calling on him to confess and every outraged nerve and quivering muscle are shrieking "Confess"? That was the question which confronted Michael Curtiz, director, and Jason Robards, leading man of Warner Bros' production of "The Third Degree," starring Dolores Costello, which comes to the Majestic Theatre on Wednesday. That the picture might be correct in every detail, they sought information from the chief of Police Davis of Los Angeles, and New York both of whom had lived through the days, not so long ago when the brutal institution of the third degree was in full force. In the cast are Louise Dresser, Rockfelle, Follows, Kate Price, Tom Donohue, Perry Todd, Mary Louise Miller, Michael Vavitch, David Torrence, and Paul Kelsey.

Friday next week.—When the Pendleton Roundup is held each year at Pendleton, Oregon, in which champion cowboys and cowgirls from all over the United States compete for the championship of the world, Hoot Gibson, famous Universal western star, catches the first train for the Oregon city. Hoot has the distinction of being the only man ever to win the cat-coppying and broncho busting championships for three successive years. Gibson was born in Tekamah, Neb., and previous to his appearance on the scene in 1914 had spent his entire life on the plains of Nebraska and Wyoming. When he became first a featured player and then a star, he did not drop his old friends. He not only kept up the old ties with people of the cattle country, but made many new and lasting friends as well. As a result his pictures of the open spaces continue to be true to life and furnish entertainment for all. His latest starring vehicle for Universal, "The
