SCHOOL NEWS

Anna Garfoot is absent due to illness.

Curtis and Roger Bohn have enrolled in the Mazomanie grade school.

Mazo met defeat last Friday at the hands of the Spring Green basketball team. The final score was 19 to 11.

Dr. Honika of the State Board of Health gave an interesting talk on success, Tuesday afternoon. He pointed out that the four cornerstones of success are character, health, ambition, and training.

Last Thursday evening one of our debate teams went to Arena, while a team from Sauk City came here to debate with our other team. One of Arena's teams defeated the same evening at Sauk City. At Arena the judges' decision was unanimous in favor of the Sauk City team. The other for the Mazo trio. Russell Kiley, John Olshet, and Edith Mathewson remained here; Gilbert Roake, Carl Pries, and Ethel Harrop went to Arena. All of the debaters showed study and training. It is hoped that greater interest in this line of work may be shown on the part of the citizens by a larger attendance at the next debate.

Fairies.
Story of the Play:

The story of "The Maid and the Golden Slipper" is taken from the well known fairy tale, "Cinderella." The fairies are slinking off in service and the Godmother tells the sad lot of Cinderella who has a wicked step-mother and two jealous step-sisters.

They all wish to help her, and the Godmother tells them of the ball which is to be given by the Prince and how, with their aid and that of Cupid she intends to let Cinderella attend.

Cinderella helps prepare her step-sisters for the ball and she is left alone in the kitchen.

The Godmother appears and magically changes Cinderella's rags to a beautiful gown of yellow and gives her golden slippers, but with the warning to leave before the clock strikes twelve.

At the ball, the Prince under the spell of Cupid, falls in love with Cinderella who escapes just as the clock strikes. In her haste she loses one slipper. After a long search, the Prince finds the owner of the slipper, and all ends happily.

How the children go discipline their parents these days?

Boy's definition: An anonymous person is one who does not wish to be known, as for instance, the boy who puts a mouse into the teacher's lunch basket.

Education is more important today than ever before. With plasters, the fourteen-dollar-a-day, the outlook for the educated man who knows how to take it away from them is especially bright.

HE MADE \$40,000 IN JUDITH BASIN!

"A MAN that wants to be independent with a small start," says E. Dickson, of Coffee Creek, Montana, in the heart of the Judith Basin, "could never come to a better country than this. Nor meet a more generous and friendly people! We are satisfied and cannot say too much for the country!"

Mr. Dickson has good reason for continuing. He came here empty-handed from Kansas, and is now worth \$40,000. He owns 800 acres, and leaves 400 more.

His crops average per acre: 18 bush. wheat, 40 bush. oats, a ton of alfalfa, 300 bush. potatoes. In his garden he grows beets, peas, onions, carrots, radishes, beans, cabbage, cucumbers, lettuce, and corn. He raises some short-horn cattle, Chester white hogs, turkeys, Rhode Island Reds, and his own horses for farming.

He gets a \$30 cream check every month, and keeps three calves for home use.

"I like it fine," says Dickson. "The horses feed all winter. There's no comparison between this country and the one I came from."

If you want more information about this wonderful country, write Mr. H. F. Hunter, Agricultural Agent, C. M. & St. P. Railway, Room 709, Union Station, Chicago, Illinois.

MAZOMANIE SICKLE

OF LOCAL INTEREST

Mrs. William Schumann, a former resident of this village, died at her home in Sauk City, Sunday last, aged eighty years, six months and twenty-five days, after an illness of nine weeks with dropsy and a complication of diseases. She was born in Germany, August 2, 1846, and came to America when a child. She was married to Wm. Schumann on November 8, 1869, and located on a farm in Berry. They moved to Mazomanie in 1901, and to Sauk City in 1913. She is survived by her husband and eight children: Mrs. J. M. Jorgens, of Sauk City; Oscar Schumann, of Larchwood, Iowa; Wm. Schumann, of Berry; Mrs. Albert Aldinger, of Marion, Kansas; Mrs. Henry Nendorf, of Mazomanie; Julius Schumann, of Wausau; Mrs. Herman Hering, of Lodi; Mrs. Fred Steckelberg, of Middleton. The funeral was held Wednesday, with services at Sauk City conducted by Rev. C. J. Walenta. Interment was made at Mazomanie.

A BIG BENEFIT.

Over two hundred friends and patrons of the Public Library attended the card party at the High School gym, last Monday evening. There were more than fifty tables of euchre, five hundred, and somewhat. It was an even greater success financially than the party of last year, and, as many of those present have reported a very enjoyable time, it proved a social success as well.

At the close of the games, refreshments were served and the prizes were awarded. The prizes were all awarded by the business firms, as follows: M. J. Zanic, glass powder jar; E. H. Davies & Son, box of candy; George Zatochi, hair cut and shave; H. L. Moe, playing cards; Taylor, Woolrich & Taylor, silk hose; Moe Poultry & Egg Co., several dozen eggs; Krapp & Son, rug; W. C. P. Weinschenk, shaving set; George A. Shields, box of stationery; Moe Motor Co., emergency kit; G. L. Dunlap, 25 pounds of flour; Lashway-Dunn, loud speaker plug; A. H. Toho, large ham; City Garage, five gallons gasoline; Quality Bakery, a large cake; H. E. Trager, box of candy; H. E. Fey, hair lotion; Majestic Theatre, one dollar cash; Butz Bros., silk hose; Wm. F. Hie, new, beef roast; C. B. Vogel, beef roast.

The awards were as follows: For euchre—Ladies' first prize, Mrs. T. Harrigan; second, Mrs. O. H. Boyle; third, Mrs. Anton Roelke; fourth, Mrs. J. B. King. Gentlemen's first prize, George Pugh; second, Joseph Loy; third, A. J. Endres; fourth, J. B. King. For five hundred—Ladies' first prize, Miss Patterson; second, Mrs. Post; third, Mrs. Griswold; fourth, Mrs. A. Kirch. Gentlemen's first prize, A. G. Ellis; second, H. E. Trager; third, Jack Ohlen; fourth, W. S. F. Smith. For Somerset—Ladies' first prize, Miss Lappley; second, Mrs. G. L. Dunlap; third, Mrs. H. M. Lappley; fourth, Miss Vogel. Gentlemen's first prize, Wm. Griffith; second, G. L. Dunlap; third, Wm. F. Royston; fourth, Mr. Fooks.

We are grateful to the members of the school boards for their permission to use the gymnasium, and to the many others who so willingly assisted us in "putting on" this benefit. We might mention the advertising, the advance sale of tickets, the generous prizes contributed by our business men and women, the donations of coffee and eatables, the loan of tables and cards and the willing services of Mr. Howard and others on that evening and previous to the event—without which, such an affair would have been impossible. So we desire to thank all for their hearty co-operation and assistance. The total receipts were \$114.25; the net receipts will be published later. The Library board.

10 REASONS FOR BUYING OLDS' SEEDS

- First, Backed by Long Experience. This is our 40th Year in the seed business. We know seeds.
- Second, Tested Seeds. All our Field Seeds show purity and germination tests and comply fully with the Wisconsin Seed Law.
- Third, Freedom from Noxious Weeds. There are no noxious weeds in our seeds. You can buy them with confidence.
- Fourth, Thorough Cleaning. With our new power cleaning equipment we remove all foreign matter. Do not sow uncleaned or poorly cleaned seed.
- Fifth, Home Grown Seed. Our Red Clover, Alsike and Timothy are nearly all Wisconsin grown. Our best Seed Corn, Oats and Barley are Wisconsin grown. Home grown seed is best of most items.
- Sixth, Adapted Varieties. Olds' varieties of Corn and Grain have been bred and developed at the Wisconsin Experiment Station and are the ones recommended by them as best for Wisconsin.
- Seventh, Certified Alfalfa. All our Grimm Alfalfa is certified by state authorities and sold in sealed bags. Our common Alfalfa is all carefully selected and guaranteed as to origin.
- Eighth, Large Assortment. We have a complete assortment of seeds of all kinds, not only Field Seeds, but Garden Seeds, including Flower Seeds, Bulbs and Plants. If our local representatives do not have what you want they will get it for you.
- Ninth, A Home Seed House. Why send out of the state for your seeds? Buy in Wisconsin, save freights and also get the seeds best adapted.
- Tenth, High Reputation. Our last argument for using Olds' Seeds is that they are well known for high quality and dependability. They have a reputation the country over, especially in our own state.

Order from our local representatives, BUTZ BROTHERS. Ask them for a catalog if you have not already received one.

237 Dept. 26, Platteville, Wis.

The Madison-Platteville District of the Methodist Episcopal church is putting on an evangelistic crusade, which begins March 6 and ends March 27. Dr. Raymond Powers, of Chicago, will direct the campaign, and Dr. F. W. Harris, district superintendent, will assist him in the directorship. Part of the campaign will be for a complete religious census of each parish. Therefore as Mazomanie, Black Earth and Mounds Creek are a part of the Madison-Platteville district, we have decided to enter the campaign in a whole-hearted way, and ask for the cooperation of all Christians, who are interested in the advancement of the Kingdom of God.—Edw. Doherty.

At The Majestic Theater.

Saturday.—About two hundred of the sheiks and sheilas that adorn the taxi dance hall in Harry Millard's production of "The Taxi Dancer," coming to the Majestic Theatre Saturday, were hired at a dance hall of that type in Los Angeles in order to secure the realism demanded by the director. Joan Crawford and Owen Moore have the romantic leads in this Metro-Goldwyn-Mayer picture, while Mae MacDermott, Gertrude Astor, Rockliffe Fellowes, Douglas Gilmore, and others are featured.

Sunday.—Rin-Tin-Tin in his latest Warner Bros' production of "White London Sleeps," written and directed by Walter Morris, comes to the Majestic Theatre Sunday. The story is laid in the Limehouse district of London, where Rinty's master, London Ironer, rules the underworld with an iron hand. Rinty has played his important part as lookout on many a job but when Letter loses fifty pounds on him in a dog fight, he throws the beaten bundle of love and service into the gutter. Dale, the daughter of Inspector Burke of Scotland Yard, rescues him. Letter kidnaps Dale with the aid of The Monk, a man-beast. Rinty leads the rescue party. Helene Costello and Walter Merrill play the two leads in support of Rin-Tin-Tin.

Tuesday.—Virginia Vail leads the stellar cast of "Marriage," Fox Film's adaptation of the novel by H. G. Wells, which comes to the Majestic Theatre Tuesday. This absorbing story of married life provides one of the most powerful pictures of the year with a thrilling and intriguing

BUICK UNIFIED LINE

THE Buick Motor Company has announced the completion of its new, efficient assembly system, the Unified Line.

It is capable of turning out thirteen hundred complete automobiles a day. The plant engineers who planned and built the system say that their purpose was to obtain the most speed and economy in the assembly operation consistent with the rigid standards of quality maintained in the past.

That this purpose has been accomplished is demonstrated by the fact that between 885 and 900 men, with the aid of the new system, are able to turn out the normal output of eleven hundred cars a day. This places the actual cost of assembling each car at a figure less than the wage of one man for one day, as far as the labor item is concerned.

There is no interruption in the assembly of the cars from the time the bare frame starts at one end of the system until the finished car is driven away at the other end. It consists of three assembly lines located in a building 64 feet wide and running parallel. This economy of space is possible because all materials and

parts are brought to the three lines by gravity or power conveyors at exactly the time they are needed for assembly. This eliminates the necessity of keeping racks of stock on hand.

Buick builds chassis of three lengths and two engine sizes. There are eighteen domestic body styles, several export right-hand drives, many different paint combinations of bodies and wheels, and practically all combinations of bodies and wheels. A frame for a chassis of 118 inches starts at the riveting bays. Throughout its long journey through thousands of assembly operations, it must in every case receive exactly the right part for this particular chassis. This is accomplished by the Unified Line.

Cady B. Durham, vice president and assistant general manager of Buick, conceived the Unified Line and built it with the assistance of his staff of plant engineers. Its purpose is to build Buicks to the same high standard of quality which has been maintained for twenty-three years, and yet to eliminate the costly items of delay, handling costs, duplication of effort and unnecessary labor expense. The system as now stands is second to none in the industry.

Nine Judges scored and rated 129 country weekly newspapers before they made the Stanley Republican Wisconsin's all-around champion newspaper.

Have nothing in your home that you do not know to be useful and believe to be beautiful—is the advice given home-makers by William Morris thirty years ago.

A survey of an average group of 100 children of school age shows that 36 are not attending school; 54 are in elementary schools; 7 in public high school; 3 in public night schools; and only 2 enter college or university.

State dairy authorities are puzzled as they attempt to find the first cheese factory established in Wisconsin. As would be expected, many of the early factories made frequent changes in management and only meager records have been kept of their early days.

The world wheat area last year, outside of Russia and China, was the largest since the war and probably the largest ever sown. The area seeded to winter wheat in the United States in the fall of 1926 is estimated to be 41,000,000 acres, which is 5 per cent over the area sown in the fall of 1925 and 8 per cent more than was seeded in the fall of 1924.
