### MIDDLETON DAIRYMAN IS A RED DIAMOND EXPOSER

Vitex Dairy Feed is made by the  
same company that makes Red Dia-  
mond. The only difference is that one  
is a very high per cent protein to mix  
with home grown grains. This is  
what Mr. Irwin Lubke, of Middleton,  
says: "I have used several kinds of  
dairy feed and am convinced that Vi-  
tex Dairy is the best I have ever got-  
ten hold of."  
Ernest Cooke is distributor for  
Vitex and Red Diamond feed at Ma-  
zomanie.

### BANKERS HELPING

Three banks in South Carolina have  
inaugurated a plan to provide free of  
rent for two years a centrally located  
place to be used by the farmers of  
Greenville and neighboring counties  
for the purpose of establishing a  
creamery, a canning factory and a  
farm woman's club. The idea is to get  
the farmers to raise livestock to raise  
their own food and feed and to have  
something extra to sell. The canning  
factory is intended to utilize the sur-  
plus garden and fruit products, and  
the club rooms for getting the support  
and co-operation of the farm women.

Georgia bankers have made great  
 strides in furthering a diversified  
farming program the past year. They  
induced farmers to sow fifty-five car-  
ds of vetch seed, furnished local  
in eighty counties for the corn  
t, the state prize of \$7,000 being

## No Closed Doors to the Telephone

Have you ever been in an office when some-  
body called the manager or proprietor to the  
Long Distance telephone? Did you notice  
how he let other matters wait—including  
yours—while he answered the call?

Why not get your story over that way?

Long Distance goes straight to the man you  
want to reach—gets his full attention without  
delay—gets the answer back to you im-  
mediately.

He knows it's important or you wouldn't call.  
He listens carefully and replies promptly. He  
knows you are talking business in the modern  
way.

And it is economical in time, in effort and in  
money.

furnished by a bank in Atlanta. A  
bank-farmer alfalfa demonstration  
was held at the college and attended  
by 250 bankers and farmers. Alfalfa  
acreage has increased from 1,800 to  
2,800, the demonstration being cred-  
ited with 50 per cent of this increase.  
This year the state has produced 22-  
000,000 more bushels of corn than last  
year, has sold 50 cars of truck, \$250,000  
worth of peaches, and has produced  
150,000,000 pounds of meat and enough  
corn and hay for its own use.

### AS LABOR SEES BANKS

Vast sums of money are lost each  
year by wage-earners through invest-  
ments hastily entered into. With the  
confidence of the wage-earners, banks  
will be enabled to more accurately  
advise such investors and thus save  
money which might otherwise be lost  
by unwise speculation. William

### HEATING A HOUSE ON WHEELS

About twice the amount of coal  
needed to heat the average six room  
house is required yearly to heat each  
one of the many hundred passenger  
cars in Milwaukee Railroad trains.

Although the Milwaukee Road has  
the world's longest stretch of electri-  
fied line—about 690 miles—it burns  
on locomotives such year some four  
million tons of coal.

The steam produced in locomotive  
boilers from this coal is used for heat-  
ing cars and other purposes in addi-  
tion to the primary purpose of pull-  
ing trains, and twenty tons a year is  
the proportion chargeable to each pas-  
senger car.

"A passenger car may be considered  
as a room on wheels having a large  
proportion of exposed area in places,  
with all sides, top and bottom, ex-  
posed to the elements," says an official  
of the Chicago, Milwaukee & St.  
Paul Railway.

"These conditions and the fact that  
it must be transported at high speeds,  
when temperature is low, through

blizzards and sleet storms, make it  
very difficult to properly heat this  
room on wheels."

June 30 has been marked "import-  
ant on the calendar hanging in many  
southern Wisconsin farm homes.  
This is Farmers Field Day, at the  
state agricultural college and experi-  
ment station, Madison.

June 19th is Dad's Day. Dad is coming to be almost as important as mother. This store has the things Dad likes. If you'll remember him with some of our new ties, shirts and so on, he'll appreciate your thoughtfulness, and kiss you on both cheeks.

We shall soon read what the June brides wore. If you want to see your trousseau held up to praise, you can't do better than select it in this store.

But why slight the bridegroom? It's only fair play to tell what he wore. And what a lot free advertising we'd get if accounts ran somewhat like this:

And Willie Part wore one of Butz Brothers famous, nationally advertised Middistripe Blue Serge suits—a white broadcloth shirt with a Van Deusen collar—a honey brown tie with a dash of Spanish Blue—blonde balloon oxfords with brass eyelets and red and white plaid laces tied in a neat bow. His chapeau was of a London smoke grey with tri-colored band, and his brilliantly lustrous silk hose were snugly held in place by pea-green, double grip garters, and all set off by a sunflower in his upper left buttonhole.

All of these nice things you'll find in this store.

More new Congoleum rugs that will make your room look as cheerful as the sunshine. \$10 for 9x12 size.

And Wiltana Velvet Rugs too. Up to \$50. A woman who saw them—no, it's not fair to tell her name—said: "I've just got one from Sears, but I like yours better, and so I'll take yours and send Sears' back."

### At The Majestic Theater.

Sunday.—Armes often form the background of war films but it is seldom that a military camp is used as a picture background for a peace-time film. Metro-Goldwyn-Mayer has used the citizens military training camp at Del Monte, California, as a background for its newest and one of the most clever farce comedies of the year, *Hookies*, coming to the Majestic Theatre. The leading roles are taken by Marvline Day, Karl Dane, George K. Arthur, Tom O'Brien, Frank Currier and other well-known players.

Tuesday.—A tribute to the marvelous intelligence of dogs is made in *'The Outlaw Dog*, an F. B. O. production starring the remarkable police dog, Ranger, which is coming to the Majestic Theatre next Tuesday. Ranger is an outstanding example of the possibilities of an exceptionally clever dog which may be developed under intelligent training. Not only is Ranger easily directed, but he is a stunt dog supreme, whose combination makes him an ideal screen subject. In this picture he has plenty of new thrills with which to entertain his admirers. A splendid cast includes such well known names as: Rex Lease, Helen Foster and Bruce Gordon.

Wednesday.—That a man may be

rich but honest is the theme of a clever Fox Film Comedy Drama, which is based on a story by Arthur Somers Roche, coming to the Majestic Theatre next Wednesday. This is one picture that gives the rich a chance to court a working girl a chance to prove that wealth is not synonymous with evil intentions in young men who pay court to poor girls.

## Carib Gold

By ELLERY H. CLARK

Time was when Ellery H. Clark was famous as all-around athletic champion of America. He was a double winner at Olympic Games. For twenty-five years he was distinguished on track and field, winning prizes in thirty different lines of competition, from the ten-yard dash to the discus throw. And now he writes a pirate story, racing away from the first word in a straight, swift dash and closing with a leap of burning speed. He does it in the calm, convincing manner of a champion, always master of himself and his material.

Summer days in Wisconsin average 15 hours in length.

Radio receiving sets are used in approximately 1,250,000 American farm homes.

Wisconsin has the lowest percentage of illiteracy in states east of the Mississippi river.

After 40, the health experts say, folks as a whole have a tendency to grow too stout. Not enough exercise is largely the cause.

By sending milk samples of each cow direct from their farm to a central

office, Outagamie county farmers are receiving monthly tests on some 8,500 cows.
