In the Market Place

IN certain parts of Europe some centuries ago, the farm laborer was wont to stand in the town market place holding a straw in his mouth as a sign that he was looking for employment.

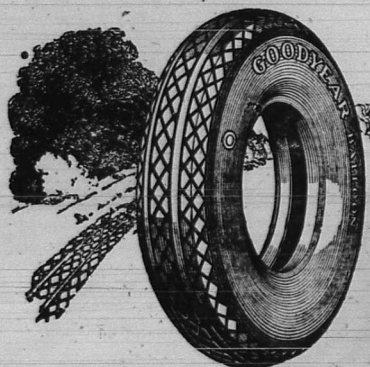

Today the uninvested dollar places itself in the open market. As to an individual, it must be offered an occupation free from personal hazard, with steady employment and attractive wages.

In providing telephone facilities for nationwide service, the Bell System has employed millions of such dollars. The savings of more than half a million American telephone users, invested in Bell System Securities, have built the system that serves them. Theirs is an investment in service, and they themselves have served by investing.

Call 124-R G. HOLCOMB

We've said it many times, but it can't be said too often, that cheap clothes are dear clothes—that it is more economical to buy quality instead of price.

As Tony Lewis says, a cheap suit does well enough to stub around with, but it won't meet the requirements of the well-dressed circle.

Do you know (you know we never brag), but do you know that Butz Bros. won The Royal Tailors' \$75.00 cash prize for sending them in one year more suit orders than any other of their ten thousand dealers in towns of not more than one thousand people

The reason is plain. The operations are performed by a master of the tape line. When the garments come, they come fitted to every turn and curve of your body. They come in harmony with your individuality. They come with the guarantee to please you in every respect or you need not pay one penny.

Now is the time to show off your dress shirts. The beauty of our new Rayon Sparlers can not be shown in print. They run up to \$3.50. Better buy more than one, then when folks see your shirt on the line they won't take it for a sign that you are at home.

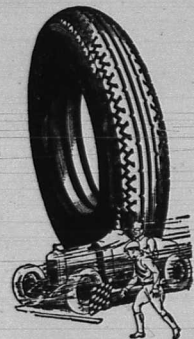

Those broken lots of Women's \$1.25 All-Pure-Silk Hose at 60c we told you about last week, are going fast. Better "Lindy" if you want any of them.

New goods coming in and going out every day.

of adventure that follows. Maite Blue is marvellous as the engineer, and the cast includes Edna Murphy, Carol Nye, Chas. McDevitt, Myrtle Steiman, William Demarest and J. W. Johnson. At the Majestic theatre next Sunday.

Tuesday.—Sitting serenely on Turkish cushions while sixty-four wives vie for his attentions is Rudolph Schildkraut's pleasing role in "Turkish Delight," coming to the Majestic

theatre next Tuesday. Schildkraut plays the role of an Americanized Turk who inherits a Sultan's throne and harem. Everything goes along smoothly until the women fight among themselves. Julia Payne, Kenneth Thomson and May Robson are featured in the picture.

Wednesday.—In "Silver Comes Through," which comes to the Majestic theatre next Wednesday, Thomson's beautiful horse, Silver King

plays the role of a western horse of nondescript breeding, entered in a cross-country race as a last resort when the thoroughbred entry of his owner suffers an injury. Through the intricate structure of the plot, Silver thus becomes the benefactor of the man who first refused to recognize his merit and later backed him grudgingly.

Friday, next week.—Romance set in the heart of the cattle country of the West during the period of habilitation in which civil strife and humanity flourished practically unrestrained is brought to the screen with remarkable vividness in "Bulldog Pluck," a FPA attraction starring Bob Custer, at the Majestic theatre next Friday. Custer is supported by a splendid cast which includes Viora Daniels in the leading feminine role and Richard R. Neil as the "heavy" character.
