AGRICULTURAL RELIEF.

The utter confusion that exists in the public mind regarding agricultural relief is shown by the published opinions relating thereto, said Mr. Nordman, Commissioner of Markets, in a statement given out today.

Every well-informed person knows that improvement in the processes of agricultural production and merchandising is not the cure for the ills that farmers suffer from. Such improvements may give temporary relief to the group that succeeds in effecting methods but it is always at the expense of some other group which, for some reason that may be entirely beyond its control, is not able to maintain itself against the existing fierce competition. Nevertheless, it is a safe assertion that 95 per cent of the printed matter appearing in the press including the farm papers is devoted to the advocacy of more efficient methods and scarcely a word ever appears in regards to the real cause of the average farmer's financial trouble which is excessive overhead of taxes and interest and the fact that the farmer is almost continually producing on a surplus market. Now, it is perfectly obvious that methods of obtaining farm relief to be effective must be directed at real farm ills and not at imaginary ones. In other words, the first essential requirement in the effort to raise the farmer's status, which everybody admits needs raising, is a correct diagnosis of the influences that hold the farmer back. Until such diagnosis is correctly made real farm relief will not be forthcoming.

BABY TAKES SNAKE IN MOUTH

The 18-month-old son of Mr. and Mrs. Ervin Meyer of the town of Troy was found with a small snake in his mouth recently. The little fellow was playing in the yard and evidently caught the small reptile, as it was running in the grass on the lawn. When the mother discovered her boy with the live snake the child was holding it on both ends and biting it in the middle. The little fellow was coughing and likely found the cold body of the snake soothing to his aching gums.

The mother killed the snake which was fortunately only of the harmless variety. —Prairie du Sac News.

Town and Country Lines.

Ability involves responsibility. —MacLaren.

Forty out of every 100 American farm homes are equipped with telephones.

Two acres of thoroughly drained land are usually more profitable than double that amount of poorly drained land.

According to dairy historians, Holsteins were first introduced in Wisconsin in 1875, Guernseys in 1880, or 1881 and Brown Swiss in 1888.

To furnish milk to some 800 cities and towns in the United States, it is necessary that dairy herds be first tested for tuberculosis.

Farmers of Burnett, Washburn, Sawyer, Polk and Barron counties have marked their calendars for the annual farm roundup to be held at the "Spooon Branch Experiment Farm, August 10.

More than 30,000 farmers of New York, Pennsylvania, Ohio, Michigan and Indiana participated in the clean-up campaign waged this year against the European corn borer.

First to adopt the testing rules for checking abnormally high-testing cows and herds, the Fort Atkinson Cow Testing association further strengthened its position in the state's dairy circles by being the first test club to start and complete herd improvement work.

Goodyear
Tires

We used to sell another line of TIRES. And we believe they were good ones. But we were asked many times, "Do you think that Tire is as good as the Goodyear?"

So we figured if our customers made Goodyear their standard of value—why try to sell them any other kind.

And for that reason we are now selling Goodyears exclusively.

State Horseshoe Pitching Champ to Be Picked at Fair

State Fair Park, Wis.—The "crack" horseshoe pitchers of Wisconsin will match their skill during State Fair week, Aug. 29 to Sept. 3, in the second annual tournament to be held on the exposition grounds, according to an announcement by Fred C. Borchardt, Jr., business manager.

Last year the initial meet attracted more than a hundred of the state's best tossers of the "good luck" emblem and an increased enrollment is already indicated for this year, judging from the response being accorded A. J. Klement, West Allis, president of the Wisconsin State Horseshoe Pitchers' association, which has charge of the tournament.

Harvey Elmsom, 22-year-old Kenosha sharpshooter, who tossed a flock of ringers last year and won the state championship, will defend his title. "Bronwie" Hoffman, 14, the youngest tosser a year ago, will be back again. The winner of this year's championship will take home a \$100 purse, a permanent trophy, known as the State Fair cup, a gold medal and the Horseshoe Pitchers' association traveling trophy, which must be won three times before it can be retained.

You can still secure one of those valuable safety razors at the same terms as before.

State Horseshoe Pitching Champ to Be Picked at Fair

State Fair Park, Wis.—The "crack" horseshoe pitchers of Wisconsin will match their skill during State Fair week, Aug. 29 to Sept. 3, in the second annual tournament to be held on the exposition grounds, according to an announcement by Fred C. Borchardt, Jr., business manager.

Last year the initial meet attracted more than a hundred of the state's best tossers of the "good luck" emblem and an increased enrollment is already indicated for this year, judging from the response being accorded A. J. Klement, West Allis, president of the Wisconsin State Horseshoe Pitchers' association, which has charge of the tournament.

Harvey Elmsom, 22-year-old Kenosha sharpshooter, who tossed a flock of ringers last year and won the state championship, will defend his title. "Bronwie" Hoffman, 14, the youngest tosser a year ago, will be back again. The winner of this year's championship will take home a \$100 purse, a permanent trophy, known as the State Fair cup, a gold medal and the Horseshoe Pitchers' association traveling trophy, which must be won three times before it can be retained.

You can still secure one of those valuable safety razors at the same terms as before.

At The Majestic Theatre.

Saturday.—"Mike"—a Metro-Goldwyn-Mayer picture directed by Mar. shall Neilan, which will be shown at the Majestic Theatre on Saturday, is described as one of the best and most amusing pictures that director has yet turned out in a long career of notable successes. "Mike" is pure entertainment. It abounds in comedy of the sort that Neilan is noted for. The story deals with the life of the family of a section boss whose division is that part of a transcontinental railroad that crosses the desert. The

home of the group is an ingeniously appointed box car.

Tuesday.—Manner Griffith of the Majestic Theatre has scored again in selecting high-class and pleasing entertainment for his patrons. He is always careful in his endeavor to obtain the best photoplays. In the Ebb Picture, "Forest Haven," a drama of love and logs, he has selected another winner. Every patron who has seen the film is pleased and every one who sees it during its run is also sure to be pleased. The picture starts with drama and suspense in its opening scene and never lets down for a moment until the final action fades off the screen. Situation follows thrill and thrill follows situation in rapid-fire succession.

Friday, Aug. 12.—"The Buffalo Bill On The T. P. Trail," a thrilling Epic of Frontier Days, produced by the Sunset Productions of Hollywood, and which comes to the Majestic Theatre today, is literally lifted from actual history wherever it surrounds the life of William Cody, better known to the people of the world as "Buffalo Bill." An all star cast of box-office favorites appear in the picture, headed by Roy Stewart, Oullen Landis, Kathryn McGuire, Sheldon Lewis, Earle McDeville, Jay Morley, Eddie Harris, Fred De Silva and Hazel Howell.

Men Relate This Simple Way to Get a New Thrill in Shaving

THE Valet AutoStop is the only razor that sharpens its own blades. A few strokes on its stop restore the blade to new-like keenness.

Sharpen it, then shave, then clean—all in a jiffy and without removing the blade from the holder.

This is a different principle. The blade doesn't get duller and duller until it must be thrown away.

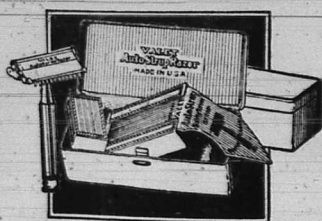

A speedy, comfortable shave every time—uniformly perfect. An end to "pulling." An end to wasting time. "There's no shave like it," men say. Why miss this supreme improvement?
