CHRIST FOR ALL-ALL FOR CHRIST

The Word of God

14. Christ the vine, we the branches.
John 15:1, 2, 4, 5. I am the true vine, and my Father is the husbandman. 2. Every branch in me that beareth not fruit, he taketh away; and every branch that beareth fruit, he purgeth it, that it may bring forth more fruit. 4. Abide in me, and I in you. As the branch cannot bear fruit of itself, except it abide in the vine; no more can ye, except ye abide in me. 5. I am the vine, ye are the branches. He that abideth in me and I in him, the same bringeth forth much fruit; for without me ye can do nothing.
Prayer: Oh thou source of Life and Truth, in Thee we live, move and have our being.
How may we get Wisdom? Answer, read—1 Kings 2:3.

CO-ED UPKEEP EXCEEDS EXPENSES OF MEN STUDENTS

The average woman student, if any, at the University of Wisconsin spends \$18.80 more per year than the average man, according to a pamphlet entitled "That's the Gold in Them Hills, Gardner," prepared by the Daily Cardinal, student publication. The entire student body spends approximately \$6,575,712 in Madison, according to the newspaper's compilations. The average expenditure is \$962.75. Men students spend \$20,000 a day while women students' expenditures total \$15,000 daily.

Women spend three times as much for clothes as men, but men's amusement expenditures total twice the amount spent by women. Men spend \$20,000 a day while women students' expenditures total \$15,000 daily.

As much jewelry as do the men. Musical instruments cost the men \$21,705.88 annually, which is one and one-half times as much as it costs women students.

Senior students spend more than those in other classes. Junior men spend less than sophomore or freshmen while the first year men are the second to the seniors in expenditures. Junior women spend almost as much as senior women, who top the list in the year's expenses.

The statistics were prepared from 1,202 questionnaires mailed to students in the spring of 1928. Thirty-five per cent of the questionnaires were returned.

Students in the sophomore class in newspaper reporting at the University of Wisconsin School of Journalism contributed during the first semester 12,184 column inches, 609 columns, or the equivalent of 121 newspapers per year to newspapers in Madison and other cities. Figures represent only news matter which was published, not including headlines.

Due to the rapid depletion of tin in Wisconsin, the Badger state all drug stores, Keller Laboratory, has declined from 1st to 9th as a producer in the past thirty years.

Getting Up Nights is Nature's Danger Signal.

Jos. F. Fensfield, R. 30 Baden, Sta. St. Louis, Mo.
Says, "I will tell or write about my complete relief with the famous Buchu (Keller) Formula." How I was relieved of getting up nights and the terrible burning. Noticed a change in 3 days. It acts on the bladder as upon salts do on the bowels. Drives out foreign deposits and causes excessive acidity. This relieves the irritation that causes getting up nights. The tablets cost 20 each at any drug store. Keller Laboratory, a Mechanicalurg, Ohio, or locally at Geo. A. Shields, Druggist.

DEPENDABILITY

KNOWING that you live in a community where you can depend upon the folks to do as they say they will do, folks that always play fair in social as well as in business life, makes life really worth while. As you think it over, you will find that the average folks in this community are dependable. With dependable folks as a basis, there is no reason why we can't make this community the business and social center of this entire territory. LET'S DO IT.

HOW TO LIVE LONGER

By
JOHN CLARENCE FUNK
KEEP AN EYE ON YOUR
EYES

A SCHOOL nurse recently visited a home to report defective vision in one of the younger members of the family. Records had indicated that average acuteness was noticeably lacking in this particular scholar, while to all appearances the intelligence of the child was normal.

"You see," said the nurse, "the medical inspector came around today and discovered that Robert needed glasses. No wonder he has appeared dull!"

The point of this story is not to demonstrate the intelligent care that is being given to conserve child life and develop it to its highest state of mental and physical efficiency, but to emphasize the vital part that the eyes play in both the young and old.

As a matter of fact, both parents of this youngster were chronic headache sufferers because they needed glasses; and didn't have them. But after the nurse's story they developed a suspicion of this fact and arranged to go to a store and purchase glasses for themselves.

Of all the foolish things man is likely to perpetrate upon himself to tamper with that carefully delicate mechanism which registers objects for the brain is about the worst. Yet thousands of ignorant, "smart" persons will go to a counter, try on glasses until they get a pair that "fit their eyes" and spend away loaded with the dollar and ten dollar bills.

It is difficult to understand the colossal conceit which prompts an otherwise intelligent person to "pick out his own glasses—snatch each pair for most expert examination and experience."

And the mail order business is just as bad. However, urged by the high-powered statements of expert advertisement writers, there are many, especially those of the more remote or rural regions, who answer a questionnaire and obtain a "perfect vision in beautiful gold frames."

The fact that the eyes are likely to suffer vitally as a consequence is quite beside the point.

Just remember this: Your eyes are your best friends; it is no fun to wear glasses and if you do not have to, do not wear them.

As so consider yourself fortunate to find out about this matter and obtain your information only from an oculist or registered optometrist. It is quite beyond your own intelligence.

A final warning: If you are suffering from an affection of the eyes that proved quickly to an oculist, eye disease is the person qualified to advise you, and when necessary, to tamper with this most useful member of your anatomy. Keep an eye on your eyes!

STAY OUT!

"Love thy neighbor as thyself," is a familiar biblical injunction. But even so, it has its qualification. And the quarantine sign is one of those.

There appears to be a popular notion that for those on the "inside looking out," quarantine is a maddening sort of thing, but for those on the "outside looking in," it means little or nothing.

Overlooked with the welfare of a sick neighbor or a neighbor's sick children, people will deliberately disobey the order plainly set forth on the sign and go visiting by the way of the back door. Thus, under a misguided idea of friendship, they will violate a rule which for their good and that of others should never be broken.

One has to be commended for the display of solicitude for friends and acquaintances, but if it takes the form of invading a home that is quarantined as a quarantine sign is carrying the thing a bit too far. It must be understood that neither fancy nor whim had anything to do with its placement. Based upon the absolute knowledge that health officials possess, it is put up for the protection of the public. It plainly says, "Stay out!" And that means everyone except the physician and persons in attendance upon the case. Others are trespassers, and criminal ones at that!

The germs of the communicable diseases are not to be tampered with. While invisible to the naked eye, the signs of infection are everywhere. The germs hang on to you, infect you, or by using you as a carrier, infect others.

Just a few days ago, there was a back-door infraction of a warning sign. A man, who was a member of the quarantine, "Not a bit afraid," remarked the local neighbor lady who was reluctantly admitted to the home, she was not prosecuted, convicted and fined for her indiscretion, but she paid a penalty nevertheless. Scarcely four weeks later she was dead.

Therefore, the next time you see a quarantine sign on a friend's home, use the telephone for your inquiries and solicitations. Don't stick your head into the lion's mouth. It might bite!

NICE WORDS WON'T DYE a dress or coat...

Neither pretty pictures nor colorful adjectives will dye a dress or coat. It takes real dyes to do the work; dyes made from true anilines.

Next time you have dyeing to do, try Diamond Dyes. See how easy it is to use them. Then compare the results. Your dealer will refund your money if you don't agree they are better dyes.

You get none of that dyed look from Diamond Dyes—no streaking or spotting. Just fresh, crisp bright new color. And what's more, they are better dyes because they contain plenty of real anilines—from three to five times more than other dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye dyer silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool.

Your dealer has both packages.

SCHOOL NEWS

Senior Class play practice will soon be started.

All students came back bright and happy Monday morning after a week of vacation.

Mr. Douglas, from Madison College, spoke to the assembly Tuesday on the subject "Step Ahead."

Baseball and track will be practiced as soon as the field is dry. Every high school boy must practice for either track or baseball.

Workin' in the Yard

There's nothin' that pays you a finer reward
Than work that you do in improvin' the yard!
The beauty that follows, I'm here to contend,
Rewards you full measure for all that you spend.
And oh, but it's fun, in your blue denim
shirt
And an old pair of pants, to get down in
the dirt
And bury your hands in the bountiful
soil—
I tell you I know of no pleasanter toil!

But I am not thinkin' of truck that you
grow
In vegetable gardens, I'd have you to
know!
I'm glad to let others plant lettuce and
peas
(And also the carrots and squash, if you
please!)
I'm thinkin' of jonquils, the dahlias and
phlox
And gay little creepers that border the
walks—
I'm thinking of roses, of pansies, and all
The flowers that bloom in the summer
and fall!

While some prefer fishin' to idle the time,
And some think that golf is a pleasure
sublime,
And some think a ball game the finest of fun,
When all of their workaday labors are done,
I'd rather be spendin' my duty-free hours
While whistlin' and hummin', in raisin' the flowers!

Those having perfect attendance in
the Seventh and Eighth grades this
year are Leona Sternhagen, Helen
Vorborg, and Geraldine Peterson.

A series of articles written by 8th
grade pupils about points of interest
on their educational outing to Madison
will be published in this column,
starting next week.

Niedorf, Mr. and Mrs. Henry Schomann
of Halfway Prairie, and Jo-
hanna Ferge of Black Earth, who at-
tended the funeral of Mrs. Herman
Gattwinkel at Prairie du Sac Satur-
day, called at the home of Mr. and
Mrs. L. W. Katerberg while in the city.
—Sauk County News, March 28.

Wm. Rogers of Wyoming received a
cut from an ax, Tuesday, which
covered a cord above his right knee.
Mr. Rogers tossed the ax to one

side, it struck the leg and rebounding
inflicted the injury.

Arena can boast of having the oldest
set or one of the oldest residents of
Iowa country in the person of John
Pope who celebrated his 97th birth-
day on Sunday.

The spring freshet reached peak
Tuesday, when the river raised with-
in two feet of the high water mark
of 1922. Both the wagon bridge and
that on the grade were threatened
Tuesday when the flood began to cut
in behind the north abutments. Bags
of sand stopped the leak.—Home
News, Spring Green, March 28.

SEED TRADE ALSO ADOPTS
RED FOR DANGER SIGNAL

Red and red-orange are danger
signals of the seed trade, too, for
these colors are being used to stain
non-hardy seeds imported from
foreign countries.

Until the passage of the recent fed-
eral seed staining act, the seed buyer
was at a loss to know where to get
safe seed, according to E. B. Holden,
secretary of the state council and a
member of the field crops staff of
the Wisconsin College of Agriculture.

Although a great deal of clover and
alfalfa seed on the market had been
grown in south European and South
American countries or in the south-
east and was not hardy in the northern
regions of the country, Wisconsin
growers were unable to protect them-
selves in buying their seed stocks.
The identity of these foreign seeds
had lost in many cases during the

numerous transactions in which it
figured.

A system of stains was worked out
recently in the federal "seed stain
act" no as to give the buyer infor-
mation about the foreign grown alfalfa
and clover seed he buys. Accord-
ing to Holden, this act requires that
all seed of alfalfa and red clover, im-
ported into the United States, be col-
ored. Red and red-orange were the
danger signals decided upon to show
that the seed was not hardy, and
other colors were picked to designate
hard seed from other countries.
The red clover seed grown in Italy,

alfalfa seed grown in Africa and al-
falfa and red clover seed of un-
known origin are now stained "10
per cent red." This means, Holden
explains, that ten percent of the seed
in the lot will be stained red. Like-
wise, 10 per cent of the alfalfa seed
shipped from South America is stained
orange-red.

On the other hand one per cent of
the alfalfa seed grown in Canada is
stained violet and alfalfa and red
clover seed of unknown origin other
than those named are stained one
per cent green.
